Proust The Body And Literary Form:

Proust, the Body and Literary Form Michael R. Finn, 1999-03-25 This 1999 study examines the connections between Proust's fin de siècle nervousness and his apprehensions regarding literary form. Michael Finn shows that Proust's anxieties both about bodily weakness and about novel writing were fed by a set of intriguing psychological and medical texts and were mirrored in the nerve-based afflictions of earlier writers including Flaubert, Baudelaire, Nerval, and the Goncourt brothers. Finn argues that once Proust cast off his concerns about being a nervous weakling, he was freed to poke fun both at the supposed purity of the novel form and Hysteria as a figure and as a theme. Hysteria becomes a key to the Proustian narrative, and a certain kind of wordless bodily copying of gesture and event is revealed to be at the heart of a writing technique which undermines many of the conventions of fiction.

Proust's Duchesse Caroline Weber, 2019-11-26 PULITZER PRIZE FINALIST A brilliant look at turn of the century Paris through the first in-depth study of the three women Proust used to create his supreme fictional character, the Duchesse de Guermantes. Weber has done a remarkable job of bringing to life a world of culture, glamour, and privilege. *The Wall Street Journal*: Genevieve Halvy Bizet, Straus, Laure de Sade, Comtesse de Adhème de Chevalign, and Lisabeth de Riquet de Caraman Chimay: these were the three superstars of fin de siècle Parisian high society who, as Caroline Weber says, transformed themselves and were transformed by those around them into living legends, paragons of elegance, nobility, and style. All well but unhappily married, these women sought freedom and fulfillment by reinventing themselves between the 1870s and 1890s as icons. At their fabled salons, they inspired the creativity of several generations of writers, visual artists, composers, designers, and journalists. Against a rich historical backdrop, Weber takes the reader into these women's daily lives of masked balls, hunts, dinners, court visits, nights at the opera or theater. But we see as well the loneliness, rigid social rules, and loveless arranged marriages that constricted these women's lives. Proust, as a twenty-year-old law student in 1892, would worship them from afar and later meet them and create his celebrated composite character for *The Remembrance of Things Past*.

Proust's Imaginary Museum Gabrielle Townsend, 2008 This study of Marcel Proust's creative imagination examines an aspect of the novel that has hitherto been largely overlooked: the author's dependence on secondary visual sources. Gabrielle Townsend argues that reproductions play a key role in the work's complex, multi-layered structure.

A Life Composed André Schüller, 2002 The modern literary critic T. S. Eliot wrote in 1929: "must be an experimenter outside of what you might at first consider his own province; there is no literary problem which does not lead us irresistibly to larger problems." This book follows Eliot's principle and situates his literary and critical work in a wide context that reveals manifold links between aesthetics, ethics, politics, and epistemology: the historical context of early twentieth-century idealism, vitalism, and pragmatism; especially the intensely political Bergsonian controversy; and the modern context of the philosophies of Charles Taylor, Michel Foucault, and Richard Rorty. Knowledge, it argues, was verbalised in the modernist age, individualised into the act of knowing, an act with motives and goals, and thus introduced into the realm

Mourning and Creativity in Proust Anna Magdalena Elsner, 2017-03-09 This study explores Proust's answers to some of

the fundamental challenges of the inevitable human experience of mourning Thinking mourning and creativity together allows for a fresh approach to the modernist novel at large but also calls for a reassessment of the particular historical and social challenges faced by mourners at the beginning of the twentieth century The book enables the reader to acknowledge loss and forgetting as an essential part of memory and it proposes that this literary topos has seminal implications for an understanding of the ethics aesthetics and erotic in Proust's *A la recherche du temps perdu* Drawing on the works of Sigmund Freud and Jacques Derrida Anna Magdalena Elsner develops an original theory of how mourning and creativity are linked by emphasizing that ethical dilemmas are central to an understanding of the novel's final aesthetic apotheosis This sheds new light on the enigmatic and versatile nature of mourning but also pays tribute to those fertile tensions and paradoxes that have made Proust's novel captivating for readers since its publication

