Nature Diary:

Writing a Nature Diary Althea Jones, Benchmark Education Company, LLC, 2013 **Nature Diary** Marjolein Bastin, 1991-06-01 A look at nature throughout the year this book contains realistic nature scenes vignettes and still lifes which are accompanied by observations and insights into the natural world *Nature's Diary* Francis Henry Allen, 1877

Keeping a Nature Journal, 3rd Edition Clare Walker Leslie, 2021-05-25 Originally published in 2000 with endorsements from E O Wilson and Jane Goodall Clare Walker Leslie's Keeping a Nature Journal was at the forefront of the nature observation and journaling movement Leslie's approach has long been acclaimed for its accessible style of teaching people to see witness and appreciate the wonders of nature and her classic guide is still used by individuals groups and educators ranging from elementary school teachers to college level instructors The third edition features more of Leslie's step by step drawing techniques a new selection of pages from her own journals which she's kept for 40 years and an expanded range of prompts for observing particular aspects of the natural world in any location With an emphasis on learning to see and observe Leslie shows how drawing nature doesn't require special skills artistic ability or even nature knowledge and it is a tool everyone can use to record observations and experience the benefits of a stronger connection to the natural world VOICES TO THE CLOUDS The Collective Nature Journal Cliff J Sidnell, 2017-01-07 VOICES TO THE

CLOUDS is more than merely a study with a fifteen year compass but a collection of gathered nature notes set in context with the writings of arguably England's greatest naturalists Gilbert White John Clare and Richard Jefferies and others The book is divided into 5 year sections and within each is a monthly narrative with climate tables first butterfly sighting birds and butterflies by month top three daily birds temperature and pressure summary frost and heat sequences and more The final section assembles all the data from the previous three sections and to conclude this collective nature journal there is a fulsome index VOICES TO THE CLOUDS may best be described as another slice of the natural world that has been extrapolated from the toilsome drudgery of amassing observations for experience proves that the longer a single locality is studied the more is found in it Richard Jefferies 1885 **Nature Study Bulletin** Lyman D. Wooster, 1917 **Women and Nature** Glenda Riley, 1999-01-01 Long before Rachel Carson's fight against pesticides placed female environmental activists in the national spotlight women were involved in American environmentalism In Women and Nature Saving the Wild West Glenda Riley calls for a reappraisal of the roots of the American conservation movement This thoroughly researched study of women conservationists provides a needed corrective to the male dominated historiography of environmental studies The early conservation movement gained much from women's widespread involvement Florence Merriam Bailey classified the birds of New Mexico and encouraged appreciation of nature and concern for environmental problems Ornithologist Margaret Morse Nice published widely on Oklahoma birds In 1902 Mary Knight Britton established the Wild Flower Preservation Society of America Women also stimulated economic endeavors related to environmental concerns including nature writing

and photography health spas and resorts and outdoor clothing and equipment From botanists birders and nature writers to club women and travelers untold numbers of women have contributed to the groundswell of support for environmentalism
