Prospects Jack Salzman, Paul M. McNeil, 1987      **Prospects**, 1989      *A Study of Emersonian Transcendental Educational Thought* Yang Jing, 2020-06-01

Waldo Ralph Emerson 1803 1882 was a famous American writer and poet in the 19th century. He was also an educational thinker who advocates reform and progress. As a representative of transcendentalism, he advocated the doctrine of individualism, emphasizing that the power of the spirit is far more than material and that the potential of individual potential is infinite. Around him gathered a group of people of insight who were determined to transform the society, such as Amos Bronson Alcott 1799 1888, Margaret Fuller 1810 1850, Nathaniel Hawthorne 1804 1864, Henry David Thoreau 1817 1862 etc. All of the above had once been teachers and they were deeply saddened by the rigid education system and the old-fashioned education methods at the time and firmly believed that the progress and improvement of society must be based on personal education and moral self-improvement. They actively participated in the mainstream of educational reforms that opened people's mind, innovated their ways of thinking and created a new culture with reformed educational system in New England. At the same time, transcendentalism has become an important part of American educational thought.

**Law and Letters in American Culture** Robert A. Ferguson, 1984. The role of religion in early American literature has been endlessly studied; the role of the law has been virtually ignored. Robert A. Ferguson's book seeks to correct this imbalance. With the Revolution, Ferguson demonstrates the lawyer replaced the clergyman as the dominant intellectual force in the new nation. Lawyers wrote the first important plays, novels, and poems as gentlemen of letters; they controlled many of the journals and literary societies, and their education in the law led to a controlling aesthetic that shaped both the civic and the imaginative literature of the early republic. An awareness of this aesthetic enables us to see works as diverse as Jefferson's Notes on the State of Virginia and Irving's burlesque History of New York as unified texts, products of the legal mind of the time. The Declaration of Independence, the Constitution, and the great political orations were written by lawyers, and so too were the literary works of Trumbull, Tyler, Brackenridge, Charles Brockden Brown, William Cullen Bryant, Richard Henry Dana Jr. and a dozen other important writers. To recover the original meaning and context of these writings is to gain new understanding of a whole era of American culture. The nexus of law and letters persisted for more than a half century. Ferguson explores a range of factors that contributed to its gradual dissolution: the yielding of neoclassicism to romanticism, the changing role of the writer, the shift in the lawyer's stance from generalist to specialist and from ideological spokesman to tactician of compromise, the onslaught of Jacksonian democracy, and the problems of a country torn by sectional strife. At the same time, he demonstrates continuities with the American Renaissance. And in Abraham Lincoln, he sees a memorable late flowering of the earlier tradition.
