Robert Smithson Alexander Alberro,2004 Robert Smithson Robert Smithson,Eugenie Tsai,Cornelia H. Butler,Thomas E. Crow,Alexander Alberro,Museum of Contemporary Art (Los Angeles, Calif.),Maira Roth,Whitney Museum of American Art,2004 This catalogue is the major study of Smithson 1938 1973 who is most renowned as an early earthworks artist and creator of Spiral Jetty a 1 500 foot rock coil dramatically situated in the Great Salt Lake **Robert Smithson Unearthed** Eugenie Tsai,Robert Smithson,1991 Robert Smithson Unearthed Drawings Collages Writings the first full survey of this artist s work reevaluates its larger resonance and its place in the historical development of recent art Eugenie Tsai s re presentation of the work of Smithson expands our understanding of his achievement Looking beyond the Minimalist structures and the earthworks for which she is best known she explores his intellectual and aesthetic roots his early imaginings and discovers a richer range of personal affect in Smithson s art than we had been led to expect *Robert Smithson* Ann Reynolds,2004-10-01 An examination of the interplay between cultural context and artistic practice in the work of Robert Smithson Robert Smithson 1938 1973 produced his best known work during the 1960s and early 1970s a period in which the boundaries of the art world and the objectives of art making were questioned perhaps more consistently and thoroughly than any time before or since In Robert Smithson Ann Reynolds elucidates the complexity of Smithson s work and thought by placing them in their historical context a context greatly enhanced by the vast archival materials that Smithson s widow Nancy Holt donated to the Archives of American Art in 1987 The archive provides Reynolds with the remnants of Smithson s working life magazines postcards from other artists notebooks and perhaps most important his library from which she reconstructs the physical and conceptual world that Smithson inhabited Reynolds explores the relation of Smithson s art making thinking about art making writing and interaction with other artists to the articulated ideology and discreet assumptions that determined the parameters of artistic practice of the time A central focus of Reynolds s analysis is Smithson s fascination with the blind spots at the center of established ways of seeing and thinking about culture For Smithson New Jersey was such a blind spot and he returned there again and again alone and with fellow artists to make art that through its location alone undermined assumptions about what and more important where art should be For those who guarded the integrity of the established art world New Jersey was elsewhere but for Smithson elsewheres were the defining if often forgotten locations on the map of contemporary culture *Robert Smithson* ,2013 **The Whole Artist** Rhea Anastas,2004 *Robert Smithson* ,1977 *Robert Smithson* Robert A. Sobieszek,Robert Smithson,1993 There have been other exhibitions of his works but Robert Smithson Photo Works is the first to examine his use of the camera and to present the way he saw the unique landscapes in which he traveled and located his art As demonstrated by curator of photography Robert A Sobieszek the photographic image was central to Smithson s art whether in collages montages sequences films or alone Smithson s final projects attempted a collaboration art and industry He believed artists could assist in reclaiming such

devastated areas as open face strip mines Our expanding presence in and impact upon the land may have become so pervasive that the boundaries between nature and culture have been all but obliterated Now two decades after his death Robert Smithson's lessons are all the more vital and significant from preface **Robert Smithson**, 1994 *Inside the Spiral* Suzaan Boettger, 2023-04-11 An expansive and revelatory study of Robert Smithson's life and the hidden influences on his iconic creations This first biography of the major American artist Robert Smithson famous as the creator of the Spiral Jetty deepens understanding of his art by addressing the potent forces in his life that were shrouded by his success including his suppressed early history as a painter his affiliation with Christianity astrology and alchemy and his sexual fluidity Integrating extensive investigation and acuity Suzaan Boettger uncovers Smithson's story and with it symbolic meanings across the span of his painted and drawn images sculptures essays and earthworks up to the Spiral Jetty and beyond to the circumstances leading to what became his final work Amarillo Ramp While Smithson is widely known for his monumental earthwork at the edge of the Great Salt Lake *Inside the Spiral* delves into the arc of his artistic production recognizing it as a response to his family's history of loss which prompted his birth and shaped his strange intelligence Smithson configured his personal conflicts within painterly depictions of Christ's passion the rhetoric of science fiction imagery from occult systems and the impersonal posture of conceptual sculpture Aiming to achieve renown he veiled his personal passions and transmuted his professional persona becoming an acclaimed innovator and fierce voice in the New York art scene Featuring copious illustrations never before published of early work that eluded Smithson's