Psychic Phenomena Of Jamaica 1934:

Psychic Phenomena of Jamaica Joseph J. Williams, 2013-10 This is a new release of the original 1934 edition

Compte-rendu de la première session, Londres, 1934, 1934 Dictionary of Jamaican English Frederic G.

Cassidy, Robert Brock Le Page, 2002 Originally published by Cambridge University Press in 1967 and then revised as a second edition in 1980 this classic study has never before been available in a paperback edition This method and plan of the dictionary are basically those of the Oxford English Dictionary but oral sources have been extensively tapped in addition to detailed coverage of literature published in or about Jamaica since 1655 The dictionary is a mine of information about the Caribbean and its dialects about the history of English and its dialects and about Creole languages and general linguistic processes Entries give the pronunciation part of speech and usage labels spelling variants etymologies and dated citations as well as definitions Systematic indexing indicates the extent to which the lexis is shared with other Caribbean countries Suriname Guyana Trinidad Barbados Nicaragua and Belize *Psychic phenomena of Jamaica* Joseph John Williams, 1979

Psychic Phenomena of Jamaica Williams (S.J.), 1934 **Mystics and Messiahs** Philip Jenkins, 2000 In this full length account of cults and anti cult scares in American history Jenkins gives accurate historical perspective and shows how many of today s mainstream religions were originally regarded as cults *Psychic Exploration* Edgar D. Mitchell, 2011-07-01 *Psychic Exploration* A Challenge for Science is a primer on psychic research life s purpose and the meaning of the universe Originally published in 1974 this landmark anthology of nearly thirty chapters on every area of psychic research is finally available again Edgar D Mitchell Apollo 14 astronaut and moonwalker as well as a distinguished researcher of the study of human consciousness brought together eminent scientists to write about issues once considered too controversial to discuss This book includes fascinating chapters on the history of parapsychology telepathy hauntings psychic phenomena and consciousness along with an extensive glossary and index This timeless anthology continues to be appealing as a reference work for those curious about the history of parapsychology fans of the world of psi and readers interested in the meaning of the universe Contributors include Willis W Harman Jean Houston Stanley Krippner Robert Masters William G Roll Russell Targ Charles T Tart Montague Ullman and many more *Grimoires* Owen Davies, 2009-03-26 What is a grimoire The word has a familiar ring to many people particularly as a consequence of such popular television dramas as Buffy the Vampire Slayer and Charmed But few people are sure exactly what it means Put simply grimoires are books of spells that were first recorded in the Ancient Middle East and which have developed and spread across much of the Western Hemisphere and beyond over the ensuing millennia At their most benign they contain charms and remedies for natural and supernatural ailments and advice on contacting spirits to help find treasures and protect from evil But at their most sinister they provide instructions on how to manipulate people for corrupt purposes and worst of all to call up and make a pact with the Devil Both types have proven remarkably resilient and adaptable and retain much of their relevance and fascination to this day But the

grimoire represents much more than just magic To understand the history of grimoires is to understand the spread of Christianity the development of early science the cultural influence of the print revolution the growth of literacy the impact of colonialism and the expansion of western cultures across the oceans As this book richly demonstrates the history of grimoires illuminates many of the most important developments in European history over the last two thousand years

Pentecostal Exorcism Opoku Onyinah, 2019-05-21 Witchcraft and exorcism have long been dominant features of life in African cultures This unique book provides a thorough field research based description and analysis of a specifically Pentecostal Christian response to these phenomena within the Akan culture of Ghana Anthropological studies generally claim that the ultimate goal of exorcism is modernisation Using interdisciplinary studies with a theological focus the author takes a different view arguing that it is divinatory consultation or an inquiry into the sacred and the search for meaning that underlies the current deliverance ministry where the focus is to identify and break down the so called demonic forces by the power of God and to deliver people from their torment The deliverance ministry is one attempt to contextualise the gospel for African people However preoccupation with demonisation and exorcistic practices is found to bring Christianity into tension with the Akan culture family ties and other religions In order to develop a properly safeguarded ministry of exorcism in an African context the author examines contextualisation and suggests the integration into African Christianity of divinatory consultation which has strong resonances with the biblical concept of prayer

Ireland and Transatlantic Poetics Brian Caraher, Robert Mahony, 2007 Transatlantic poetics is the principal theme and the constructive burden of these essays The motive toward its articulation lies in the demand for cross national international and post nationalist comprehension of cultural relations and critical practices across modern Anglophone British Irish and North American literary developments literary filiations and literary history Anglophone literary study needs to articulate ever more clearly the poetics of literary practices including the cultural politics of literary histories and literary reading Ireland is a small island yet its finest writers have insistently articulated its modern culture within a transatlantic neighborhood stretching from continental Europe across the British and Irish archipelago to the western reaches of North America Modern Dublin is a cultural location for constructing transatlantic literary relations and poetics This collection foregrounds modern Dublin its writers its universities its literary journals its teachers and critics of English Studies as well as the contested critical construction of regional and international poetics and cultural politics that emerges from the often tense interaction of local and global literary practices and critical desires
