Gold! Joseph Petralia, 2015 Practical guide on methods and equipment **Prospecting for Gold and Silver** Arthur Lakes, 1895 **Gold! Gold!** Joseph F. Petralia, 1989-03-15 General Fitz John Porter cashiered for misbehavior before the enemy by a politically

driven court martial in 1863 following Second Manassas undertook a decades long fight to have his conviction reconsidered Finally a board headed by General John M Schofield cleared Porter s good name Records of the Schofield trial were rare until Anders made this fresh study of the case *Prospecting for Gold and Silver in North America* Arthur Lakes,1896 *How to Mine and Prospect for Placer Gold* J. M. West,Depart U. S. Department of the Interior,2005-12 Increased leisure time and increased interest in the out of doors is leading more and more families to experiment with placer mining of gold and sometimes even to going on into small scale production This book supplies basic information on areas of occurrence equipment needed prospecting sampling mining and regulations concerning the possession and sale of gold Selected references are given for further study Placer gold has tantalized many a person who has tried his luck and skill in the hope of striking it rich Separating gold from embedded materials is basically simple and can be done effectively on nearly any scale depending upon the deposit and the capital available for investment The final product is consistently in demand at a relatively stable price Historically however one must be advised that rewards for the majority of small scale miners those who operate on a shoestring have been depressingly small First of all the placer miner must know where the placer deposits are located and he must have the technical knowledge to extract the gold Additionally he must face problems of land ownership water supply and water pollution all of which have grown in complexity with the population The costs of labor and equipment are relatively high now although this may not seem significant to an individual mining a small deposit Secondhand equipment may become available at relatively low cost because of a slowdown in construction or as surplus at the end of a war By taking advantage of such opportunities one can sometimes make an otherwise unprofitable operation successful at least as long as the equipment holds up To the novice or weekend prospector the more complex of placer mining may seem hard to comprehend At any rate the novice is often more interested in the recreational values offered by gold placering than in its profitability Thus the search for and discovery of even a small grain or nugget of gold is an achievement worth of considerable effort As a start the beginner may gain some benefit from visiting one of the many pan for a fee tourist establishments typically found in gold mining areas **Gold Prospecting & Placer Deposits** Adam Gregory Koch,2013 There are countless prospecting books out there They all teach the same general theories and show the same diagrams While they are not bad books in fact many are great this book is written to take a different and simpler approach A prospectors lifetime of knowledge is simplified and condensed into an easy to read and understand guide that will hopefully benefit those who never even held a gold pan as much as those who have spent a few years prospecting but might still have a few questions they are seeking answers to It is the intent that this is the prospecting book that will read as a novel and teach every bit as much as an informational guide What are the types of equipment available and how do I use them What is it that I am looking for when I am prospecting What do I do with my gold once I find it and how do I sell it Are my black sands worth anything What are black sands made out of How do I find a place I can go and prospect Is there a way to know where I

should dig in a stream How do Mining claims work These are some of the many questions that this book was written to address While there is no guide that can tell you how to get rich mining for gold this guide has been written for the purpose of helping you be more likely to find gold on your future prospecting trips It is easy to become discouraged as a prospector or allow yourself to believe others when they say there is no gold left to be found the old timers got it all You are just a few pages away from learning the facts and that the gold has not all been taken and how you can get your share **The**