destruction as well as photographs of Smithson and his wife the noted sculptor Nancy Holt and recollections from nearly all those who knew him throughout his life *Inside the Spiral* offers unprecedented insight into the hidden impulses of one of modern art's most enigmatic figures With great sensitivity to the experiences of loss and existential strife that defined his distinct artistic language this biographical analysis provides an expanded view of Smithson's iconic art pilgrimage site and the experiences and works that brought him to its peculiar blood red water **Robert Smithson and the American Landscape** Ron Graziani, 2004-04-05 Publisher Description *Robert Smithson* Robert Smithson, IVAM Centre Julio González, Palais des beaux-arts (Brussels, Belgium), 1994 Textes choisis Smithson Robert **Reviewing Robert Smithson** Sharon Lynn Corwin, 1995 *Gendering Landscape Art* Steven Adams, Anna Gruetzner Robins, 2000 While gender has been the subject of extensive critical inquiry the debate has focused primarily on the human particularly the female body The spaces bodies occupy and the ways in which those spaces are depicted in landscape art has not however been subject to investigation This book is the first sustained attempt to fill this gap in art history **Parallel Presents** Amelia Barikin, 2012-09-14 The first book length art historical examination of a major contemporary French artist Over the past two decades French artist Pierre Huyghe has produced an extraordinary body of work in constant dialogue with temporality Investigating the possibility of a hypothetical mode of timekeeping parallel presents Huyghe has researched the architecture of the incomplete directed a puppet opera founded a

temporary school established a pirate television station staged celebrations scripted scenarios and journeyed to Antarctica in search of a mythological penguin In this first book length art historical examination of Huyghe and his work Amelia Barikin traces the artist s continual negotiation with the time codes of contemporary society Barikin finds in Huyghe s projects an alternate way of thinking about history a topological historicity that deprograms or reprograms temporal formats Barikin offers pioneering analyses of Huyghe s lesser known early works as well as sustained readings of later critically acclaimed projects including No Ghost Just a Shell 2000 L Exp dition scintillante 2002 and A Journey That Wasn t 2005 She emphasizes Huyghe s concepts of freed time and the open present in which anything might happen Bringing together an eclectic array of subjects and characters from moon walking to situationist practices from Snow White to Gilles Deleuze Parallel Presents offers a highly original account of the driving forces behind Huyghe s work *Barry Le Va* Michael Maizels, 2015-10-01 Of the conceptual artists who began their careers in the 1960s and 1970s Bruce Nauman Chris Burden Vito Acconci and Mel Bochner among them Barry Le Va may be the most elusive As this first study of his work reveals his rigorously planned art was instigated to mask its creator s intentions and methods presenting itself as an aftermath of modernism s claim to permanency and civil society s preferred mode of monumentalism For Michael Maizels Le Va s work constitutes a particularly productive subject of inquiry because it clearly articulates the interconnection between the avant garde s distrust of autonomous art objects two decades of social unrest the emergence of information theory and lingering notions of scientific objectivity Barry Le Va *The Aesthetic Aftermath* explores how Le Va used such materials as shattered glass spent bullets sound recordings scattered flour and meat cleavers embedded in a floor to challenge the interlocking assumptions behind blind faith in lasting beauty just government and perfectible knowledge Taking inspiration from popular crime novels as well as contemporary art theory Le Va charged his viewers to attempt like detectives at a crime scene to decipher an order underlying the apparent chaos Le Va s installations were designed to erode not simply the presumed autonomy of the art object but also the economic and political authority of the art establishment In his concluding chapter Maizels looks at the more fixed work of the past two decades in which Le Va turned to architectural themes and cast concrete to probe the limits of dynamism and the idea of permanence **Robert Smithson, the Early Work, 1959-1962** Robert Smithson, 1985 Hunterian Art Gallery 880629 1985 **Environmentalism in Landscape Architecture** Michel Conan, 2000 The papers presented in this volume range from proposals for new design approaches historical analysis of the relationship between the practice of landscape architecture and environmentalism to the theories of early practitioners of landscape architecture imbued by an environmentalist outlook The issues above are addressed through topics as eclectic as the design of American zoos the establishment of the Tennessee Valley Authority road design and maintenance in Texas and criticism of relationships between the words and works of select landscape architects This volume provides a fresh approach to encounters between environmentalism and landscape architecture by reframing the issues through self reflection instead of strategic debate
