Sense Of Vocation:

The Sense of Vocation Larry Cochran, 1990-01-01 Larry Cochran examines the meaning of a sense of vocation as it is lived over the course of a life. By studying more than twenty autobiographies of people who clearly had a mission in life, the author identifies commonalities and weaves them into a general story or plot. The common story involves a detailed description of four phases of life from childhood through old age. It illustrates how a significant form that unifies desire arises in youth, how individuals transform themselves to adopt a meaningful role in a drama, how a work of life develops, and how a sense of vocation culminates. Thus, the book is important as a descriptive answer to the question of what makes life meaningful. It provides a paradigm case of career at its best.

Spiritual Capital Danah Zohar, Ian Marshall, 2004-05-01 Our world is at a crossroads; we must choose between two alternatives. The first is capitalism as we know it today: an amoral culture of short-term self-interest, profit maximization, emphasis on shareholder value, isolationist thinking, and profligate disregard of long-term consequences. Based on narrow assumptions about human nature and motivation, this system is unsustainable—a monster set to consume itself. The second alternative is spiritual capital, a values-based business culture in which wealth is accumulated in order to generate a decent profit while acting to raise the common good. Rather than emphasizing shareholder value, spiritual capital emphasizes stakeholder value, where stakeholders include the whole human race, present and future, and the planet itself. Spiritual capital nourishes and sustains the human spirit. The crucial question is how we can move from one alternative to the other, how we can move from present-day business capitalism to Spiritual Capital. Danah Zohar and Ian Marshall introduce the concept of spiritual intelligence (SQ) and describe how it can be used to shift individuals and our culture from a state of acting from lower motivations (fear, greed, anger, and self-assertion) to one of acting from higher motivations (exploration, cooperation, power within, mastery, and higher service). Zohar and Marshall describe how this shift actually happens in a given organizational culture. They look in depth at the issues that dominate corporate culture and how they are influenced by the processes of SQ transformation and discuss the leadership elite who must be the ones to bring about and embody this cultural shift. Finally, Zohar and Marshall argue that spiritual capital is still a valid and workable form of capitalism and detail what we as individuals can do to make it happen.

Engaging with Vocation on Campus Karen Lovett, Stephen Wilhoit, 2021-12-29 Bringing together narratives and theory-based analyses of practice, this volume illustrates collaborative curricular and co-curricular approaches to promoting vocational discernment amongst students in a Catholic university setting. Drawing on cultural, religious, and secular understandings of vocation, *Engaging with Vocation on Campus* illustrates how contemporary issues around vocation, work, and careers can be addressed within the Catholic intellectual and spiritual tradition. Chapters present a range of contributions from students, faculty, and staff from a single institution to highlight practical approaches to supporting students in this area and acknowledge the complementary and intersecting roles played by student support services, academic staff, and on-campus ministry in helping students develop

an individualised understanding of vocation Considering the value of both curricular or non curricular activities and processes the volume highlights spiritual personal and community value in offering students explicit and tailored support This text will benefit researchers academics and educators with an interest in higher education religious education and the Christian life and experience more broadly Those specifically interested in career guidance theological curriculum and pedagogy and Roman Catholicism will also benefit from this book Finite and Infinite Goods Robert Merrihew Adams,1999-07-29 Renowned scholar Robert Adams explores the relation between religion and ethics through a comprehensive philosophical account of a theistically based framework for ethics Adams framework begins with the good rather than the right and with excellence rather than usefulness He argues that loving the excellent of which adoring God is a clear example is the most fundamental aspect of a life well lived Developing his original and detailed theory Adams contends that devotion the sacred grace martyrdom worship vocation faith and other concepts drawn from religious ethics have been sorely overlooked in moral philosophy and can enrich the texture of ethical thought **Essential Catholic Social Thought** Bernard V. Brady,2008 This book provides a broad view of the basic features of the rich tradition of Catholic reflection and action on social issues In the words of Brady the Catholic social tradition is about action and contemplation It calls on persons to take responsibility for themselves and for their neighbors It aims to reach the hearts and the minds of persons It seeks personal conversion and social transformation Written in an accessible style and designed for a one semester course it presents the principles of Catholic social thought along with their historical development and abridged excerpts from relevant documents Each chapter includes study discussion questions and begins and ends with a traditional Catholic prayer The Intercollegian Young Men's Christian Associations of North America. International Committee. Student Department,1901 Vocation Douglas J. Schuurman,2004 The Protestant doctrine of vocation has had a profound influence on American culture but in recent years central tenets of this doctrine have come under assault *Vocation Discerning Our Callings in Life* explores current responses to the classic view of vocation and offers a revised statement and application of this doctrine for contemporary North American Christians According to Douglas Schuurman many Christians today find it both strange and difficult to interpret their social economic political and cultural lives as responses to God s calling To renew this biblical perspective Schuurman argues Christians must recover the language meaning and reality of life as vocation and his book helps do just that Developed in dialogue with audiences as diverse as college students industrial workers business leaders church leaders and professional theologians and ethicists the book examines the theological and ethical dimensions of vocation as these have been understood historically and in relation to our modern social setting How Do We Tell The Workers? Joe Kincheloe,2018-03-05 This book analyzes the ways that workers are educated via a variety of institutions to fit into the contemporary labour unfriendly economic system As he examines the history and purposes of vocational education Kincheloe illustrates the manner in which this education shapes the politics of the era How

Do We Tell the Workers is important reading for policy makers labour leaders and educators **Upbuilding Discourses in Various Spirits** Robert L. Perkins, 2005 Just as Howard V and Edna H Hong s translation of Upbuilding Discourses in Various Spirits marked the first appearance of this complete title in English in a single volume this collection of essays is the first to explore the fascinating and powerful compilation of Kierkegaard s writings that clearly initiate the second authorship

BOOK JACKET The Understanding of Christian Faith Schubert M. Ogden, 2010-04-01 As an introduction to Christian systematic theology this volume treats all the main theological topics from God to last things seeking to explicate critically the understanding of them implicit in Christian faith itself in terms at once appropriate to Jesus Christ and credible to human existence Its criteria accordingly are the ultimate criteria of on the one hand specifically Christian experience of Jesus as expressed by the apostolic witness and on the other hand generically human experience of existence as expressed by a sound philosophy And as befits an introduction it employs these same criteria to clarify the process of actually doing Christian systematic theology Thus it begins by explaining both what such a theology has to do and how it is to do it and ends by considering what it means to do theology as a Christian calling particularly as a professional theologian
