Protecting Children From Abuse Multiprofessionalism And The Children Act 1989:

Child Protection in England, 1960-2000 Jennifer Crane, 2018-09-25 This book is open access under a CC BY 4.0 license. This open access book explores how children, parents and survivors reshaped the politics of child protection in late twentieth century England. Activism by these groups often manifested in small voluntary organisations, drew upon and constructed an expertise grounded in experience and emotion that supported, challenged and subverted medical, social work, legal and political authority. New forms of experiential and emotional expertise were manifested in politics through consultation, voting and lobbying, but also in the reshaping of everyday life and in new partnerships formed between voluntary spokespeople and media. While becoming subjects of and agents in child protection politics over the late twentieth century, children, parents and survivors also faced barriers to enacting change, and the book traces how long-standing structural hierarchies, particularly around gender and age, mediated and inhibited the realisation of experiential and emotional expertise. **Protecting**
