Natural Theology Kelly Cherry,1988 **Literature and Natural Theology in Early Modern England** Katherine Calloway,2023-10-19 Katherine Calloway explores the relationship between science and religion through a wide ranging selection of early modern English poets **The World in the Shadow of God** Ephraim Radner,2010-06-01 In *The World in the Shadow of God* Ephraim Radner argues for a vigorous Christian natural theology and insists that such a theology must of necessity be performed poetically The peculiar character of such a theology is found in its disclosing of the natural limits that indicate indirectly the impinging and more fundamental reality of the divine life Natural theology represents the encounter between created reality and the shadow of God's creative and revelatory grace However the encounter is a morally demanding task for the Christian church if it is to be held accountable to the truth on which its life is based The first portion of the book offers an extended critical essay on the nature of this sort of natural theology while the second provides a developed set of examples through poems that display the natural world in light of the truths articulated in the Apostles Creed Those interested in the intersection of theology literature history and the natural world will be challenged by this attempt to renew a basic element of Christian knowledge and culture **The Oxford Handbook of Natural Theology** Russell Re Manning,2013-01-17 The *Oxford Handbook of Natural Theology* is the first collection to consider the full breadth of natural theology from both historical and contemporary perspectives and to bring together leading scholars to offer accessible high level accounts of the major themes The volume embodies and develops the recent revival of interest in natural theology as a topic of serious critical engagement Frequently misunderstood or polemicized natural theology is an under studied yet persistent and pervasive presence throughout the history of thought about ultimate reality from the classical Greek theology of the philosophers to twenty first century debates in science and religion Of interest to students and scholars from a wide range of disciplines this authoritative handbook draws on the very best of contemporary scholarship to present a critical overview of the subject area Thirty eight new essays trace the transformations of natural theology in different historical and religious contexts the place of natural theology in different philosophical traditions and diverse scientific disciplines and the various cultural and aesthetic approaches to natural theology to reveal a rich seam of multi faceted theological reflection rooted in human nature and the environments within which we find ourselves

Natural Theology in the Scientific Revolution Katherine Calloway,2015-10-06 In the seventeenth century scientific discoveries called into question established Christian theology It has been claimed that contemporary thinkers contributed to this conflict model by using the discoveries of the natural world to prove the existence of God Calloway challenges this view by close examination of five key texts of the period The Cambridge Companion to Victorian Poetry Joseph Bristow,2000-10-26 This *Companion to Victorian Poetry* provides an introduction to many of the pressing issues that absorbed the attention of poets from the 1830s to the 1890s It introduces readers to a range of topics including historicism

patriotism prosody and religious belief The thirteen specially commissioned chapters offer insights into the works of well known figures such as Matthew Arnold Robert Browning and Alfred Tennyson and the writings of women poets like Michael Field Amy Levy and Augusta Webster whose contribution to Victorian culture has in more recent years been acknowledged by modern scholars Revealing the breadth of the Victorians experiments with poetic form this Companion also discloses the extent to which their writings addressed the prominent intellectual and social questions of the day The volume which will be of interest to scholars and students alike features a detailed chronology of the Victorian period and a comprehensive guide to further reading

Robert Browning: Selected Poems John Woolford, Daniel Karlin, Joseph Phelan, 2013-11-19 Robert Browning 1812 1889 was one of the defining figures of the Victorian age Famous in his lifetime for his elopement and marriage to Elizabeth Barratt his critical reputation grew steadily in the years following her early death Browning s mastery of dramatic verse was evident throughout his career from such chillingly unforgettable monologues as *My Last Duchess* and *Porphyria* to the mature work included in his collection *Dramatis Personae* This selection chosen by leading scholars reveals the innovation complexity and profound psychological insight that have ensured Browning s enduring reputation and his continuing appeal to readers today Browning *Selected Poems* results from a completely fresh appraisal of the canon text and context of the writer s work The poems are presented in the order of their composition and in the text in which they were first published giving a unique insight into the development of Browning s art An introduction and chronology offer useful background material whilst annotations and headnotes provide details of composition publication sources and contemporary reception This authoritative yet accessible selection should become the first point of reference for scholar student and general reader alike

The Poems of Browning: Volume Four John Woolford, Daniel Karlin, Joseph Phelan, 2014-05-12 The Poems of Robert Browning is a multi volume edition of the poetry of Robert Browning 1812 1889 resulting from a completely fresh appraisal of the canon text and context of his work The poems are presented in the order of their composition and in the text in which they were first published giving a unique insight into the origins and development of Browning s art Annotations and headnotes in keeping with the traditions of Longman Annotated English Poets are full and informative and provide details of composition publication sources and contemporary reception Volumes one 1826 1840 and two 1841 1846 presented the poems from his Browning s early years while volume three 1847 61 covered the period of his marriage to Elizabeth Barrett and residence in Italy Volume four 1862 71 deals with the decade following Elizabeth s death and Browning s return to England These years saw the appearance of some of his most significant work and a steady rise in his critical reputation In *Dramatis Personae* 1864 Browning uses his characteristic dramatic mode to expose predicaments of thought and feeling in characters ranging from Shakespeare s Caliban to the cheating medium Mr Sludge other poems dramatize Browning s complicated feelings about the deceptions and self deceptions of romantic love Balaustion s Adventure 1871 is an engaging reworking of Euripides *Alcestis* whose theme the resurrection of a beloved lost wife has poignant personal

resonance for Browning while Prince Hohenstiel Schwangau published in the same year offers a thinly veiled account of the life and actions of Napoleon III the recently deposed Emperor of France over whom Browning and Elizabeth had quarrelled In these two long poems Browning can be seen engaged in the dialogue with Elizabeth that was to shape much of his work during the remainder of his writing life **Ramified Natural Theology in Science and Religion** Rodney

Holder,2020-10-15 This book offers a rationale for a new ramified natural theology that is in dialogue with both science and historical critical study of the Bible Traditionally knowledge of God has been seen to come from two sources nature and revelation However a rigid separation between these sources cannot be maintained since what purports to be revelation cannot be accepted without qualification rational argument is needed to infer both the existence of God from nature and the particular truth claims of the Christian faith from the Bible Hence the distinction between bare natural theology and ramified natural theology The book begins with bare natural theology as background to its main focus on ramified natural theology Bayesian confirmation theory is utilised to evaluate competing hypotheses in both cases in a similar manner to that by which competing hypotheses in science can be evaluated on the basis of empirical data In this way a case is built up for the rationality of a Christian theist worldview Addressing issues of science theology and revelation in a new framework this book will be of keen interest to scholars working in Religion and Science Natural Theology Philosophy of Religion Biblical Studies Systematic Theology and Science and Culture **Translation as Transformation in Victorian Poetry** Annmarie

Drury,2015-05-05 Explores how Victorian poetry and translation dynamically influenced one another in an age of empire