Proustian Passions Ingrid Wassenaar, 2000 *A la recherche du temps perdu* occupies an undisputed place in the unfolding intellectual history of the *moi* in France There is however a general tendency in writing on this novel to celebrate the wonders of the *moi* sensible uncritically This effaces all that is morally dubious or frankly experimental about Proust's account of selfhood It denies the rigour with which Proust tries to understand exactly why it is so difficult to explain one's own actions to another The great party scenes for example or the countless digressions read like manuals on how acts of self justification take place Proust however is not merely interested in some kind of taxonomy of excuses hypocrisy disingenuousness and Schadenfreude He wants to know why self justification tends to be interpreted as indicative of moral or psychological weakness He asks himself whether self justification informs isolated moments of everyday existence or whether it endures in an overall conception of self that lasts an individual's lifetime He investigates whether it dictates the functioning of an entire social group Can we decide he asks whether justifying one's self should be written off as morally repugnant or taken seriously as evidence of moral probity

[The Proustian Mind](#) Anna Elsner, Thomas Stern, 2022-12-30 When Marcel Proust started to work on *In Search of Lost Time* in 1908 he wrote this question in his notebook Should I make it a novel a philosophical study am I a novelist Throughout his famous multi volume work Proust directly engages several philosophers and few novels are as thoroughly saturated with philosophical themes and concepts as *In Search of Lost Time* The *Proustian Mind* is an outstanding reference source to the rich philosophical range of Proust's work and the first major volume of its kind Including 31 chapters by an international team of contributors the volume is divided into seven clear parts Proust's life and works metaphysics and epistemology mind and language aesthetics ethics gender and sexuality predecessors contemporaries and successors Within these sections key Proustian themes are explored from a philosophical standpoint including time the self memory imagination jealousy beauty love subjectivity and desire The final section considers Proust in relation to important philosophers such as Schopenhauer Nietzsche Bergson Merleau Ponty Sartre de Beauvoir and Deleuze The *Proustian Mind* is essential reading for those studying aesthetics philosophy of literature phenomenology and ethics and will also be of interest to those in literature

Cano, 2010-10-01 Marcel Proust's multivolume masterpiece *la recherche du temps perdu* began to appear in 1913 Over the next fifty years it gained a reputation as one of the greatest literary works of the twentieth century But the novel's classic image as a completed work was later shattered by the discovery of unpublished drafts and the war of the Prousts has kept scholars arguing over its definitive form ever since Christine M Cano's *Proust's Deadline* presents a concise history of the publishing and reception of *la recherche du temps perdu* and sorts out the most important issues that have arisen from the ensuing debates about the text She ultimately shows how this quintessential book about time tells another story about time's passage the story of Proust's mortal confrontation with the temporality of writing publishing and reading *Sounds of Modern History* Daniel Morat, 2014-09-01 Long ignored by scholars in the humanities sound has just begun to take its place as an important object of study in the last few years Since the late 19th century there has been a paradigmatic shift in auditory cultures and practices in European societies This change was brought about by modern phenomena such as urbanization industrialization and mechanization the rise of modern sciences and of course the emergence of new sound recording and transmission media This book contributes to our understanding of modern European history through the lens of sound by examining diverse subjects such as performed and recorded music auditory technologies like the telephone and stethoscope and the ambient noise of the city **Sleep and the Novel** Michael Greaney, 2018-04-04 *Sleep and the Novel* is a study of representations of the sleeping body in fiction from 1800 to the present day which traces the ways in which novelists have engaged with this universal indispensable but seemingly nondescript region of human experience Covering the narrativization of sleep in Austen the politicization of sleep in Dickens the queering of sleep in Goncharov the aestheticization of sleep in Proust and the medicalization of sleep in contemporary fiction it examines the ways in which novelists envision the figure of the sleeper the meanings they discover in human sleep and the values they attach to it It argues that literary fiction harbours on its margins a sleeping partner one that we can nickname the Schlafroman or sleep novel whose quiet absorption in the wordlessness and passivity of human slumber subtly complicates the imperatives of self awareness and purposive action that traditionally govern the novel *Marcel Proust in Context* Adam Watt, 2013-12-05 This volume sets Marcel Proust's masterwork *la*
