## **Natures Metropolis Chicago And The Great West:**

Nature's Metropolis: Chicago and the Great West William Cronon, 1992-05-05 Argues that the American frontier and city developed together by focusing on Chicago and tracing its roots from Native American habitation to its transformation by white settlement and development

An Analysis of William Cronon's Nature's Metropolis Cheryl Hudson, 2017-07-28 What caused the rise of Chicago and how did the city's expansion fuel the westward movement of the American frontier and influence the type of society that evolved as a result Nature's Metropolis emerged as a result of William Cronon asking and answering those questions and the work can usefully be seen as an extended example of the critical thinking skill of problem solving in action Cronon navigates a path between the followers of Frederick Jackson Turner author of the thesis that American character was shaped by the experience of the frontier and revisionists who sought to suggest that the rugged individualism Turner depicted as a creation of life in the West was little but a fiction For Cronon the most productive question to ask was not whether or not men forged in the liberty loving furnace of the Wild West had the sort of impact on America that Turner posited but the quite different one of how capitalism and political economy had combined to drive the westward expansion of the US For Cronon individualism was scarcely even possible in a capitalist machine in which humans were little more than cogs and the needs and demands of capital not capitalists prevailed Nature's Metropolis then is a work in which the rise of Chicago is explained by generating alternative possibilities and one that uses a rigorous study of the evidence to decide between competing solutions to the problem It is also a fine work of interpretation for a large part of Cronon's argument revolves around his attempt to define exactly what is rural and what is urban and how the two interact to create a novel economic force

Nature's Metropolis William Cronon, 1991 Argues that the American frontier and city developed together by focusing on Chicago and tracing its roots from Native American habitation to its transformation by white settlement and development

Nature's Metropolis Cheryl Hudson, 2017-07-15 Before the publication of Nature's Metropolis in 1991 historians generally treated urban and rural areas as distinct from one another each following separate lines of development and maturity

Nature's Metropolis: Chicago and the Great West William Cronon, 2009-11-02 A Finalist for the Pulitzer Prize and Winner of the Bancroft Prize No one has written a better book about a city Nature's Metropolis is elegant testimony to the proposition that economic urban environmental and business history can be as graceful powerful and fascinating as a novel Kenneth T Jackson Boston Globe

**The Blackwell City Reader** Gary Bridge, Sophie Watson, 2010-03-08 Updated to reflect the most current thinking on urban studies The Blackwell City Reader Second Edition features a comprehensive selection of multidisciplinary readings relating to the analysis and experience of global cities Includes new sections of materialities and mobilities to capture the most recent debates The most international reader of its kind including extensive coverage of urban issues in Asia China and India Combines theoretical approaches with a wide range of geographical case studies Organized to be used as a stand alone text or alongside Blackwell's A Companion

to the City      **The Wiley-Blackwell Encyclopedia of Urban and Regional Studies** Anthony M. Orum, 2019-04-15  
 Provides comprehensive coverage of major topics in urban and regional studies Under the guidance of Editor in Chief Anthony Orum this definitive reference work covers central and emergent topics in the field through an examination of urban and regional conditions and variation across the world It also provides authoritative entries on the main conceptual tools used by anthropologists sociologists geographers and political scientists in the study of cities and regions Among such concepts are those of place and space geographical regions the nature of power and politics in cities urban culture and many others The Wiley Blackwell Encyclopedia of Urban and Regional Studies captures the character of complex urban and regional dynamics across the globe including timely entries on Latin America Africa India and China At the same time it contains illuminating entries on some of the current concepts that seek to grasp the essence of the global world today such as those of Friedmann and Sassen on global cities It also includes discussions of recent economic writings on cities and regions such as those of Richard Florida Comprised of over 450 entries on the most important topics and from a range of theoretical perspectives Features authoritative entries on topics ranging from gender and the city to biographical profiles of figures like Frank Lloyd Wright Takes a global perspective with entries providing coverage of Latin America and Africa India and China and the US and Europe Includes biographies of central figures in urban and regional studies such as Doreen Massey Peter Hall Neil Smith and Henri Lefebvre The Wiley Blackwell Encyclopedia of Urban and Regional Studies is an indispensable reference for students and researchers in urban and regional studies urban sociology urban geography and urban anthropology

