Prostate Cancer Prevention And Cure:

Coping with Prostate Cancer... Othniel J Seiden, Jane L. Bilett, Ph.d., 2015-12-08 Important as it is to understand the risk factors concerning prostate cancer one should also know there are many myths having no link to this disease Probably the most consistent myth or misconception is that having non cancerous conditions of the prostate increase the risk of developing prostate cancer NOT true Granted these non cancerous conditions may cause symptoms not unlike those of prostate cancer and deserve full evaluation by a physician However there is no evidence that having BPH or prostatitis increases the risk for developing prostate cancer Numerous research studies have shown the presence of BPH is unrelated to prostate cancer That being said however for those of you who have received the diagnosis and need to understand more for your own piece of mind this book is intended to educate inform and aid peace of mind Back cover
