Natures Altars Mountains Gender And American Environmentalism:

Nature's Altars Susan R. Schrepfer, 2005 Book Review **On Zion's Mount** Jared Farmer, 2010-04-10 Shrouded in the lore of legendary Indians Mt Timpanogos beckons the urban populace of Utah And yet no Indian legend graced the mount until Mormon settlers conjured it once they had displaced the local Indians the Utes from their actual landmark Utah Lake On Zion's Mount tells the story of this curious shift It is a quintessentially American story about the fraught process of making oneself native in a strange land But it is also a complex tale of how cultures confer meaning on the environment how they create homelands Only in Utah did Euro American settlers conceive of having a homeland in the Native American sense an endemic spiritual geography They called it Zion Mormonism a religion indigenous to the United States originally embraced Indians as Lamanites or spiritual kin On Zion's Mount shows how paradoxically the Mormons created their homeland at the expense of the local Indians and how they expressed their sense of belonging by investing Timpanogos with Indian meaning This same pattern was repeated across the United States Jared Farmer reveals how settlers and their descendants the new natives bestowed Indian place names and recited pseudo Indian legends about those places cultural acts that still affect the way we think about American Indians and American landscapes **The American Environment Revisited** Geoffrey L. Buckley, Yolonda Youngs, 2018-03-01 This innovative book provides a dynamic and often surprising view of the range of environmental issues facing the United States today A distinguished group of scholars examines the growing temporal spatial and thematic breadth of topics historical geographers are now exploring Seventeen original chapters examine topics such as forest conservation mining landscapes urban environment justice solid waste exotic species environmental photography national and state park management recreation and tourism and pest control Commemorating the twenty fifth anniversary of the publication of the seminal work *The American Environment Interpretations of Past Geographies* the book clearly shows much has changed since 1992 Indeed not only has the range of issues expanded but an increasing number of geographers are forging links with environmental historians promoting a level of intellectual cross fertilization that benefits both disciplines As a result environmental historical geographies today are richer and more diverse than ever *The American Environment Revisited* offers a comprehensive overview that gives both specialist and general readers a fascinating look at our changing relationships with nature over time *American Wilderness* Michael L. Lewis, 2007 Addresses the state of scholarship on the political cultural and intellectual history of American responses to wilderness from first contact to the present What is Environmental History? The American Adrenaline Narrative Kristin J. Jacobson, 2020-06-01

The American Adrenaline Narrative considers the nature of perilous outdoor adventure tales their gendered biases and how they simultaneously promote and hinder ecological sustainability To explore these themes Kristin J Jacobson defines and compares adrenaline narratives by a range of American authors published after the first Earth Day in 1970 a time frame selected as a watershed moment for the contemporary American environmental movement The forty plus years since that day also mark the rise in the popularity and marketing of many things as extreme including sports jobs travel beverages gum makeovers laundry detergent and even the environmental movement itself Jacobson maps the American eco imagination via adrenaline narratives grounding them in the traditional literary practice of close reading analysis and in ecofeminism She surveys a range of popular and lesser known primary texts by American authors including best selling books such as Jon Krakauer's *Into Thin Air* and Aron Ralston's *Between a Rock and a Hard Place* and lesser known texts such as Patricia C McCairen's *Canyon Solitude* Eddy L Harris's *Mississippi Solo* and Stacy Allison's *Beyond the Limits* She also discusses such narratives as they appear in print and online articles and magazines feature length and short films television shows amateur videos social networking site posts fiction advertising and blogs Jacobson contends that these stories constitute a distinctive genre because unlike traditional nature travel and sports writing adrenaline narratives sustain heightened risk or the element of the extreme within a natural setting Additionally these narratives provide important insight into the American environmental imagination's connection to masculinity and adventure knowledge that helps us grasp the current climate crisis and how narrative understanding provides a needed intervention
