Everyone's Guide to Cancer Survivorship Ernest Rosenbaum, Holly Gautier, 2011-10-01 This book was written both for survivors and health professionals some of whom are cancer survivors too. Our goal is to provide you with a survivor's road map. Dr Ernest H Rosenbaum More than 30 medical professionals reveal

insights on surviving cancer to empower cancer survivors and their caregivers as well as the doctors who manage their continued care The CDC's National Action Plan for Cancer Survivorship estimates that there are 9.6 million persons living following a cancer diagnosis And this number is strictly related to patients It does not include family members friends or caregivers For anyone approaching life from the perspective of remission respected oncologist Dr Ernest Rosenbaum leads a team of 34 oncology specialists and medical contributors some of whom are both doctors and survivors themselves in creating a guide specifically geared for cancer survivorship The growing number of people approaching life post cancer will find solace understanding and opportunity with information specifically geared to managing the lingering effects of cancer treatment such as Lifestyle changes to improve health and longevity What survivors need to know following anticancer therapy How to manage the side effects of chemotherapy and radiation therapy How to set goals for the future

ACSM's Guide to Exercise and Cancer Survivorship American College of Sports Medicine, Melinda L. Irwin, 2012-02-14 ACSM's Guide to Exercise and Cancer Survivorship presents the science behind the benefits of exercise for cancer survival and survivorship as well as the application of that science to the design or adaptation of exercise programs for cancer patients and survivors Developed by the American College of Sports Medicine ACSM this authoritative reference offers the most current information for health and fitness professionals working with survivors of many types of cancers Dr Melinda L Irwin has assembled a team of the most respected experts in the field of exercise and cancer survivorship With an emphasis on practical application the text discusses the following Incidence and prevalence of the most common cancers Common cancer treatments and side effects Benefits of exercise after a diagnosis of cancer Exercise testing prescription and programming Nutrition and weight management Counseling for health behavior change Injury prevention Program administration This guide presents evidence based information to assist health fitness and medical professionals in using exercise to help cancer survivors with recovery rehabilitation and reducing the risk of recurrence Throughout the text readers will find quick reference Take Home Messages that highlight key information and how it can be applied in practice Chapters also include reproducible forms and questionnaires to facilitate the implementation of an exercise program with a new client or patient such as physician's permission forms medical and cancer treatment history forms weekly logs of exercise and energy levels medication listings and nutrition and goal setting questionnaires In addition ACSM's Guide to Exercise and Cancer Survivorship discusses all of the job task analysis points tested in the ACSM ACS Certified Cancer Exercise Trainer CET exam making this the most complete resource available for health and fitness professionals studying to attain CET certification Each chapter begins with a list of the CET exam points discussed in that chapter A complete listing is also included in the appendix As both an essential preparation text for certification and a practical reference ACSM's Guide to Exercise and Cancer Survivorship will increase health and fitness professionals knowledge of the benefits of exercise after a cancer diagnosis as well as the specifics of developing and adapting exercise programs to meet the unique needs of cancer

survivors Evidence has shown that physical activity has numerous health benefits for cancer patients and survivors More clinicians and oncologists are recommending exercise as a strategy for reducing the side effects of treatment speeding recovery and improving overall quality of life In turn cancer survivors are seeking health and fitness professionals with knowledge and experience to help them learn how to exercise safely within their capabilities With ACSM's Guide to Exercise and Cancer Survivorship health and fitness professionals can provide safe exercise programs to help cancer survivors improve their health take proactive steps toward preventing recurrences and enhance their quality of life

From Cancer Patient to Cancer Survivor National Research Council, Institute of Medicine, National Cancer Policy Board, Committee on Cancer Survivorship: Improving Care and Quality of Life, 2005-12-01 With the risk of more than one in three getting cancer during a lifetime each of us is likely to experience cancer or know someone who has survived cancer Although some cancer survivors recover with a renewed sense of life and purpose what has often been ignored is the toll taken by cancer and its treatment on health functioning sense of security and well being Long lasting effects of treatment may be apparent shortly after its completion or arise years later The transition from active treatment to post treatment care is critical to long term health From Cancer Patient to Cancer Survivor focuses on survivors of adult cancer during the phase of care that follows primary treatment The book raises awareness of the medical functional and psychosocial consequences of cancer and its treatment It defines quality health care for cancer survivors and identifies strategies to achieve it The book also recommends improvements in the quality of life of cancer survivors through policies that ensure their access to psychosocial services fair employment practices and health insurance This book will be of particular interest to cancer patients and their advocates health care providers and their leadership health insurers employers research sponsors and the public and their elected representatives
