Naval Weapons Systems And The Contemporary Law Of War:

Naval Weapons Systems and the Contemporary Law of War James J. Busuttil, 1998 This book provides the first comprehensive critical analysis of the regulation of naval weapons during armed conflict. It examines the experience this century with the use of naval mines, submarines and anti ship missiles, the three main naval weapons. The sources of international law relevant to an assessment of the law that is the extant conventions, state practice, military manuals, war crimes prosecutions and the opinions of publicists are each extensively examined so that a clear picture of the law emerges. The book examines the impact of agreements drawn up in peacetime on wartime conduct and focuses on the growth of law through customary practice. While stating the law as it is today, it also provides suggestions for the practical development of the law.

Naval Weapons Systems and the Contemporary Law of War James J. Busuttil, 1995 **Judges, Law and War** Shane Darcy, 2014-08-07 International courts and judicial bodies play a formative role in the development of international humanitarian law. *Judges, Law and War* examines how judicial bodies have influenced the substantive rules and principles of the law of armed conflict and studies the creation, application and enforcement of this corpus of laws. Specifically, it considers how international courts have authoritatively addressed the meaning and scope of particular rules, the application of humanitarian law, treaties and the customary status of specific norms. Key concepts include armed conflicts and protected persons, guiding principles, fundamental guarantees, means and methods of warfare, enforcement and war crimes. Consideration is also given to the contemporary place of judicial bodies in the international law making process, the challenges presented by judicial creativity and the role of customary international law in the development of humanitarian law.

An Introduction to the International Law of Armed Conflicts Robert Kolb, Richard Hyde, 2008-09-17 This book provides a modern and basic introduction to a branch of international law constantly gaining in importance in international life, namely international humanitarian law, the law of armed conflict. It is constructed in a way suitable for self study. The subject matters are discussed in self contained chapters allowing each to be studied independently of the others. Among the subject matters discussed are inter alia the Relationship between jus ad bellum and jus in bello, Historical Evolution of IHL, Basic Principles and Sources of IHL, Martens Clause, International and Non International Armed Conflicts, Material, Spatial, Personal and Temporal Scope of Application of IHL, Special Agreements under IHL, Role of the ICRC, Targeting, Objects Specifically Protected against Attack, Prohibited Weapons, Perfidy, Reprisals, Assistance of the Wounded and Sick, Definition of Combatants, Protection of Prisoners of War, Protection of Civilians, Occupied Territories, Protective Emblems, Sea Warfare, Neutrality, Implementation of IHL.

The Law of Armed Conflict and the Use of Force Frauke Lachenmann, Rüdiger Wolfrum, 2017 This volume collects articles on the law of armed conflict and the use of force from the Max Planck Encyclopedia of Public International Law to facilitate easy access to content from the leading reference work in international law.

Law Among Nations Gerhard von Glahn, James Larry Taulbee, 2015-07-14 Offering a more accessible alternative to casebooks and

historical commentaries *Law Among Nations* explains issues of international law by tracing the field's development and stressing key principles and processes. This comprehensive text eliminates the need for multiple books by combining discussions of theory and state practice with excerpts from landmark cases. Renowned for its rigorous approach and clear explanations, *Law Among Nations* remains the gold standard for undergraduate introductions to international law.

Learning Goals: Trace the development of International Law through key principles and processes; Illustrate important issues and theories using excerpts from landmark cases.

The Politics of Maritime Power Andrew T. H. Tan, 2010-10-18

Since the crucial maritime battles that were fought during the Second World War in both the Atlantic and Pacific Oceans and the post-war period which saw a naval standoff between a vast US navy and a growing Soviet navy, the focus of international maritime power has changed. Major maritime powers have deployed warships, aircraft carriers and heavy land forces around the globe for purposes of diplomacy such as in maintaining far-flung alliances for deterrent purposes such as in the Taiwan Straits for warfighting such as in its crucial support roles in recent conflicts in Afghanistan and both Gulf Wars and for complex emergencies such as tsunami and earthquake rescue in Indonesia and Pakistan. Increasingly maritime power is employed in counter-terrorism such as in joint patrols, counter-terrorism exercises and in intercepting ships suspected of carrying weapons of mass destruction.

The Politics of Maritime Power is an exploration of the contemporary facets of maritime power, particularly as an instrument of the state in the post-Second World War era. This reference volume is divided into four parts with chapters exploring various aspects of modern maritime power, written by maritime experts, a series of maps which show major maritime zones, a glossary which contains over 240 entries on various aspects of maritime power and a detailed bibliography.

Liber Amicorum Judge Shigeru Oda Nisuke Ando, Edward McWhinney, Rüdiger Wolfrum, Betsy Baker Røben, 2022-11-07

Judge Shigeru Oda, having served since 1976 in three successive nine-year terms on the International Court of Justice, has helped to shape the Court's jurisprudence for over a quarter century. His influence on the law of the sea spans an even longer period, beginning with his doctoral dissertation at Yale Law School in the 1950s and continuing with his involvement in the First, Second and Third UN Conferences on the Law of the Sea. In a tribute to Judge Oda's significant contributions to international law, leading scholars on the law of the sea, international dispute settlement and the ICJ itself have produced a *Festschrift* in his honour that promises to be a standard reference work on these topics for years to come. This two-volume work, containing over 95 articles, begins by examining the role of the international judge and the jurisdiction of international tribunals, including reservations to jurisdiction, the Optional Clause, the Special Agreement and the power to indicate special measures. It contains a particularly lively debate regarding the proliferation of international tribunals and whether the potential for conflicting decisions is problematic or productive. Other areas of focus include the history and current development of the law of the sea, the first in-depth examination of the establishment and first decisions of the International Tribunal for the Law of the Sea and the ICJ's treatment of the development doctrines and sources of

international law Further sections are devoted to International Litigation as analysed by leading practitioners Land and Maritime Boundaries International Watercourses and Other Waters and Defence the Use of Force and the Law of Armed Conflict The composition of the editorial team Nisuke Ando of Kyoto Edward McWhinney of Ottawa and Rüdiger Wolfrum of Heidelberg reflects Judge Oda's truly international career and the extent to which his work has drawn from and contributed to diverse legal traditions The print edition is available as a set of two volumes 9789041117908
