The contributors also address questions of responsible agency such as the effects of addiction or insanity and some deal with punishment, its mode and severity, and the justness of the state's imposition of it. These chapters are authored by some of the most distinguished scholars in the fields of applied ethics, criminal law, and jurisprudence.

Sex Work Matters Melissa Hope Ditmore, Antonia Levy, Alys Willman, 2013-04-04 Sex Work Matters brings together sex workers, scholars, and activists to present pioneering essays on the economics and sociology of sex work. From insights by sex workers on how they handle money, intimate relationships, and daily harassment by the police to the experience of male and transgender sex work, this fascinating and original book offers new theoretical frameworks for understanding the sex industry. The result is a vital new contribution to sex worker rights that explores the topic in new ways, especially its cultural, economic, and political dimensions. Readers weary of the sensational and often salacious treatment of the sex industry in the media and literature will find Sex Work Matters refreshing.

Sexual Exploitation and Abuse in UN Peacekeeping Kelly Neudorfer,2014-12-31 While serving in United Nations peacekeeping missions some peacekeepers sexually exploit and abuse the local population a fact which erupted into a scandal published by many media outlets in 2005 and 2006 This book analyzes factors which may increase the risk of such behavior as well as measures the UN has taken which may have decreased the number of incidents Using a mixed methods design the book argues that previous analyses have been largely undertheorized with the exception of gender theories and turns to criminology to look at the phenomenon of so called Sexual Exploitation and Abuse SEA in a new light The three risk factors found to increase the likelihood of SEAs are an environment of sexual violence in the mission s host country the presence of internally displaced persons close to the mission and a lack of supervised or regulated contact with the local population In turn the presence of an office whose purpose is to collect reports and investigate allegations training on preventing SEAs for the incoming peacekeepers and campaigns to empower the local population on these issues all seem to reduce the risk of sexual exploitation and abuse occurring By using a statistical analysis followed by case studies of the UN peacekeeping missions in the Democratic Republic of the Congo Liberia and the Golan Heights the author demonstrates the importance these factors have in the peacekeepers behavior on the mission providing a solid basis upon which future policy recommendations can be made

Whose Body is it Anyway? Cécile Fabre,2006-04-06 In the prevailing liberal ethos if there is one thing that is beyond the reach of others it is our body in particular and our person in general our legal and

political tradition is such that we have the right to deny others access to our person and body even though doing so would harm those who need personal services from us or body parts. However, we lack the right to use ourselves as we wish in order to raise income even though we do not necessarily harm others by doing so even though we might in fact benefit them by doing so. Cécile Fabre's aim in this book is to show that according to the principles of distributive justice which inform most liberal democracies both in practice and in theory it should be exactly the other way around that is if it is true that we lack the right to withhold access to material resources from those who need them we also lack the right to withhold access to our body from those who need it but we do under some circumstances have the right to decide how to use it in order to raise income. More specifically she argues in favour of the confiscation of body parts and personal services as well as of the commercialization of organs sex and reproductive capacities.
