Institutional Translation for International Governance Fernando Prieto Ramos, 2018-02-08. This volume provides a state of the art overview of institutional translation issues related to the development of international law and policies for supranational integration and governance. These issues are explored from various angles in selected papers by guest specialists and findings of a large scale research project led by the editor. Focus is placed on key methodological and policy aspects of legal communication and translation quality in a variety of institutional settings including several comparative studies of the United Nations and European Union institutions. The first book of its kind on institutional translation with a focus on quality of legal communication, this work offers a unique combination of perspectives drawn together through a multilayered examination of methods e.g. corpus analysis, comparative law for translation and terminological analysis skills and working procedures. The chapters are organized into three sections: 1. contemporary issues and methods; 2. translation quality in law and policy making and implementation; and 3. translation and multilingual case law. , *Shallow Equality and Symbolic Jurisprudence in Multilingual Legal Orders* Janny H.C. Leung, 2019-01-28. What challenges face jurisdictions that attempt to conduct law in two or more languages? How does choosing a legal language affect the way in which justice is delivered? Answers to these questions are vital for the 75 officially bilingual and multilingual states of the world as well as for other states contemplating a move towards multilingualism. Arguably such questions have implications for all countries in a world characterized by the pressures of globalization, economic integration, population mobility, decolonization and linguistic re-colonization. For lawyers addressing such challenges is made essential by the increased frequency and scale of transnational legal dealings and proceedings as well as by the lengthening reach of international law. But it is not only policy makers, legislators and other legal practitioners who must think about such questions. The relationship between societal multilingualism and law also raises questions for the burgeoning field of language and law which posits among other tenets the centrality of language in legal processes. In this book Janny H.C. Leung examines key aspects of legal multilingualism. Drawing extensively on case studies she describes the implications of the legal practical and ideological dilemmas encountered in a given country when it becomes bilingual or multilingual, discussing such issues as how legal certainty and the linguistic ideology of authenticity may be challenged in a multilingual jurisdiction, how courts balance the language preferences of different courtroom participants and what historical socio-political and economic factors may influence the decision to cement a given language as a jurisdiction's official language. Throughout Leung elaborates a theory of symbolic jurisprudence to explore common dilemmas found across countries despite their varied political and cultural settings and argues that linguistic equality as proclaimed and practiced today is a shallow kind of equality. Although officially multilingual jurisdictions appear to be more inclusive than their monolingual counterparts they run the risk of disguising substantive

inequalities and displacing real efforts for more progressive social change This is the first book to offer overarching discussion of how such issues relate to each other and the first systematic study of legal multilingualism as a global phenomenon

Interpretation of Law in the Global World: From Particularism to a Universal Approach Joanna Jemielniak, Przemysław Mikłaszewicz, 2010-04-08 Capturing the Change Universalising Tendencies in Legal Interpretation Joanna Jemielniak and Przemysław Mikłaszewicz International and supranational integration on the European continent as well as the harmonisation of the rules of international trade and the accompanying development and global popularity of the resolution of commercial disputes through arbitration constantly exerts a considerable influence on modern legal systems The sources of each of these phenomena are different and their action is dissimilar Each can be described as reaching either from the top to the bottom through the direct involvement of interested States and consequently affecting their internal legal systems international and supranational integration harmonisation of trade regulations through public international law instruments or bottom up as a result of activity by private parties leading to the achievement of uniform practices and standards arbitration *lex mercatoria* Nonetheless they both enrich national legal cultures and contribute to transgressing the limits of national local particularisms in creating interpreting and applying the law The aim of this book is to demonstrate how these processes have influenced the interpretation of law how they have shaped the methods and techniques of the interpretation and with what consequences for the outcomes of the interpretative procedures In assessing the extent of this influence due regard must be paid to the fact that the interpretation of law is not in principle directly determined by the provisions of law itself

Multilingualism and the Harmonisation of European Law Barbara Pozzo, Valentina Jacometti, 2006-01-01 As European lawyers dealing with cross border issues quickly learn the terms contract contrat and contratto signify three very different legal concepts This illustration highlights the importance of studying the relationships between language and law particularly in the context of strong pressure from the European Community to harmonise the laws of the Member States a process which appears difficult if not impossible unless there is an understanding of the profound differences which exist between the various legal systems and the development of a common European legal language from the 21 official languages now a feature of the European Union This admirable collection of essays brings

together the work of practitioners and scholars in three fields pertinent to this endeavour representatives of Community institutions who are involved in drafting translating and interpreting multilingual texts jurists and comparative lawyers from both civil law and common law systems and researchers in linguistics and language issues Among the many relevant matters they discuss are the following terminologies of rights and remedies the role of the European Court of Justice as interpreter multilingualism in parliamentary practice the role of the European Commissions legal revisers and translation at the European Court of Justice The essays were originally presented as papers at a conference held in Como in April 2005 organised by the Faculty of Law of the University of Insubria together with the Centro Interuniversitario di Ricerca in Diritto Comparato Interuniversity Centre for Research in Comparative Law set up by the Universities of Milan Bologna and Insubria This event took place in the context of a research project co financed by the University of Insubria and the Italian Ministry of Education University and Research The particular objective of the conference was to make a comparison between the day to day working requirements within the Community institutions each with its own particular needs and the longer term analysis which the academic world could bring to bear on the problems of the translatability of legal terms As the first in depth appraisal of this crucial matter this book cannot fail to find interested readers among all the branches of European law practitioners and scholars local and international It is sure to be a highly valuable resource for many years to come

Diversity in International Arbitration Shahla F. Ali,Filip Balcerzak,Giorgio F. Colombo,Joshua Karton,2022-11-04 After decades of focus on harmonization which for too many represents no more than Western legal dominance and a largely homogeneous arbitration practitioner community this ground breaking book explores the increasing attention being paid to the need for greater diversity in the international arbitration ecosystem It examines diversity in all its forms investigating how best to develop an international arbitral order that is not just tolerant of diversity but that sustains and promotes diversity in concert with harmonized practices The International and Comparative Law Quarterly ,1981 The International and comparative law quarterly offers coverage of comparative law as well as public and private international law It has maintained its pre eminence as one of the most important journals of its kind encompassing human rights and European law It continues to offer practitioners and academics wide topical coverage without compromising rigorous editorial standards
