Nature Of Intention:

The nature of intention Jack William Meiland,1972 **The Nature of Intention** Jack W. Meiland,1970 **The Nature of Legislative Intent** Richard Ekins,2012-10-12 Are legislatures able to form and act on intentions The question matters because the interpretation of statutes is often thought to centre on the intention of the legislature and because the way in which the legislature acts is relevant to the authority it does or should enjoy Many scholars argue that legislative intent is a fiction the legislative assembly is a large diverse group rather than a single person and it seems a mystery how the intentions of the individual legislators might somehow add up to a coherent group intention This book argues that in enacting a statute the well formed legislature forms and acts on a detailed intention which is the legislative intent The foundation of the argument is an analysis of how the members of purposive groups act together by way of common plans sometimes forming complex group agents The book extends this analysis to the legislature considering what it is to legislate and how members of the assembly cooperate to legislate The book argues that to legislate is to choose to change the law for some reason the well formed legislature has the capacity to consider what should be done and to act to that end This argument is supported by reflection on the centrality of intention to the nature of language use The book then explains in detail how members of the assembly form and act on joint intentions which do not reduce to the intentions of each member before outlining some implications of this account for the practice of statutory interpretation Developing a robust account of the nature and importance of legislative intention the book represents a significant contribution to the literature on deliberative democracy that will be of interest to all those thinking about legal interpretation and constitutional theory *On the Nature of Genocidal Intent* Jason J. Campbell,2012-10-04 Campbell offers a conceptual look into the nature of genocidal intent systematically analyzing the conceptual and logical structures for genocidal intent and discussing its theoretical foundations The analysis offers particular insight into the process of operationalizing genocide and mass extermination The investigation includes discussion of the roles orchestrators play and the systematic development of a genocidal strategy which requires the intent to purge pre selected demographic identifiers from the population Cambell also analyzes in detail the dynamic process of generational conflict wherein former perpetrators become victims and victims become perpetrators *Intention and Non-Doing in Therapeutic Bodywork* Andrew Pike,2021-09-21 Exploring the Buddhist Taoist concept of non doing and intention in relation to bodywork this book focuses on how the therapist should approach their client without agenda and meet them where they are at This requires the therapist to pay attention to their own surfacing intentions and leave assumptions behind so they may focus on simply being which is a profoundly active non reactive expression of presence rather than a passive state of resignation The ramifications of sub conscious doing and wilful intention can negatively impact expressions of health and so the author explains how therapists may skilfully navigate between intention attention and embodied non doing whilst treating clients and how this creates the foundations for safe relational touch History of

Chinese Philosophy in the Ming Dynasty Xuezhi Zhang, 2021-04-26 This book starts with the classification of the main views of different thinkers after the study of the original materials which covers all the thinkers thoughts and conceptions A major objective of this book is to reveal the ideas of the philosophers Key ideological opinions are stated with the former discussion of exact questions and further clarification of their philosophical meaning which enables the readers to better understand the meaning and value of the philosophical thoughts Since the logic and history are in accordance with each other a frame of conception is formed then Then the author clearly explains the logical relationship in the frame mentioned before as well as the formation of the key concepts and their relationship

The Nature of Dignity Ronald Bontekoe, 2008-01-01 The Nature of Dignity argues that given what evolutionary biology tells us about human nature we need a new understanding of what is involved in the exhibition of personal dignity since Kant and other Enlightenment figures whose ideas of dignity have shaped our own were wrong in several of their key assumptions The required new conception of dignity is then developed on the basis of insights gleaned from history political economics literature film hermeneutical ethics and evolutionary biology

State of Nature Or Eden? Helen Thornton, 2005 State of Nature or Eden Thomas Hobbes and his Contemporaries on the Natural Condition of Human Beings aims to explain how Hobbes s state of nature was understood by a contemporary readership whose most important reference point for such a condition was the original condition of human beings at the creation in other words in Eden The book uses ideas about how readers brought their own reading of other texts to any reading that reading is affected by the context in which the reader reads and that the Bible was the model for all reading in the early modern period It combines these ideas with the primary evidence of the contemporary critical reaction to Hobbes to reconstruct how Hobbes s state of nature was read by his contemporaries The book argues that what determined how Hobbes s seventeenth century readers responded to his description of the state of nature were their views on the effects of the Fall Hobbes s contemporary critics the majority of whom were Aristotelians and Arminians thought that the Fall had corrupted human nature although not to the extent implied by Hobbes s description Further they wanted to look at human beings as they should have been or ought to be Hobbes on the other hand wanted to look at human beings as they were and in doing so was closer to Augustinian Lutheran and Reformed interpretations which argued that nature had been inverted by the Fall For those of Hobbes s contemporaries who shared these theological assumptions there were important parallels to be seen between Hobbes s account and that of scripture although on some points his description could have been seen as a subversion of scripture The book also demonstrates that Hobbes was working within the Protestant tradition as well as showing how he used different aspects of this tradition Helen Thornton is an Independent Scholar She completed her PhD at the University of Hull
