Applying Educational Psychology in Coaching Athletes Jeffrey J. Huber, 2012-09-18 Applying Educational Psychology in Coaching Athletes discusses how to improve coaching success and athletic performance through the application of teaching principles and theories Delving deeper than an explanation of what athletes learn and what coaches teach Applying Educational Psychology in Coaching Athletes offers insight into the how of athletes learning and coaching by considering principles of psychology that drive the emotions motivation expectations self worth and relationships of athletes application of principles of psychology to the motor learning process and use of principles of educational psychology to improve sport expertise and coaching success A three time U S Olympic coach and veteran collegiate coach Huber infuses his own experience in applying theories of educational psychology in working with individual athletes as well as world class national and international teams With an engaging presentation and strong practical applications Huber assists coaching students and practicing coaches in utilizing educational psychology as a platform for improving coaching skills Applying Educational Psychology in Coaching Athletes introduces the idea of the developing coach as both teacher and learner and how coaching principles and a strong coaching philosophy provide a foundation for effective management and decision making By considering the theories that drive successful coaching developing coaches gain focus motivation and guidance as they learn how a thoughtful coach provides the structure and discipline to make athletes more successful on the field of play Throughout the text Huber focuses on how athletes learn considering theories of motivation behaviorism cognition and

humanism and the interplay between emotions and motor learning and performance Each chapter opens with a coaching related anecdote that readers can relate to in order to highlight the significance of the theory under consideration After careful explanation of each theory Huber details concrete examples guidelines and specific applications for coaching In addition to summary information each chapter concludes with Your Coaching Toolbox which focuses readers on ways to incorporate their newly gained knowledge into their interactions with athletes Applying Educational Psychology in Coaching Athletes is unmatched in its depth of insight into the teaching and learning process in sport and how to put it into practice By examining how athletes learn and coaches teach the text helps coaches understand how to maximize athlete performance and increase their athletic success

The Psychology of Coaching, Mentoring and Learning Ho Law, 2013-09-03 The Psychology of Coaching Mentoring and Learning addresses the psychological principles upon which coaching and mentoring is based and integrates them in a universal framework for the theory and practice of individual and organizational development The second edition is updated with the latest research taking into account the increasing importance of positive psychology and its role in coaching and mentoring with an emphasis on strength growth and development Combining high level theory with practical applications and case studies this is an invaluable resource for coaches mentors trainers psychologists executives managers and students

Psychology in Sports Coaching Adam R. Nicholls, 2012-12-20 Have you ever wondered how athletes learn and make use of the feedback they are given by their coach or how a coach could make his or her feedback more effective for athletes Psychology in Sports Coaching has been written specifically for students studying coaching who want to improve their understanding of incorporating psychology into coaching practice As such it provides information on how coaches establish the psychological needs of athletes in order for them to provide psychological interventions such as mental imagery mental toughness training and coping effectiveness training This book also provides the reader with information on enhancing the awareness of athletes and the relationships that occur between the coach and the athlete It explains how coaches can coach children adolescents adults and athletes with learning disabilities These groups of athletes have different learning styles are motivated by different factors and prefer instructions to be administered differently So it is important that coaches tailor their coaching based on the athlete they coach as this has the potential to enhance the performance and enjoyment of the players that are being coached Essential reading for all students of sports coaching and sport psychology and for practising sports coaches this book will help develop and extend coaching expertise

Positive Psychology Coaching Dr. Susanne Knowles, 2018-10-17 Coaching is an emerging profession across all walks of life Coaches work in communities businesses governments private and not for profit settings to assist people to grow personally and professionally More people are engaging their own life business career transition leadership or executive coaches to help them solve their life or work problems and reach their goals more quickly and easily Coaches are sounding boards to clients putting their agenda front and center and the clients back in control of their life The coach works

nonjudgmentally with clients to understand their situation and needs help them become more self aware and resourceful uncover insights into themselves and what they need to do and stand side by side with them as they take the actions they need to take Why positive psychology coaching Because before people can change their behavior they often need to change their mind set A client s mind set may be positive and supportive of change or negative and is holding them back Coaching from a positive psychology perspective means that the coach and client are always focusing on what s right in life rather than what s wrong The coach works with the client to identify their limiting beliefs and reframe them into positives Together they identify solutions or goals and develop action plans to achieve these outcomes Change can happen very quickly once beliefs and actions are aligned and supported by positive affirmations that boost self esteem and self efficacy Every day we try to find meaning in life and when we don t we become confused and search for answers We can look back and despair or we can look forward into a compelling future Many people neither want nor need to see a therapist or counselor and they choose to see a professional coach instead to help them resolve their situation and find greater happiness in life The Psychology of Executive Coaching Bruce Peltier,2011-04-27 With the first edition of this text Peltier drew on his extensive experience in both the clinical and business worlds to create a comprehensive resource that brought psychological and coaching concepts together It quickly became a practical and invaluable guide for both mental health practitioners looking to expand their practice into coaching and business professionals interested in improving their own coaching skills In this updated edition topics reflect the latest developments in the field of executive coaching Peltier describes several important psychological theories and how to effectively translate them into coaching strategies essential business lessons in leadership marketing and the corporate viewpoint along with vocabulary for the therapist the challenges women face as managers and executives and effective coaching methods for working with them and lessons from successful athletic coaches that can be integrated into consulting skills This edition includes four new chapters one describing psychopathology likely to be encountered by coaches Another describes and evaluates emotional intelligence a third summarizes adult developmental theory for coaches and a fourth sorts out the popular and scientific literature on leadership and leader development *Psychology of Coaching* Jack H. Llewellyn,Judy A. Blucker,1982-01-01 **Positive Psychology Coaching** Robert Biswas-Diener,Ben Dean,2010-06-03 Positive psychology moves psychology from a medical model toward a strengths model to help clients shore up their strengths and thereby lead happier more fulfilling lives Positive Psychology Coaching Putting the Science of Happiness to Work for Your Clients provides concrete language and interventions for integrating positive psychology techniques into any mental health practice *The Psychology of Effective Coaching and Management* Paul A. Davis,2015 The Psychology of Effective Coaching and Management is a valuable resource for students researchers practitioners educators and administrators that want to increase their knowledge of psychological aspects associated with the development and practice of coaching and management The reader is guided through models of the coaching process approaches to coach learning

