Late Bloomer Clem Bastow, 2021-07-07 Introducing a bold new voice in Australian nonfiction Late Bloomer is a heartfelt coming of age memoir that will change the way you think about autism Clem Bastow grew up feeling like she'd missed a key memo on human behaviour She found the unspoken rules of social engagement confusing arbitrary and often stressful Friendships were hard relationships harder and the office was a fluorescent lit nightmare of anxiety It wasn't until Clem was diagnosed as autistic at age 36 that things clicked into focus The obsession with sparkly things and dinosaurs The encyclopaedic knowledge of popular music The meltdowns that would come on like a hurricane The ability to write eloquently while conquering basic maths was like trying to understand ancient Greek These weren't just personality quirks but autistic traits that shaped Clem's life in powerful ways With wit and warmth Clem reflects as an autistic adult on her formative experiences as an undiagnosed young person from the asphalt playground of St Joseph's Primary School in Melbourne to working as an entertainment journalist in Hollywood Along the way she challenges the broader cultural implications and ideas around autism especially for women and gender diverse people Deconstructing the misconceptions and celebrating the realities of autistic experience Late Bloomer is as heartbreaking as it is hilarious and will stay with you long after the reading

**Goodwin and Guze's Psychiatric Diagnosis** Carol North, Sean Yutzy, 2010-02-01 With two new lead authors the sixth edition of Psychiatric Diagnosis continues its thirty five year tradition of providing a clear critical and well documented overview of major psychiatric syndromes with minimum inclusion of unwieldy theories or clinical opinions Medical students and psychiatric residents will continue to find this new edition to be a unique guide to the field a volume

that concisely yet comprehensively dissects major psychiatric disorders Well known for providing a thorough yet concise view of the natural history of basic psychiatric disorders this popular text has been extensively updated chapter by chapter in this sixth edition Terminology has been made consistent with DSM IV TR and updates made to include recent genetic and neurobiological findings In the classification of psychiatric disorders new data on follow up and family genetic studies confirming and extending previous research are provided As in previous editions each chapter systematically covers the definition historical background epidemiology clinical picture natural history complications family studies differential diagnosis and clinical management of each disorder Some specific areas of new material include the long term course of mood disorders genetics and neuro imaging of schizophrenia and mood and other disorders cognitive changes in relation to depression and dementia brain stimulation techniques outcome studies of eating disorders and epidemiology of drug use disorders In accordance with current medical community interest and research entirely new chapters on posttraumatic stress disorder and borderline personality disorder have been included Additionally a new introduction reviews the background of medical model psychiatry and the empirical approach to psychiatric nosology With this new edition medical students and psychiatric residents will continue to discover that no other text provides such a lucid well documented and critically sound overview of the major syndromes in psychiatry
