The Material Life of Human Beings Michael Brian Schiffer, 2002-01-22 In this ground breaking work the distinguished anthropological theorist Michael Brian Schiffer presents a profound challenge to the social sciences Through a broad range of examples he demonstrates how theories of behaviour and communication have too often ignored the fundamental importance of objects in human life In *The Material Life of Human Beings* the author builds upon the premise that the most important feature of human life is not language but the relationships which take place between people and objects The author shows that artifacts are involved in all modes of human communication be they visual auditory or tactile By creatively folding elements of postmodernist thought into a scientific framework he creates new concepts and models for understanding and analysing communication and behavior Challenging established theories within the social sciences Michael Brian Schiffer offers a reassessment of the centrality of materiality to everyday life Serials Catalog: Subject heading index Iowa State University.
