Van Gogh and the End of Nature

Michael Lobel,2024-06-25 A groundbreaking reassessment that foregrounds Van Gogh's profound engagement with the industrial age while making his work newly relevant for our world today Vincent van Gogh 1853-1890 is most often portrayed as the consummate painter of nature whose work gained its strength from his direct encounters with the unspoiled landscape Michael Lobel upends this commonplace view by showing how Van Gogh's pictures are inseparable from the modern industrial era in which the artist lived from its factories and polluted skies to its coal mines and gasworks and how his art drew upon waste and pollution for its subjects and even for the very materials out of which it was made Lobel underscores how Van Gogh's engagement with the environmental realities of his time provides repeated forewarnings of the threats of climate change and ecological destruction we face today Van Gogh and the End of Nature offers a radical revisioning of nearly the full span of the artist's career considering Van Gogh's artistic process his choice of materials and some of his most beloved and iconic pictures Merging a timely sense of environmental urgency with bold new readings of the work of one of the world's most acclaimed artists this book weaves together detailed historical research and perceptive analysis into an illuminating portrait of an artist and his changing world

Soil and Stone Frances Fowle,2017-07-05 The Impressionists are world renowned for their vibrant depictions of the atmospheric effects and shimmering beauty of the French countryside These paintings often produced in Paris found an enthusiastic market in the city The inhabitants of that hub of modernity had an apparently paradoxical interest in the mythologies of rural living As the city became more and more the motive force of social change so the country was understood as the anchor of changelessness and nostalgia The essayists in this volume examine the complex relationship between country and city Their work draws widely on the contemporary culture exploring folklore and children's literature anarchism and urbanism and offers significant new insights into the work of major artists and writers including Courbet Millet Monet Van Gogh and Zola
