does a rich nation such as Canada have to satisfy the claims of global environmental justice These are the sorts of issues in applied ethics that are tackled in this collection of essays the vast majority of which have been written especially for this volume It is the first Canadian collection of its kind The book is divided in to sections detailing with such topics as the environment and the economy ethical issues relating to non human animals issues of gender and issues relating to native peoples Most of the authors are philosophers though specialists in geography geology and the social sciences are also among the contributors Frequent reference is made to theoretical ethical concerns but the focus throughout is on applied ethics and a variety of case studies are included Examples include essays on animal rights and the case of native hunters surface mining in Northern Ontario the Quebec arctic and fishing communities in the Maritimes Comparisons are frequently drawn to policies and ethical questions arising in other countries most prominently the United States

**Indigenous Peoples, National Parks, and Protected Areas** Stan Stevens, 2014-09-18 A vast number of national parks and protected areas throughout the world have been established in the customary territories of Indigenous peoples In many cases these conservation areas have displaced Indigenous peoples undermining their cultures livelihoods and self governance while squandering opportunities to benefit from their knowledge values and practices This book makes the case for a paradigm shift in conservation from exclusionary uninhabited national parks and wilderness areas to new kinds of protected areas that recognize Indigenous peoples conservation contributions and rights It documents the beginnings of such a paradigm shift and issues a clarion call for transforming conservation in ways that could enhance the effectiveness of protected areas and benefit Indigenous peoples in and near tens of thousands of protected areas worldwide Indigenous Peoples National Parks and Protected Areas integrates wide ranging multidisciplinary intellectual perspectives with detailed analyses of new kinds of protected areas in diverse parts of the world Eleven geographers and anthropologists contribute nine substantive fieldwork based case studies Their contributions offer insights into experience with new conservation approaches in an array of countries including Australia Canada Guatemala Honduras Nepal Nicaragua Peru South Africa and the United States This book breaks new ground with its in depth exploration of changes in conservation policies and practices and their profound ramifications for Indigenous peoples protected areas and social reconciliation

**Biodiversity and Protected Areas** Karen Beazley, Robert Baldwin, 2019-04-16 Biodiversity and Protected Areas assembles twelve topics from around the world illustrating the complexities and promise of addressing the biodiversity crisis Authors from Mongolia Africa India Canada Iraq and the United States dwell on particular aspects and challenges relevant to those regions Lessons and approaches from interesting localities coupled with global analyses give the reader a synthetic view of emerging problems The opportunities for understanding common issues across different geographies abound such as comparing local conservation in sub Saharan Africa with a distribution of very small protected areas in Massachusetts Several topics will be of immediate interest to policymakers The book is illustrated with numerous color maps and figures and the authors strove for clear uncomplicated

writing The editors provide an overview of chapters placing them in the context of other biodiversity and protected area literature Students and conservationists attempting to broaden their views of biodiversity and protected areas should find this collection to be interesting *This Elusive Land* Melody Hessing, Rebecca Raglon, Catriona Sandilands, 2005 This Elusive Land provides an introduction to the literature about women and the environment in Canada It looks at the ways in which women integrate the social and biophysical settings of their lives and features a range of contexts in which gender mediates inspires and informs a sense of belonging to and in this land Drawing from geographical historical and cultural perspectives the volume reveals the significance of women s experiences in various landscapes Jacket **Protected Places** Gerald Killan, 1993-07-25 Since the founding of Algonquin Provincial Park in 1893 Ontario has developed a parks system that is held in the highest regard Today some 260 parks span the province Protected Places is a comprehensive account of the attitudes and actions that have shaped provincial parks policy over the century notably those of early conservationists and more recently of environmentalists aboriginal peoples vacationers of every description naturalists scientists loggers miners concession operators the administrators with the responsibility to plan develop and manage the parks and the politicians who made the ultimate decisions on policy matters Author Gerald Killan s analysis cuts across the disciplines of history geography political science environmental studies and the earth and life sciences The book will be of compelling interest to readers from all these backgrounds as well as the park visitor Protected Places is being published in 1993 as part of the celebration of the Centennial of Ontario s provincial parks Protecting Nature Jeffrey A. McNeely, 1994 This volume describes the major issues facing protected areas both terrestrial and marine and discusses the approaches needed to address these issues An additional section drawing upon the expertise of CNPPA s vice chair marine and members of 14 task forces specifically addresses protected area issues in the coastal marine environment **Conservation Geography** Charles L. Convis, Charles L. Convis (Jr.), 2001 Showing how GIS and geography provide a framework for ecology and conservation efforts this book describes how new technological tools for that kind of analysis chief among them GIS are being used to revolutionize the work of conservation **Friends for Life** Ken Burnett, 1996 *Unnatural Law* David R. Boyd, 2011-11-01 While governments assert that Canada is a world leader in sustainability Unnatural Law provides extensive evidence to refute this claim A comprehensive assessment of the strengths and weaknesses of Canadian environmental law the book provides a balanced critical examination of Canada s record focusing on laws and policies intended to protect water air land and biodiversity Three decades of environmental laws have produced progress in a number of important areas such as ozone depletion protected areas and some kinds of air and water pollution However Canada s overall record remains poor In this vital and timely study David Boyd explores the reasons why some laws and policies foster progress while others fail He ultimately concludes that the root cause of environmental degradation in industrialized nations is excessive consumption of resources Unnatural Law outlines the innovative changes in laws and policies that Canada must implement in order to

respond to the ecological imperative of living within the Earth's limits. The struggle for a sustainable future is one of the most daunting challenges facing humanity in the 21st century. Everyone—academics, lawyers, students, policy makers, and concerned citizens interested in the health of the Canadian and global environments—will find *Unnatural Law* an invaluable source of information and insight.
