Prosthetic Memories Hyaesin Yoon, 2025-01-03 In *Prosthetic Memories* Hyaesin Yoon examines the entanglements of humans animals and technologies across South Korea and the United States at the turn of the twenty first century Interrogating a variety of body technology interfaces Yoon outlines an emergent mode of prosthetic memory in which human memory is extended into both machines and animals Prosthetic memory overflows and provides an alternative to familiar human perception Western scientific reason and other senses of knowledge in ways that can foster networks of solidarity care and empathy between human and nonhuman subjects Among other sites and subjects Yoon examines tongue surgery to correct English pronunciation in Korea Asian American poetry that engages the human machine divide transnational dog

cloning and stem cell research each of which activates potent postcolonial feminist mnemonics and alliances In so doing Yoon narrates the countermemories of racialized gendered diasporic queer and marginalized human and nonhuman others that work against the violent and isolating biopolitical and neoliberal forces in contemporary society Selected Poems Hélène Aji, Jennifer Kilgore-Caradec, 2013-01-16 Complete poems are bulky and too heavy to carry around Collected poems pretend to be complete but usually are not Selected poems are altogether unpretentious and reader friendly But they can be problematic Who decides what poems are important for inclusion in a volume of selected poems When the selection occurs during the author's lifetime may one assume that the author was involved What motivates the choice of one poem over another How do readers' preferences influence this choice How do new readers and familiar readers of a poet negotiate the poems that are left out of the selection The essays in this volume address these questions in a variety of ways and also provide an overview of poetic writing from modernist poets to the present day using selections from the 1940s until now They offer new insight into the uses both pedagogical and critical of selection Because Selected Poems usually address a large general public these essays have also been written for all those who wish to know more about how these slimmer more attractive volumes are produced *Literary Trails of Eastern North Carolina* Georgann Eubanks, 2013-04-01 This concluding volume of the *Literary Trails of North Carolina* trilogy takes readers into an ancient land of pale sand dense forests and expansive bays through towns older than our country and rich in cultural traditions Here writers reveal lives long tied to the land and regularly troubled by storms and tell tales of hardship hard work and freedom Eighteen tours lead readers from Raleigh to the Dismal Swamp the Outer Banks and across the Sandhills as they explore the region's connections to over 250 writers of fiction poetry plays and creative nonfiction Along the way Georgann Eubanks brings to life the state's rich literary heritage as she explores these writers' connection to place and reveals the region's vibrant local culture Excerpts invite readers into the authors' worlds and web links offer resources for further exploration Featured authors include A R Ammons Gerald Barrax Charles Chesnutt Clyde Edgerton Philip Gerard Kaye Gibbons Harriet Jacobs Jill McCorkle Michael Parker and Bland Simpson *Literary Trails of North Carolina* is a project of the North Carolina Arts Council **Prosthesis in Medieval and Early Modern Culture** Chloe Porter, Katie L. Walter, Margaret Healy, 2018-12-07 Prosthesis denotes a rhetorical addition to a pre-existing beginning a replacement for that which is defective or absent a technological mode of correction that reveals a history of corporeal and psychic discontent Recent scholarship has given weight to these multiple meanings of prosthesis as tools of analysis for literary and cultural criticism The study of pre-modern prosthesis however often registers as an absence in contemporary critical discourse This collection seeks to redress this omission reconsidering the history of prosthesis and its implications for contemporary critical responses to and uses of it The book demonstrates the significance of notions of prosthesis in medieval and early modern theological debate Reformation controversy and medical discourse and practice It also tracks its importance for imaginings of community and of the relationship of self and other as performed on

the stage expressed in poetry charms exemplary and devotional literature and as fought over in the documents of religious and cultural change Interdisciplinary in nature the book engages with contemporary critical and cultural theory and philosophy genre theory literary history disability studies and medical humanities establishing prosthesis as a richly productive analytical tool in the pre modern as well as the modern context This book was originally published as a special issue of the Textual Practice journal

Blindness and Therapy in Late Medieval French and Italian Poetry Julie Singer, 2011 This book argues that late medieval love poets from Petrarch to Machaut and Charles d Orlans exploit scientific models as a broad framework within which to redefine the limits of the lyric subject and his body Just as humoral theory depends upon principles of likes and contraries in order to heal poetry makes possible a parallel therapeutic system in which verbal oppositions and substitutions counter or rewrite received medical wisdom The specific case of blindness a disability that according to the theories of love that predominated in the late medieval West foreclosed the possibility of love serves as a laboratory in which to explore poets circumvention of the logical limits of contemporary medical theory Reclaiming the power of remedy from physicians these late medieval French and Italian poets prompt us to rethink not only the relationship between scientific and literary authority at the close of the middle ages but more broadly speaking the very notion of therapy From publisher's website

Cancer Poetry Iain Twiddy, 2016-04-29 This is the first critical study to offer a sustained analysis of the theme of cancer in contemporary poetry In discussing works by major poets including Paul Muldoon Jo Shapcott and Christopher Reid Cancer Poetry traces the complex ways in which poets represent cancer and assesses how poetry can be instrumental to emotional recovery

Samuel Beckett and the Prosthetic Body Y. Tajiri, 2006-11-22 This book studies the representation of the body in Beckett's work focusing on the prosthetic aspect of the organs and senses While making use of the theoretical potential of the concept of prosthesis it aims to resituate Beckett in the broad cultural context of modernism in which the impact of new media and technologies was registered

