Modernidad Razon E Identidad En America Latina:

Modernidad, razón e identidad en América Latina Jorge Larraín,1996 *América Latina moderna?* Jorge Larraín,2005

Este libro de Jorge Larraín explora de manera sistemática las relaciones entre modernidad globalización neoliberalismo e identidad en América Latina El objetivo es contestar algunas preguntas pendientes que no han sido suficientemente analizadas y dilucidar algunas confusiones conceptuales que se han ido difundiendo **Identidad chilena** Jorge Larraín,2001 *Modernidad, razón e identidad en América Latina* Jorge Larraín (Soziologe, Grossbritannien),1996

Identity and Modernity in Latin America Jorge Larraín,2013-05-02 In this important new book Jorge Larraín examines the trajectories of modernity and identity in Latin America and their reciprocal relationships Drawing on a large body of work across a vast historical and geographical range he offers an innovative and wide ranging account of the cultural transformations and processes of modernization that have occurred in Latin America since colonial times The book begins with a theoretical discussion of the concepts of modernity and identity In contrast to theories which present modernity and identity in Latin America as mutually excluding phenomena the book shows their continuity and interconnection It also traces historically the respects in which the Latin American trajectory to modernity differs from or converges with other trajectories using this as a basis to explore specific elements of Latin America's culture and modernity today The originality of Larraín's approach lies in the wide coverage and combination of sources drawn from the social sciences history and literature The volume relates social commentaries literary works and media developments to the periods covered to the changing social and economic structure and to changes in the prevailing ideologies This book will appeal to second and third year undergraduates and Masters level students doing courses in sociology cultural studies and Latin American history politics and literature **El pensamiento latinoamericano en el siglo XX: Los años 90** Eduardo Devés V.,2000 En este libro se

ha querido trazar una especie de mapa donde hay centro pero no estrictamente no hay periferia Ha concebido el problema de la identidad como el centro del pensamiento latinoamericano hacia el 2000 pero por cierto ello no significa cómo podrá serlo que el de la modernización sea periférico Este mapa busca ubicar los lugares de reflexión en donde se dan cita distintas tendencias donde se entrecruzan los caminos No existe aquí una periferia radical pero sí una gradación de importancia Interesa saber cuáles son los temas más relevantes y cuáles no tanto cuáles son los sitios que han sido más visitados por los pensadores Cuáles las relaciones que articulan unos lugares de reflexión con otros Cuáles son los subtemas que ha desarrollado cada escuela Cuáles los problemas que se plantea cada grupo de trabajo Cuáles son las redes más vitales

Relaciones exteriores *Modernidades, legitimidad y sentido en América Latina* Oscar Pacheco, Carlos Asselborn, 2020-07-03 Este libro recoge ensayos y estudios sobre diferentes aspectos y momentos de la obra del filósofo cordobés Gustavo Ortiz 1941-2014 realizados por profesores investigadores de la Universidad Católica de Córdoba que tuvieron diversos vínculos con Ortiz Los estudios agudizan indagaciones críticas sobre su legado filosófico que van desde la cuestión del sentido y la religión hasta la política y el liberacionismo latinoamericano en nuestra modernidad **América Latina, un espacio cultural en el mundo globalizado** Manuel Antonio Garretón Merino, Roberto Bouzas, 1999

Liberation Theologies on Shifting Grounds Georges de Schrijver, 1998 Besides their insistence on praxis and the application of the Word of God to a given situation Liberation Theologies make ample use of tools of analysis to uncover root causes of oppression Now it is precisely with respect to these tools that Liberation Theologies today find themselves on shifting grounds In intra ecclesiastical circles cultural concerns have come to replace socio economic analysis whereas after the implosion of the East Bloc the liberationists proper also pay more attention to the issues of gender ecology and indigenous movements The contributions to this volume originating from various continents discuss to what extent this shift in emphasis is desirable and acceptable and conclude that the cultural focus cannot possibly invalidate but only enrich and complete the socio economic analysis They moreover try to assess the developments in light of globalization economics informatics on the one hand and postmodernity on the other Given the impact of western culture politics the question arises as to whether the native cultures will succeed in keeping up their religious core values and structures of solidarity two elements so indispensable for liberative commitments **Postmodernism of Resistance in Roberto Bolaño's Fiction and Poetry** J. Agustín Pastén B., 2020-12-01 Postmodernism of Resistance in Roberto Bolaño's Fiction and Poetry examines the ways in which Bolaño employs a type of literary aesthetics that subverts traits traditionally associated with postmodernism Pastén B coins these aesthetics postmodernism of resistance and argues that this resistance stands in direct opposition to critical discourses that construe the presence of hopeless characters and marginal settings in Bolaño's works as signs of the writer's disillusionment with the political as a consequence of the defeat of the Left in Latin America Rather he contends Bolaño creates a fictional world comprised of characters and situations that paradoxically refuse to accept defeat even while displaying the scars of terrible historical events In this work Pastén B challenges some critical assumptions about Bolaño's fiction and poetry that led to decontextualized interpretations of his work and offers a singularly comprehensive investigation that synthesizes multiple perspectives of a complicated author into one text *Sounding Latin Music, Hearing the Americas* Jairo Moreno, 2023-05-16 Sounding Latin America studies popular music making by immigrants from Latin America and the Spanish speaking Caribbean in the United States It focuses on the points of contact and divergence in music making that result from competing values informed by how modernity is experienced across the Americas the relation of language to letters cosmopolitanism racial categories and adjacent traditions and notions of the past citizenship and

migrancy globalization and belonging First study of the intra hemispheric linked but divergent relations of Latin music to the US and Latin America Proposes a comparative method for understanding the relations of immigrants to minority groups in the US with music making as the center Book places aurality intersensory affective cognitive discursive material perceptual and rhetorical network as central operation in the constitution of music *Beyond Dichotomies* Elisabeth Mudimbe-Boyi,2012-02-01 *Beyond Dichotomies* examines literary texts cultural production and concrete local practices within the context of modernity and globalization by focusing on the ways in which some societies confront the complexity of cultures reflected in new forms of knowledge narratives and subjectivities The contributors explore how particular societies negotiate the relations between the global and the local and use a geographical comparative perspective combined with an interdisciplinary approach to offer a diversity of views and illuminate the cultural impact of globalization on different societies around the world Africa Asia Europe and the Americas These societies face complex questions regarding people s histories identities and cultures that embody the ambivalence contradictions and anxieties generated by the process of globalization The contributors provide a compelling conclusion for a rethinking and reconfiguration of cultures and intercultural relations in today s global world in which dichotomized representations coexist with a discourse of globalization

clave decolonial Aldo Miguel Olano Alor, 2019-01-15 Este es un libro sobre la colonialidad del saber en América Latina y en Perú. Abarca el período comprendido entre 1900-1980 y propone ubicarla primero en algunas formas de pensamiento social y político que se dieron en el país durante las cuatro primeras décadas del siglo pasado. Segundo, aquel tipo de colonialidad se hace presente en las disciplinas integrantes de las ciencias sociales, cuya inicial institucionalización se tuvo en aquel período, logrando eso un fuerte impulso a partir de 1946 con la fundación de las carreras profesionales y la intensa presencia de renovados programas de investigación. Pensamiento, teorías y disciplinas que el autor ha reunido para integrar la epistemología del occidentalismo por un conjunto de razones teóricas y metodológicas que serán explicadas en los distintos capítulos que integran esta obra.
