Parliament. House of Commons. Environmental Audit Committee,2015 Where LNPs have been successful they have demonstrated the benefits of local engagement harnessing enthusiasm in finding solutions to local priorities Where they have not been successful the solution is not to impose additional tasks but to re energise the unfocussed local commitment Many LNPs are starved of funding and resources meaning much of the good work in getting them up and running is being undone The whole country urban as well as rural need the natural environment protections that LNPs can provide Rather than leave under performing LNPs to wither away the next Government should urgently review LNPs and their funding and re energise the initiative

Nature and Culture in Intimate Partner Violence Silvia Bonino,2018-11-16 This innovative book aims to further our understanding of violence in intimate relationships between men and women by combining research from psychology cultural studies and biology The author examines why western culture often justifies and encourages primitive forms of relationships based on domination and submission and considers not only the cultural influences but also the biological aspects in their interaction The book clarifies the biological roots of aggression and affection in intimate relationships in humans showing that considering the biological roots of male dominance on women does not imply any justification Bonino makes the case that awareness about the biological roots of violence and about the cultural messages supporting them is necessary for developing different messages and educational practices promoting human capacity of personal affective relationship where partners empathically recognize themselves as equal human beings Relationships are examined in relation to a domination submission framework with the author emphasizing the role

individuals can play in promoting non aggressive relationships By examining aggressive behaviour in relation to cultural social psychological and biological ideas the author seeks to clarify the cause of violence in relation to gendered roles This is fascinating reading for anyone interested in violence in relationships and suitable for students and academics in psychology and the social sciences **The Great Partnership** Jonathan Sacks,2012-09-11 A renowned author and rabbi discusses the relationship between science and religion and the importance of the coexistence of both in that religion is the search for meaning and science is the search for explanation 20 000 first printing **A Compilation of the Tennessee Statutes of a General Public Nature, in Force on the First Day of January, 1919** Tennessee,1919
