Prosecutor An Inquiry Into The Exercise Of Discretion:

The Prosecutor Brian A. Grosman, 1978-12-15 Every day decisions made by prosecutors before trial takes place critically affect the rights of citizens yet these decisions remain a grey area in the administration of criminal justice In fact there are considerable and important differences between what the prosecutor does and what the legal literature and judicial decisions say he should do Very little is known about the powers wielded by prosecutors and the factors which influence their exercise of discretion This inquiry focuses on the decision making role of the prosecutor in pre trial determinations Professor Grosman describes and analyses the prosecutor's informal relations with the police and defence lawyers and the significance these relationships have for the accused and for the fair administration of justice Other areas examined include the decision to begin prosecution the negotiated guilty plea and the prosecutor's administrative bias The study concludes with recommendations for judicial and legislative reform Professor Grosman has added a preface to this edition outlining the changes that have occurred in recent years A lucid and revealing description of the prosecutor's attitudes to criminal prosecution and its operation this study contributes important insights valuable to lawyers and all those concerned with the administration of justice and will be of interest to everyone concerned with social problems **Document Retrieval Index**

Friedland, 1978-01-01 **Prosecuting Crime in the Public Interest** Kellie Toole, 2024-07-25 This book provides the first detailed analysis of the decision to prosecute made by the statutory Australian Offices of Director of Prosecution It examines the system of prosecution as part of the executive branch of government and the role and challenges of the individual prosecutors who make decisions within the system It explores the tension between prosecutorial independence and prosecutorial accountability and the paradox that political involvement in prosecutions is necessary for accountability and to uphold the public interest but can compromise independence The book makes a unique contribution to both Australian criminal law scholarship and to the international literature on criminal prosecution by drawing on the sub disciplines of criminal law and administrative law It includes case studies on prosecuting child sexual abuse rape and government espionage and comparisons with common law and civil law countries including the USA the UK Italy and South Africa *The Japanese Way of Justice* David Ted Johnson, 2002 The major achievements of Japanese criminal justice are thus inextricably intertwined with its most notable defects and efforts to fix the defects threaten to undermine the accomplishments **BOOK JACKET** [Decision-making in the Criminal Justice System](#) Center for Studies of Crime and Delinquency (U.S.), 1975 [Betrayal of Due Process](#) Hedieh Nasheri, 1998 *Betrayal of Due Process* is a landmark study of the criminal justice systems of two common law nations the United States and Canada By focusing on plea bargaining which is

one of the most dominant practices in the criminal justice system of both countries Nasheri makes a historical comparison of guilty plea practices and ideologies She draws on historical criminological sociological and political perspectives to construct her argument Because plea bargaining is a crucial part of the criminal justice system yet has received little scholarly attention this much needed book fills a wide gap in legal scholarship *Prosecutorial Discretion at the International Criminal Court* Anni Pies,2020-07-09 This timely book provides a comprehensive guide to and rigorous analysis of prosecutorial discretion at the International Criminal Court This is the first ever study that takes the reader through all the key stages of the Prosecutor s decision making process Starting from preliminary examinations and the decision to investigate the book also explores case selection processes plea agreements culminating in the question of how to end engagement in specific country situations The book serves as a guide to the Rome Statute through the lens of the Prosecutor s activities With its unique combination of legal theory and specific policy analysis it addresses broader questions that will be relevant to other international and hybrid criminal courts and tribunals The book will be of interest to students practitioners of law academics and the wider public concerned with international law criminal justice and international relations **A Comparative Analysis of Delinquency Prevention Theory** National Task Force to Develop Standards and Goals for Juvenile Justice and Delinquency Prevention,1977 **Basic Issues in Prosecution and Public Defender Performance** Joan E. Jacoby,1976 **Hans Kelsen in America - Selective Affinities and the Mysteries of Academic Influence** D.A. Jeremy Telman,2016-08-26 This volume explores the reasons for Hans Kelsen s lack of influence in the United States and proposes ways in which Kelsen s approach to law philosophy and political democratic and international relations theory could be relevant to current debates within the U S academy in those areas Along the way the volume examines Kelsen s relationship and often hidden influences on other members of the mid century Central European migr community whose work helped shape twentieth century social science in the United States The book includes major contributions to the history of ideas and to the sociology of the professions in the U S academy in the twentieth century Each section of the volume explores a different aspect of the puzzle of the neglect of Kelsen s work in various disciplinary and national settings

Part I provides reconstructions of Kelsen's legal theory and defends that theory against negative assessments in Anglo American jurisprudence Part II focuses both on Kelsen's theoretical views on international law and his practical involvement in the post war development of international criminal law Part III addresses Kelsen's theories of democracy and justice while placing him in dialogue with other major twentieth century thinkers including two fellow migr scholars Leo Strauss and Albert Ehrenzweig Part IV explores Kelsen's intellectual legacies through European and American perspectives on the interaction of Kelsen's theoretical approach to law and national legal traditions in the United States and Germany Each contribution features a particular applications of Kelsen's approach to doctrinal and interpretive issues currently of interest in the legal academy The volume concludes with two chapters on the nature of Kelsen's legal theory as an instance of modernism

New York Court of Appeals. Records and Briefs. New York (State)., **Prosecutorial Discretion in the International Criminal Court** Farid Mohammed Rashid, 2021-12-15 This book provides the first scholarly investigation of prosecutorial discretion in the International Criminal Court ICC from an interdisciplinary perspective This work analyses the discretionary power of the ICC prosecutor and its scope It explains that there is a tendency to overlook the necessity of distinguishing between the various usages of discretion when exercised as a power authorised by the law and effect when applying indeterminate legal thresholds The author argues that the latter indeterminacy may give decision makers an unwarranted opportunity to exercise a wide range of discretion where extra legal factors may be considered In comparison prosecutorial discretion allows decision makers to consider extra legal considerations This book also discusses the relevance of political considerations within the decision making process in the context of the exercise of prosecutorial discretion It suggests that there need not be a conflict between the broad sense of justice as outlined in the Statute and political factors in giving effect to decisions This book will be of interest to students of international law global governance and international relations