**Chicago by the Book** The Caxton Club, 2018-11-20 Despite its rough and tumble image Chicago has long been identified as a city where books take center stage In fact a volume by A J Liebling gave the Second City its nickname Upton Sinclair's *The Jungle* arose from the midwestern capital's most infamous industry The great Chicago Fire led to the founding of the Chicago Public Library The city has fostered writers such as Nelson Algren Saul Bellow and Gwendolyn Brooks Chicago's literary magazines *The Little Review* and *Poetry* introduced the world to Eliot Hemingway Joyce and Pound The city's robust commercial printing industry supported a flourishing culture of the book With this beautifully produced collection Chicago's rich literary tradition finally gets its due *Chicago by the Book* profiles 101 landmark publications about Chicago from the past 170 years that have helped define the city and its image Each title carefully selected by the Caxton Club a venerable Chicago bibliophilic organization is the focus of an illustrated essay by a leading scholar writer or bibliophile Arranged chronologically to show the history of both the city and its books the essays can be read in order from Mrs John H Kinzie's 1844 Narrative of the Massacre of Chicago to Sara Paretsky's 2015 crime novel *Brush Back* Or one can dip in and out savoring reflections on the arts sports crime race relations urban planning politics and even Mrs O Leary's legendary cow The selections do not shy from the underside of the city recognizing that its grit and graft have as much a place in the written imagination as soaring odes and boosterism As Neil Harris observes in his introduction Even when

Chicagoans celebrate their hearth and home they do so while acknowledging deep seated flaws At the same time this collection heartily reminds us all of what makes Chicago as Norman Mailer called it the great American city With essays from among others Ira Berkow Thomas Dyja Ann Durkin Keating Alex Kotlowitz Toni Preckwinkle Frank Rich Don Share Carl Smith Regina Taylor Garry Wills and William Julius Wilson and featuring works by Saul Bellow Gwendolyn Brooks Sandra Cisneros Clarence Darrow Erik Larson David Mamet Studs Terkel Ida B Wells Barnett Frank Lloyd Wright and many more

On Turner's Trail Wilbur R. Jacobs, 2021-10-08 Should Frederick Jackson Turner be revered as the father of western history or reviled as a misguided advocate of a frontier spirit and rugged individualism that denied cultural diversity and produced widespread environmental destruction Dividing into camps over the issue western historians place him everywhere from one end of the spectrum to the other In this provocative new interpretation of Turner's life work and legacy Wilbur Jacobs challenges the views of traditionalists and views of traditionalists and revisionists alike From extensive research in the Turner archives a nationwide search for additional Turner correspondence interviews with historians and a lifetime of collecting Turner anecdotes Jacobs chronicles Turner's professional and sometimes personal bequest through 100 years of Western historical writing Jacobs adds his voice to the heated debate by mixing a sophisticated critique of historical writing with stories of professional intrigue the fights to protect Turner's legacy limit access to the Turner archives and control the Western history Association He traces the intellectual development of Turner's frontier theory explores the intense rivalry between two major Turnerian disciples Frederick Merk and Ray A Billington as they vied for control of Turner's legacy and analyzes the efforts of new western historians who seek to erase Turner and Billington from the landscape of what is now called the history of the West Balanced in his assessments Jacobs treats Turner and his disciples with a sympathetic yet critical eye He points out Turner's limitations in dealing with environmental racial ethnic and urban themes as well as the shortcomings of Merk Billington and other Turnerians At the same time however Jacobs illuminates the major contributions of their work Despite their intense differences Jacobs argues all western historians remain inextricably linked by Turner's legacy

The Making of Urban America Raymond A. Mohl, Roger Biles, 2023-10-03 The revised and updated third edition of *The Making of Urban America* includes seven new articles and a richly detailed historiographical essay that discusses the vast urban history literature added to the canon since the publication of the second edition The authors extensively revised introductions and the fifteen reprinted articles trace urban development from the preindustrial city to the twentieth century city With emphasis on the social economic political commercial and cultural aspects of urban history these essays illustrate the growth and change that created modern day urban life Dynamic topics such as technology immigration and ethnicity suburbanization sunbelt cities urban political history and planning and housing are examined *The Making of Urban America* is the only reader available that covers all of U S urban history and that also includes the most recent interpretive scholarship on the subject
