Nature And Religious Imagination From Edwards To Bushnell:

Nature and Religious Imagination Conrad Cherry,1980

Horace Bushnell on Christian Character

Development Lee J. Makowski,1999 Horace Bushnell on Christian Character Development examines the issue of character development in the speculative works and sermons of Horace Bushnell in relation to Orthodox Calvinist Unitarian and contemporary Catholic considerations of the same The author emphasizes the practical purpose of theological investigation to promote the universal cause of personal growth and development He systematically presents Bushnell's thought on that popular issue by way of a critical analysis of his language theory his rhetoric and his understanding of theology as a kind of persuasive art Bushnell proposed a theological alternative to the typical understanding of character development conversion espoused by Orthodox Calvinism Unitarianism and secular humanism His alternative incorporated the strengths of those historically influential bodies of thought and compensated for what he thought to be deficient in them In this book the reader is introduced to a theology that is remarkable for its insights into human interiority its soundness as a proposal for wholesome human living and its ecumenical spirit

The Theology of Jonathan Edwards Conrad Cherry,1990-02-22 the Edwards of Cherry sits for a n intellectual portrait done with concepts as colors and with reason as the brush It is a picture faithfully and competently drawn New York Times Book Review 1967 this is a very good book It stresses the integral relationship of heart and mind intellect and will throughout Edwards an important book required reading for any student of Edwards Church History 1967 *The Philosophical Theology of Jonathan Edwards* Sang Hyun Lee,2020-12-08 This book demonstrates the originality and coherence of Jonathan Edwards philosophical theology using his dynamic reconception of reality as the interpretive key The author argues that what underlies Edwards writings is a radical shift from the traditional Western metaphysics of substance and form to a new conception of the world as a network of dispositions active and abiding principles that possess reality apart from their manifestations in actions and events Edwards dispositional ontology enables him to restate the Augustinian Calvinist tradition in theology in a strikingly modern philosophical framework A prime example of Edwards innovative reconstruction in philosophical theology is his conception of God as both eternal actuality and a disposition to repeat that actuality within God and also through creation This view is a compelling alternative to the traditional Western doctrine of God as changeless actuality on the one hand and the recent process theologians excessive stress on God's involvement in change on the other Edwards achievement was that he saw dynamic movement as essential to God's own life without compromising the traditional Christian tenets of God's prior actuality and transcendence The author of this volume also explicates the way in which Edwards dynamic reconception of reality informs his theories of imagination aesthetic perception the knowledge of God and the meaning of history This expanded edition includes a new preface and a new appendix titled Jonathan Edwards on Nature
