## Psychic Autobiography 1910:

All the Days of My Life Amelia Edith Huddleston Barr, 1913      Psychics, Sensitives and Somnambules Rodger I. Anderson, 2015-01-27 Claimants of paranormal abilities have always attracted controversy and fascination and sometimes rigorous study by scientists Charles Bailey an Australian medium was seemingly able to materialize different objects animate and inanimate under conditions which made it difficult to conceive how they could have been normally produced Sumitra Singh a woman of Northern India who in 1984 became subject to epileptic type seizures claimed to be possessed by spirits of the dead Franck Kluski was a Polish poet banker and physical medium who specialized in both human and animal materializations This biographical dictionary contains profiles of 330 psychics worldwide from Tony Agpaoa to Elenor Zugun each accompanied by a bibliography listing the primary sources consulted The primary focus is on those claimed psychics who have figured prominently in the history of the subject though some lesser known figures are included to show how rich varied and colorful that history has been The aim throughout is to present each case as fairly and dispassionately as the facts allow with a particular eye for accuracy in details and presentation The approach is historical not apologetic or accusatory making the work ideally suited as a permanent reference      **Bulletin of the Pratt Institute Free Library** Pratt Institute. Free Library, 1908      The Circus Lady Josephine Demott Robinson, 1926      **The Encarta Book of Quotations** Bill Swainson, 2000-09-30 Here are 25 000 quotations drawn from the history politics literature religions science and popular culture of the world ranging from the earliest Chinese sages through Shakespeare to the present day      *Invisible Hosts* Elizabeth Schleber Lowry, 2017-08-07 Provides a rhetorical analysis of female spirit mediums autobiographies in the historical and social contexts of Victorian era America Invisible Hosts explores how the central tenets of Spiritualism influenced ways in which women conceived of their bodies and their civic responsibilities arguing that Spiritualist ideologies helped to lay the foundation for the social and political advances made by women in the late nineteenth and early twentieth centuries As public figures female spirit mediums of the Victorian era were often accused of unfeminine and therefore transgressive behavior A rhetorical analysis of nineteenth century spirit mediums autobiographies reveals how these women convinced readers of their authenticity both as respectable women and as psychics The author argues that these women s autobiographies reflect an attempt to emulate feminine virtues even as their interpretation and performance of these virtues helped to transform prevailing gender stereotypes She demonstrates that the social performance central to the production of women s autobiography is uniquely complicated by Spiritualist ideology Such complications reveal new information about how women represented themselves gained agency and renegotiated nineteenth century gender roles      **Monthly Bulletin** James V. Brown Free Public Library (Williamsport, Pa.), 1909      **Madeleine** ,1919      **Women of Invention** Charlotte Montague, 2018-06-05 Hypatia was a Greek mathematician astronomer and philosopher who invented the hydrometer in about 400 AD Described as a charismatic teacher she was seen as an evil symbol of the pagan science of learning and she

was eventually murdered by Christian zealots For many women in years gone by the invention process was fraught with danger and difficulty Not only did they face the hardship and obstacles of inventing they also had to contend with the sexism and gender discrimination of a male world that believed women had nothing to contribute Scientific women came to the fore with momentous innovations which were impossible for men to ignore During World War Two Austrian actress Hedy Lamarr became a pioneer in wireless communications developing a Secret Communications System More recently 20 year old Ann Makosinski has invented the ingenious Hollow Flashlight which converts radiant body heat into electricity Meanwhile other women continued inventing in the domestic sphere with Miracle Mops long lasting lipsticks and magic knickers In every walk of twenty first century life women have been challenging themselves and men to shape the way we live Some of the incredible innovators featured include Myra Juliet Farrell Sally Fox Rosalind Franklin Helen Murray Anna Pavlova Maria Telkes Giuliana Tesoro Halldis Aalvik Thune Ann Tsukamoto Margaret A Wilcox Ada Lovelace and many more The 150 remarkable women in this book show all too clearly that not only can invention no longer be described as a male dominated domain but that a woman's inspiration and ingenuity will probably be driving the life changing ideas of tomorrow's world
