Gene Matlock

Natures Religion Versus Mankinds Spiritual Fraud:

Nature's Religion Versus Mankind's Spiritual Frauds! Gene Matlock,2003-08 Many people can't accept the truth that Nature has a unique plan and purpose for each animal species on earth. This plan is the religion she has outlined for them. Man's troubles have arisen because he has decided that Nature's religion or as the Hindus call it Isvar isn't good enough. He thinks manmade rules and religions are better than Nature's any day. But humans don't all think alike. The founders and leaders of Man's different religions have their own agendas for mankind. As a result, this world is overburdened with thousands of different artificially made religions, each claiming to have invented Mother Nature. Although some religions will actually kill people who won't convert, Nature does not destroy anybody for noncompliance. She just assigns them a different job description. If Nature were human, the religious nuts would even try to convert her. But Nature or the Isvar goes by its own rules, not mankind's. So why does mankind rebel and create his own ideas of right and wrong? What is it about Nature's religion that makes everybody hate it? To become healthy, wealthy, and wise, obey Nature's rules. This book points the way.

The Ego-Mankind's Inner Terrorist! Gene Matlock,2005-09 Gene Matlock says personal testimonies of reincarnation, contact with spirits, bilocation, and all manner of psychic events are invalid as scientific proofs. Most people aren't conscious of psychic experiences and events operating in their lives. Gene says that we can and must provide our fellow humans with a common and collective memory of having lived before. They don't need to remember any details of past lives but just the memory of having had repeated births and deaths. Gene claims to have valid evidence that all of us remember having lived before. Gene also traces the original meaning of God back to its North Indian roots, telling how God reveals his/her existence through natural archetypes. He says Christianity originated more than ten millennia ago in India as Krishtaya, providing historical evidence. He also explains carefully why religion can never be eradicated, plus many other fascinating and little-known facts. Gene shows how anyone can break the Bible Code easily without computer assistance. Within these pages is a simple, instant Cabala for all people of all religions.