context specific education and tools for observing coaching behaviors Additionally considerations for enhancing positive youth development motivational climate group dynamics self regulation emotions and mental toughness are outlined The application of mental skills such as self talk the consideration of an athlete s personality in coaching practice and leadership theories in management are also reviewed Examples of highly effective sport organizations and approaches to optimizing relationships with support staff are presented as well as research and implications of coach burnout The book is written by world leading scholars sport psychologists coaches and managers from the USA Canada Australia New Zealand Sweden Spain Greece Croatia and the UK Each chapter presents current research and offers suggestions for optimizing effective coaching and management The chapters are written to be accessible to a wide range of readers and each chapter offers a set of key considerations for enhancing practice The aim of the book is to present up to date knowledge of the theories and research undertaken in sport coaching and management with a particular focus upon applying understanding to maximize effective practice This book will serve as essential reading for scholars and students it can be used as a key text in sports coaching or coach education programs Furthermore coaches as well as their athletes will benefit from the recommendations for practice presented in the book

Coaching Psychology for Learning Qing Wang, 2018-04-20 The contribution of coaching psychology to educational fields is increasingly recognised This timely book introduces coaching psychology as a facilitative method to support learning in different educational contexts *Coaching Psychology for Learning Facilitating Growth in Education* is conveniently organised into three parts Part One begins with a detailed account of educational paradigms learning theories and coaching psychology theories it then reviews important studies of coaching applied to the educational field and identifies a number of gaps to which coaching psychology for learning can contribute Part Two presents two empirical participatory studies of coaching psychology for learning which draw from both doctoral research conducted in the UK and educational work in Mainland China two original and evidence based coaching models are also illustrated Part Three consolidates the empirical evidence and original coaching models by exploring the nature of educational coaching including the context purpose processes and people and their interrelations The review of learning theories and coaching psychology theories in Part One enables the reader to gain a quick understanding of coaching psychology and its role in education while the empirical studies in Part Two are particularly useful for undergraduate and postgraduate students providing practical examples of how to conduct coaching psychology research in the field of education in both the West and the East The book also offers advice on design and implementation issues which will benefit educational psychologists and coaching psychologists who wish to focus their professional practice in education *Coaching Psychology for Learning* is essential reading for any teacher student or practitioner who wishes to become an educational coach to facilitate learning It will appeal to coaches and coaching psychologists including those in training and at postgraduate level as well as professionals in educational settings such as school leaders counsellors and coaches and educational psychologists

Grassroots Coaching

Peter J. McGahey, Peter S. Pierro, 2022-02-18 Coaching is a booming and growing industry particularly in youth sports According to the US Bureau of Labor Statistics employment of coaches and scouts is projected to grow 12 percent from 2019 to 2029 much faster than the average for all occupations Coaches need educational resources to enter the profession as either a paid coach or a volunteer Grassroots Coaching Using Sports Psychology and Coaching Principles Effectively is a practical exploration of coaching that focuses on the key tasks of the coach while providing immediately applicable behaviors and concepts The essential responsibilities and privileges of coaching are introduced along with the appropriate accompanying sport psychology and coaching principles This book is structured as a personal independent reader and an organization trainer reference manual Opportunities for self reflection and exploration are provided throughout Utilizing examples from many sports Grassroots Coaching offers practical coaching insights and techniques for all coaches from the novice coach just beginning their coaching journey to the veteran coach looking to touch up their skills This book is sure to become a foundational resource on every coach's bookshelf

Coaching Psychology Ho Law, 2013-10-14 Coaching Psychology A Practitioner's Guide takes an in depth look at the applications and everyday challenges faced by real world practitioners of coaching and mentoring psychology Developed as a companion to The Psychology of Coaching Mentoring and Learning the practitioner's guide delves more deeply into the applications of coaching and mentoring This is the first book to harness the Universal Integrated Framework UIF for coaching and mentoring in a guide for practice and is ideal for coaches mentors psychologists and other professionals interested in this rapidly growing field

Psychology for Coaches Maciej Świeży, 2021-06-30 Psychology for Coaches offers its readers a chance to ground their interpersonal skills in sound psychological theory and research It provides a solid synthesis of current concepts and research results translating them into hands on recommendations and examples of tools The book was written in response to questions asked by trainee coaches eager to make sure they are doing their best to provide a safe professional and valuable service It offers clear practical examples on how to apply presented concepts into coaching practice It challenges popular strategies that may have unwanted side effects and offers to replace them with specific ideas on how to use coaching conversations to support goal setting and consistent motivation encourage autonomy and responsibility assist self reflection and manage learning increase awareness of emotions and manage them better identify and change beliefs and schemas build a healthier perception of oneself Psychology for Coaches will be essential reading for coaches in all areas including those in training who want an accessible fast introduction to the most relevant areas of psychology and an overview that will guide their further learning It will also be an inspirational guide for people aiming to use coaching skills in other professional roles
