(Received 10 November 2022; accepted 10 November 2022)

What work does the term “crisis” do for historical sociologists and historically oriented social science in general? And how does “crisis” relate to contingencies and conjunctures – the twin poles of socio-historical analysis? I begin with a concern that the term “crisis” is deployed with such casual frequency that, despite its apparent ability to capture something urgent about the turbulent and bleak times we live in, it ironically risks loss of the meaning it is intended to convey. Indeed, as several skeptics have asked, if everything is crisis, then what is outside it (Freeden 2017; Holton 1987)? Later in this essay I will debunk the “crisis – non-crisis” dichotomy raised by several authors, who are concerned with delimiting the use of the term itself. I begin, though, with the observation that frequent usage of the term “crisis” might reveal something important about the inadequacy of the concepts routinely employed in social science history.

An excerpt from Nancy Fraser’s (2022) “Cannibal Capitalism: How Our System is Devouring Democracy, Care, and the Planet and What We Can Do About It” is exemplary of both this “crisis talk” *and* the dilemma that we face when attempting to convey the intangible about the current conjuncture:

“The upshot is that we now face a tangle of multiple crises: an economic crisis, a crisis of social reproduction, an ecological crisis, and a two-sided political crisis. To my mind, this adds up to a general crisis of capitalist society. Its effects pop out all over, first here, then there, then somewhere else . . . Every effort to patch up one outbreak only leads to others . . . until the whole social body is overwhelmed . . . One could say that the whole first half of the twentieth century up until the defeat of fascism at the end of World War II was *just one long, roiling general crisis of liberal-colonial capitalism*.” (emphasis added)

In this excerpt, Fraser is clearly reaching for the language of crisis to express something about the heightened nature of various interconnected and deep-seated

Left Giorgos Charalambous, 2021-12-20 Is today's left really new? How has the European radical left evolved? Giorgos Charalambous answers these questions by looking at three moments of rapid political change: the late 1960s to late 1970s, the turn of the millennium and post 2008. He challenges the conventional understanding of a new left, drawing out continuities with earlier movements and parties. Charalambous examines the Long 68, symbolised by the May uprisings in France which saw the rise of new left forces and the widespread criticism by younger radical activists of traditional communist and socialist parties. He puts this side by side with the turn of the millennium when the Global Justice Movement rose to prominence and changed the face of the international left, and also the period after the financial crash of 2008 and the rise of anti-austerity politics which initiated the most recent wave of new left parties such as Podemos in Spain and Syriza in Greece. With a unique two-level perspective, Charalambous approaches the left through both social movements and party politics, looking at identities, rhetoric and organisation, and bringing a fresh new approach to radical history as well as assessing challenges for both activists and scholars. ***Civil Resistance and Power Politics*** Adam Roberts, Timothy Garton Ash, 2009-09-03 From Gandhi to Martin Luther King, Tiananmen Square to the Orange Revolution, non-violent action against the forces of oppression has played a key role in world history. This book tells the compelling story of each of the major campaigns of civil resistance that have shaped our world over the last century. **The Artistic Activism of Elombe Brath** Thomas Aiello, 2021-09-30 In 1963, at the height of the southern civil rights movement, Cecil Brathwaite (1936-2014) under the pseudonym Cecil Elombe Brath published a satire of Black leaders entitled *Color Us Cullud: The American Negro Leadership Official Coloring Book*. The book pillories a variety of Black leaders from political figures like Adam Clayton Powell and Whitney Young to civil rights activists like Martin Luther King, Bayard Rustin and John Lewis, and even entertainers like Sammy Davis Jr, Lena Horne and Dick Gregory, critiquing the inauthenticity of movement leaders while urging a more radical approach to Black activism. Despite the strong illustrations and unique commentary presented in the coloring book, it has virtually disappeared from histories of the movement. *The Artistic Activism of Elombe Brath* restores the coloring book and its creator to a place of prominence in the historiography of the Black left. It begins with an analysis of Brath's influences, describing his life and work, including his development as a Black nationalist thinker and Black satirist. This volume includes Brath's early works, illustrations for *DownBeat* magazine and *Beat Jokes*, Bop Humor, Cool Cartoons, as well as the full run of his comic strip *Congressman Carter* and *Beat Nick Jackson* from the *New York Citizen Call*, and a complete edition of *Color Us Cullud* itself. These illustrations are followed by annotations that frame and contextualize each of the coloring book's entries. The book closes with selections from Brath's art and political thinking via archival material and samples of his written work. Ultimately, this volume captures and restores a unique perspective on the civil rights movement, often omitted from the historiography but vital to understanding its full scope. **Contemporary Capitalism and Civil Society** Toshio Yamada, 2018-08-15 This book is devoted to analyzing contemporary capitalism both in Japan and in the world economy by