[Prosthetic Body Parts in Nineteenth-Century Literature and Culture](#) Ryan Sweet, 2021-12-03 This open access book investigates imaginaries of artificial limbs eyes hair and teeth in British and American literary and cultural sources from the nineteenth and early twentieth century Prosthetic Body Parts in Nineteenth Century Literature and Culture shows how depictions of prostheses complicated the contemporary bodily status quo which increasingly demanded an appearance of physical wholeness Revealing how representations of the prostheticized body were inflected significantly by factors such as social class gender and age Prosthetic Body Parts in Nineteenth Century Literature and Culture argues that nineteenth century prosthesis narratives though presented in a predominantly ableist and sometimes disablist manner challenged the dominance of physical completeness as they questioned the logic of prostheticization or presented non normative subjects in threateningly powerful ways Considering texts by authors including Charles Dickens Edgar Allan Poe and Arthur Conan Doyle alongside various cultural medical and commercial materials this book provides an important reappraisal of historical attitudes to not

only prostheses but also concepts of physical normalcy and difference *History of the development of dentistry, operative dentistry, prosthetic dentistry, orthodontia, oral surgery, dental literature, dental journalism, dental education and dental colleges* Charles Rudolph Edward Koch,1910 Poetry & Listening Zoë Skoulding,2020-11-04 Listening has always mattered in poetry but how does poetry change when listening has been transformed In Poetry Listening The Noise of Lyric the field of sound studies which has revolutionised research in contemporary music is brought into dialogue with new lyric criticism Examining poetry as mediated by performance technology and translation this book discovers how contemporary poetry has been re energised by the influence of recorded sound and influenced by the creative methods that emerged with it It offers an exploration of contemporary poetry s acoustic contexts moving beyond traditional analysis of poetic form to consider the social political and ecological dimensions of a poem s sounds and silences Through lucid engagement with a range of richly innovative English language poetry from the UK and USA it argues for the centrality of listening to a form of composition in which language not only represents sonic experience but is part of it With reference to Jean Luc Nancy s distinction between hearing and listening alongside other key theorists of sound and noise it shows how poetry offers insights into sensory perception and how it charts acoustic relationships between language and the environment **History of the development of dentistry, prosthetic dentistry, orthodontia, oral surgery, dental literature, dental journalism, dental education and dental colleges, dental laws, and legislation, dental societies and dental jurisprudence** Charles Rudolph Edward Koch,1909 Printer's Devil Review: Spring 2013 (Paperback) Thomas Dodson,2013-08-04 Printer s Devil Review is an independent open access journal of literary and visual art We provide emerging writers and artists with access to publication and inquisitive readers with new voices and visions **The Art of Latin Poetry** and Fellow of a college in Cambridge Master of Arts,1828 *Japanese Poetry and its Publics* Dean Anthony Brink,2017-10-02 This book aims to explore precisely how modern Japanese poetry has remained central to public life in both Japan and its former colony of Taiwan Though classical Japanese poetry has captivated the imagination of Asian studies scholars little research has been conducted to explore its role in public life as a discourse influential in defining both the modern Japanese empire and contemporary postcolonial negotiations of identity This book shows how highly visible poetry in regular newspaper columns and blogs have in various historical situations in Japan and colonial Taiwan contested as well as promoted diverse colonial imaginaries This poetry reflects both contemporary life and traditional poetics with few counterpoints in Western media Methodologically this book offers a defense of the public influence of poetry each chapter enlisting a wide range of social and media theorists from Japan Europe and North America to explore specific historical moments in an original recasting of intertextuality as a vital feature of active inter evental material engagements In this book rather than recite a standard survey of literary movements and key poets the approach taken is to examine uses of poetry shown not only to support colonialism and imperialism emerging objectionable forms of exploitation as well as the destruction of ecologies including old

growth forests in Taiwan and the Fukushima Disaster but also to present a medium of resistance a minor literature for registering protest forming transnational affiliations and promoting grass roots democracy The book is based on years of research and fieldwork partially in conjunction with the production of a documentary film Horizons of the Rising Sun Postcolonial Nostalgia and Politics in the Taiwan Tanka Association Today 2017 On Voice in Poetry David Nowell Smith,2015-03-22 What do we mean by voice in poetry In this work David Nowell Smith teases out the diverse meanings of voice from a poem s soundworld to the rhetorical gestures through which poems speak to us in order to embark on a philosophical exploration of the concept of voice itself **The Prosthetic Tongue** Katie Chenoweth,2019-11-01 Of all the cultural revolutions brought about by the development of printing technology during the sixteenth century perhaps the most remarkable but least understood is the purported rise of European vernacular languages It is generally accepted that the invention of printing constitutes an event in the history of language that has profoundly shaped modernity and yet the exact nature of this transformation the mechanics of the event has remained curiously unexamined In *The Prosthetic Tongue* Katie Chenoweth explores the relationship between printing and the vernacular as it took shape in sixteenth century France and charts the technological reinvention of French across a range of domains from typography orthography and grammar to politics pedagogy and poetics Under Fran ois I the king known in his own time as the Father of Letters both printing and vernacular language emerged as major cultural and political forces Beginning in 1529 French underwent a remarkable transformation as printers and writers began to reimagine their mother tongue as mechanically reproducible The first accent marks appeared in French texts the first French grammar books and dictionaries were published phonetic spelling reforms were debated modern Roman typefaces replaced gothic scripts and French was codified as a legal idiom This was Chenoweth argues a veritable new media moment in which the print medium served as the underlying material apparatus and conceptual framework for a revolutionary reinvention of the vernacular Rather than tell the story of the origin of the modern French language however she seeks to destabilize this very notion of origin by situating the cultural formation of French in a scene of media technology and reproducibility No less than the paper book issuing from sixteenth century printing presses the modern French language is a product of the age of mechanical reproduction **The Art of Latin Poetry. Founded on the Work of M. C. D. J. By a Master of Arts and Fellow of a College in Cambridge** Christian David JANI,1828
