Psychiatrists Guide To Practice Management:

The Psychiatrist's Guide to Practice Management, 1997 As managed care companies gain increasing control over the mental health care market many psychiatrists not under contract with a managed care plan have been excluded from significant numbers of potential patients As a result psychiatrists must pay more attention than ever before to practice management and other business related issues The Psychiatrist's Guide to Practice Management provides psychiatrists with important advice on how to make their practice capable of entering agreements with managed care organizations This important guide identifies key areas including financial regulatory promotional administrative and geographic issues that must be considered in order to adapt the practice to make it more appealing to managed care companies An additional chapter covers physician networks and alliances that compete directly against managed care organizations It also provides crucial advice for psychiatrists who wish to develop a private practice based on traditional fee for service and private pay plans By using this handy guide psychiatrists can build a thriving practice inside or outside the managed mental health care system

The Psychiatrist's Guide to Managed Care Contracting, 1997 Because of growing enrollment in managed care plans psychiatrists are finding it necessary to sign contracts with managed mental health care programs in order to receive third party payment These contracts often lead to complications and form a key area of concern for clinicians The Psychiatrist's Guide to Managed Care Contracting helps psychiatrists make sense of the legal issues arising from their managed care contracts In a step by step manner this useful guide develops the framework for the crucial decisions that must be made and highlights the strategies a psychiatric practice can employ to shape the contract in its favor It reviews standard contract provisions and the issues involved so that potential problems can be identified early in the negotiating process The Psychiatrist's Guide to Managed Care Contracting also details the essential groundwork and preparation that should be completed before a psychiatric practice enters negotiations including practice assessment financial planning marketing and the development of administrative support Equipped with this knowledge and advice psychiatrists can negotiate from a position of strength and develop a favorable contract that ensures the survival and prosperity of their practice

The Psychiatrist's Managed Care Primer American Psychiatric Association. Office of Economic Affairs and Practice Management, 1997 Because an increasing number of patients are covered through managed care plans psychiatrists need to understand the managed care system in order to answer their patients questions and ensure the continued prosperity of their practices To assist clinicians in these challenging times The Psychiatrist's Managed Care Primer arms psychiatrists with the information and tools they need to flourish within the managed care environment while simultaneously delivering quality patient care This monograph provides an overview of the evolution of this industry detailed explanations of current managed care models operations and anticipated trends and practical advice on key problem areas It focuses on the pressing issues of utilization management and capitation as well as important regulatory ethical and legal issues psychiatrists confront

under this system The potential impact that managed care systems have on their patient referrals clinical decision making autonomy and income is also examined closely Equipped with the sophisticated understanding of managed care supplied by this primer psychiatrists can make the important decisions that will ensure the survival of their practice The Maudsley Practice Guidelines for Physical Health Conditions in Psychiatry David M.