using the theoretical framework of the French regulation theory and by revisiting the theory of civil society in postwar Japan. The Japanese theory of civil society proposed unique thinking about freedom and equality and human rights in the postwar era but could not help to come up with effective concepts for an economic analysis of that capitalism of the period. On the other hand, the regulation theory born in the 1970s is well known by its definition of postwar capitalism as Fordism based on the elaboration of a new conceptual framework but it soon proved unable to directly explain Japan's experience by that central concept of Fordism. Inspired by consideration of Japanese civil society and also by the regulationist framework, the author has forged new analytical concepts such as companyism to understand Japanese capitalism including the recent lost decades and he elaborates more carefully the concepts of growth regime and institutional change to grasp the dynamics of the world economy including today's neoliberal trend. The original benefits of the book consist in 1) reviving a Japanese theory of civil society in the postwar period, 2) applying the regulation theory to the analysis of contemporary Japan, and 3) offering theoretical reflections on the conception of the world economy. Consequently, the author pays special attention to the relationship between the political and the economic as well as regulationist tools and the theory of civil society's perspective. The principal message of the book is that capitalism or the market economy must be supported by a sound civil society.

The Time of Anthropology Elisabeth Kirtsoglou, Bob Simpson, 2020-12-29. The Time of Anthropology provides a series of compelling anthropological case studies that explore the different temporalities at play in the scientific discourses, governmental techniques and policy practices through which modern life is shaped. Together they constitute a novel analysis of contemporary chronopolitics. The contributions focus on state power, citizenship and ecologies of time to reveal the scalar properties of chronopolitics as it shifts between everyday lived realities and the macro institutional work of nation states. The collection charts important new directions for chronopolitical thinking in the future of anthropological research. Making Money Christine Desan, 2014-11-27 Money travels the modern world in disguise It looks like a convention of human exchange a commodity like gold or a medium like language But its history reveals that money is a very different matter It is an institution engineered by political communities to mark and mobilize resources As societies change the way they create money they change the market itself along with the rules that structure it the politics and ideas that shape it and the benefits that flow from it One particularly dramatic transformation in money's design brought capitalism to England For centuries the English government monopolized money's creation The Crown sold people coin for a fee in exchange for silver and gold Commodity money was a fragile and difficult medium the first half of the book considers the kinds of exchange and credit it invited as well as the politics it engendered Capitalism arrived when the English reinvented money at the end of the 17th century When it established the Bank of England the government shared its monopoly over money creation for the first time with private investors institutionalizing their self interest as the pump that would produce the money supply The second half of the book considers the monetary revolution that brought unprecedented possibilities and problems The invention of circulating public debt the breakdown of commodity money the rise of commercial bank currency and the coalescence of ideological commitments that came to be identified with the Gold Standard all contributed to the abundant and unstable medium that is modern money All flowed as well from a collision between the individual incentives and public claims at the heart of the system The drama had constitutional dimension money as its history reveals is a mode of governance in a material world That character undermines claims in economics about money's neutrality The monetary design innovated in England would later spread producing the global architecture of modern money

Resources in Education, 2000 **Freedom of the Press** United States. Congress. Senate. Committee on the Judiciary, 1972 **Ezekiel's Message of Hope and Restoration** Hei Yin Yip, 2021-04-19 The first twenty four chapters of the book of Ezekiel are characterised by vehement declarations of judgement This observation leaves the impression that Ezekiel 1 7 is devoid of references to hope and restoration However there is a redactional stratum in this section that supplemented the texts with material that conveys restoration and hope for the future In Ezekiel 1 7 many of these additions focus on priestly topics The motif of restoration in the redactional material of Ezekiel 3 5 is expressed by the reinstatement of

Ezekiel in his priestly role This editorial emphasis on Ezekiel as priest in the redactional material suggests that the redaction was influenced by Zechariah 3 a text that depicts the reinstitution of the exiled Zadokite priesthood Moreover the redactional material of Ezekiel 6 7 drew inspiration from the Law of the Temple in Ezekiel 43 46 as the redactors sought to enhance Ezekiel's priestly role The study provides new insights into how redactors who may have been associated with the Zadokite priesthood inserted the message of hope and restoration into the literary unit Ezekiel 1 7 during the post exilic period

Emotions in American History Jessica C. E. Gienow-Hecht, 2010-04-01 The study of emotions has attracted anew the interest of scholars in various disciplines igniting a lively public debate on the constructive and destructive power of emotions in society as well as within each of us Most of the contributors to this volume do not hail from the United States but look at the nation from abroad They explore the role of emotions in history and ask how that exploration changes what we know about national and international history and in turn how that affects the methodological study of history In particular they focus on emotions in American history between the 18th century and the present in war in social and political discourse as well as in art and the media In addition to case studies the volume includes a review of their fields by senior scholars who offer new insights regarding future research projects
