Provisional City:

The Provisional City Dana Cuff,2000 A look at urban transformation through the architecture and land development of large scale residential projects *Looking for Los Angeles* Charles G. Salas,Michael S. Roth,2001 In *Looking for Los Angeles* 12 contributors present their responses to the world s newest major city A variety of perspectives and approaches are covered The text balances the importance of place with the importance of culture **Letter from the Acting Secretary of the Treasury, Transmitting a Copy of a Communication from the Attorney-General Asking Authority to Pay the Claim of E. P. Kelly and J. J. Graham for Services Rendered as Policemen at the Opening of Oklahoma Territory, from the Unexpended Balance of the Appropriation Made by the Deficiency Act of July 28, 1892** ,1894 **Moody's Manual of Investments** John Sherman Porter,1920 *Moody's Analyses of Investments and Security Rating Service* ,1920

The Creative Destruction of Manhattan, 1900-1940 Max Page,1999 The oxymoron creative destruction suggests the tensions that are at the heart of urban life between stability and change between particular places and undifferentiated spaces between market forces and planning controls and between the natural and unnatural in city growth Page investigates these cultural counter weights through case studies of Manhattan s development with depictions ranging from private real estate development along Fifth Avenue to Jacob Riis s slum clearance efforts on the Lower East Side from the elimination of street trees to the efforts to save City Hall from demolition Contrary to the popular sense of New York as an ahistorical city the past as recalled by powerful citizens was in fact at the heart of defining how the city would be built BOOK JACKET

Health Rights Are Civil Rights Jenna M. Loyd,2014-04-01 *Health Rights Are Civil Rights* tells the story of the important place of health in struggles for social change in Los Angeles in the 1960s and 1970s Jenna M Loyd describes how Black freedom antiwar welfare rights and women s movement activists formed alliances to battle oppressive health systems and structural violence working to establish the principle that health is a right For a time with President Nixon big business and organized labor in agreement on national health insurance even universal health care seemed a real possibility *Health Rights Are Civil Rights* documents what many Los Angeles activists recognized that militarization was in part responsible for the inequalities in American cities This challenging new reading of suburban white flight explores how racial conflicts transpired across a Southland landscape shaped by defense spending While the war in Vietnam constrained social spending the New Right gained strength by seizing on the racialized and gendered politics of urban crisis to resist urban reinvestment and social programs Recapturing a little known current of the era s activism Loyd uses an intersectional approach to show why this diverse group of activists believed that democratic health care and ending war making were essential to create cities of freedom peace and social justice a vision that goes unanswered still today *Sarajevo* Robert J. Donia,2006 Sheds new light on Sarajevo as a cosmopolitan gem deserving of a central role in the world s cultural social and political history **Moody's Analyses of Railroad Investments** John Sherman Porter,1923 **Hearings** United States. Congress Senate,1966

Campanella, 2008-04-17 Thomas J. Campanella examines the driving forces behind China's urban revolution and traces both the historical precedents and increasingly globalized flow of ideas trends and information that have combined to create a brave new Chinese cityscape He provides a critical overview of Chinese urban development in light of both China's past and previous experiences of rapid urbanization elsewhere in the world especially that of the United States a nation that itself once set global records for the speed and scale of its urban ambitions Jacket *The Landmarks of New York, Fifth Edition* Barbara Lee Diamonstein-Spielvogel, 2011-09-01 As the definitive resource on the architectural history of New York City The Landmarks of New York Fifth Edition documents and illustrates the 1 276 individual landmarks and 102 historic districts that have been accorded landmark status by the New York City Landmarks Preservation Commission since its establishment in 1965 Arranged chronologically by date of construction the book offers a sequential overview of the city's architectural history and richness presenting a broad range of styles and building types colonial farmhouses Gilded Age mansions churches schools libraries museums and the great twentieth century skyscrapers that are recognized throughout the world That so many of

these structures have endured is due in large measure to the efforts of the New York City Landmarks Preservation Commission. Since the establishment of the commission, New York City has become the leader of the preservation movement in the United States with more buildings and districts designated and protected than in any other city. Included here are such iconic structures as Grand Central Station, the Chrysler Building, the Metropolitan Museum of Art, and Carnegie Hall, as well as those that may be less well known but are of significant historical and architectural value: the Pieter Claesen Wyckoff House in Brooklyn, the oldest structure in New York City; the Bowne House in Queens, the birthplace of American religious freedom; the Watchtower in Marcus Garvey Park in Harlem; the New York Botanical Garden in The Bronx; and Sailors Snug Harbor on Staten Island. In addition to completely updated maps and descriptions of each landmark and historic district included in the previous editions, the fifth edition adds 183 new individual landmarks and 39 new historic district maps.
