decorations and relics of a hunter's most impressive kills. Only 5 percent of Americans are hunters, but that group has a substantial presence in the cultural consciousness. Hunting has spurred controversy in recent years, inciting protest from animal rights activists and lobbying from anti-cruelty demonstrators who denounce the custom. But hunters have responded to such criticisms and the resulting legislative censures with a significant argument in their defense: the claim that their practices are inextricably connected to a cultural tradition. Further, they counter that they, as representatives of the rural lifestyle, pioneer heritage, and traditional American values, are the ones being victimized. Simon J. Bronner investigates this debate in *Killing Tradition: Inside Hunting and Animal Rights Controversies*. Through extensive research and fieldwork, Bronner takes on the many questions raised by this problematic subject: Does hunting promote violence toward humans as well as animals? Is it an outdated activity unnecessary in modern times? Is the heritage of hunting worth preserving? *Killing Tradition* looks at three case studies that are at the heart of today's hunting debate. Bronner first examines the allegedly barbaric rituals that take place at deer camps every late November in rural America. He then analyzes the annual Labor Day pigeon shoot of Hegins, Pennsylvania, which brings animal rights protests to a fever pitch. Noting that these aren't simply American concerns and that the animal rights movement in America is linked to British animal welfare protests, Bronner examines the rancor surrounding the passage of Great Britain's Hunting Act of 2004, the most comprehensive and divisive anti-hunting legislation ever enacted. The practice of hunting is sure to remain controversial as it continues to be touted and defended by its supporters and condemned and opposed by its detractors. With *Killing Tradition*, Bronner reflects on the social, psychological, and anthropological issues of the debate, reevaluating notions of violence, cruelty, abuse, and tradition as they have been constructed and contested in the twenty-first century. Methods and Nations Michael J. Shapiro, 2004

Annotation: Methods and Nations critiques one of the primary deployments of twentieth-century social science: comparative politics, whose major focus has been nation building in the Third World, often attempting to universalize and render self-evident its own practices. International relations theorists, unable to resist the cognitive imperialism of a state-centric social science, have allowed themselves to become colonized. Michael Shapiro seeks to bring recognition to forms of political expression, alternative modes of intelligibility for things, people, and spaces that have existed on the margins of the nationhood practices of states and the complicit nation sustaining conceits of social science. *Theories of Social Capital* Ben

Fine, 2010-01-11 Tracing the evolution of social capital since his highly acclaimed contribution of 2001, *Social Capital Versus Social Theory*, Ben Fine consolidates his position as the world's leading critic of the concept. Fine forcibly demonstrates how social capital has expanded across the social sciences only by degrading the different disciplines and topics that it touches: a McDonaldisation of social theory. The rise and fall of social capital at the World Bank is critically explained, as is social capital's growing presence in disciplines such as management studies and its relative absence in others such as social history. Writing with a sharp critical edge, Fine not only deconstructs the roller-coaster presence of social capital across the social

sciences but also draws out lessons on how and how not to do research The Documentary Film Reader Jonathan Kahana, 2016 The Documentary Film Reader brings together an expansive range of writing by scholars critics historians and filmmakers to provide a stimulating foundational text for students and others who want to undertake study of nonfiction film

Metaphors of Confinement Monika Fludernik,2019-08-13 *Metaphors of Confinement* The Prison in Fact Fiction and Fantasy offers a historical survey of imaginings of the prison as expressed in carceral metaphors in a range of texts about imprisonment from Antiquity to the present as well as non penal situations described as confining or restrictive These imaginings coalesce into a carceral imaginary that determines the way we think about prisons just as social debates about punishment and criminals feed into the way carceral imaginary develops over time Examining not only English language prose fiction but also poetry and drama from the Middle Ages to postcolonial particularly African literature the book juxtaposes literary and non literary contexts and contrasts fictional and nonfictional representations of im prison ment and discussions about the prison as institution and experiential reality It comments on present day trends of punitivity and foregrounds the ethical dimensions of penal punishment The main argument concerns the continuity of carceral metaphors through the centuries despite historical developments that included major shifts in policy such as the invention of the penitentiary The study looks at selected carceral metaphors often from two complementary perspectives such as the home as prison or the prison as home or the factory as prison and the prison as factory The case studies present particularly relevant genres and texts that employ these metaphors often from a historical perspective that analyses development through different periods

Promises of Citizenship Kathleen German,2017-06-07 Since the earliest days of the nation US citizenship has been linked to military service Even though blacks fought and died in all American wars their own freedom was usually restricted or denied In many ways World War II exposed this contradiction As demand for manpower grew during the war government officials and

military leaders realized that the war could not be won without black support To generate African American enthusiasm the federal government turned to mass media Several government films were produced and distributed movies that have remained largely unexamined by scholars Kathleen M German delves into the dilemma of race and the federal government's attempts to appeal to black patriotism and pride even while postponing demands for equality and integration until victory was achieved German's study intersects three disciplines the history of the African American experience in World War II the theory of documentary film and the study of rhetoric One of the main films of the war era *The Negro Soldier* fractured the long tradition of degrading minstrel caricatures by presenting a more dignified public image of African Americans Along with other government films the narrative within *The Negro Soldier* transformed the black volunteer into an able soldier It included African Americans in the national mythology by retelling American history to recognize black participation As German reveals through this new narrative with more dignified images *The Negro Soldier* and other films performed rhetorical work by advancing the agenda of black citizenship

After Camp Greg Robinson, 2012-02-07 This book illuminates various aspects of a central but unexplored area of American history the midcentury Japanese American experience A vast and ever growing literature exists first on the entry and settlement of Japanese immigrants in the United States at the turn of the 20th century then on the experience of the immigrants and their American born children during World War II Yet the essential question

What happened afterwards remains all but unanswered in historical literature Excluded from the wartime economic boom and scarred psychologically by their wartime ordeal the former camp inmates struggled to remake their lives in the years that followed This volume consists of a series of case studies that shed light on various developments relating to Japanese Americans in the aftermath of their wartime confinement including resettlement nationwide the mental and physical readjustment of the former inmates and their political engagement most notably in concert with other racialized and ethnic minority groups *The Blackwell Companion to the Sociology of Culture* Mark D.
