Practically Invisible Kimbra Smith, 2015-11-11 The community of Agua Blanca deep within the Machalilla National Park on the coast of Ecuador found itself facing the twenty first century with a choice embrace a booming tourist industry eager to experience a preconceived notion of indigeneity or risk losing a battle against the encroaching forces of capitalism and development The facts spoke for themselves however as tourism dollars became the most significant source of income in the community Thus came a nearly inevitable shock as the daily rhythms of life rising before dawn to prepare for a long day of maintaining livestock and crops returning for a late lunch and siesta joining in a game of soccer followed by dinner in the evening transformed forever in favor of a new tourist industry and the compromises required to support it As Practically Invisible demonstrates for Agua Blancans becoming a supposedly authentic version of their own indigenous selves required performing their culture for outsiders thus becoming these performances within the minds of these visitors At the heart of this story then is a delicate balancing act between tradition and survival a performance experienced by countless indigenous groups

Libro nuevo Ramón Gómez de la Serna, 1920

Spanish Screen Fiction Paul Julian Smith, 2009-10-19 This pioneering book is the first to argue that cinema and television in Spain only make sense when considered together as twin vehicles for screen fiction The Spanish audiovisual sector is now one of the most successful in the world with feature films achieving wider distribution in foreign markets than nations with better known cinematic traditions and newly innovative TV formats already dominant at home now widely exported Beyond the industrial context which has seen close convergence of the two media this book also examines the textual evidence for crossover between

cinema and television at the level of narrative and form The book which is of interest to both Hispanic and media studies gives new readings of some well known texts and discovers new or forgotten ones For example it compares Almod var s classic feature *Mujeres al borde de un ataque de nervios* *Women on the Verge of a Nervous Breakdown* with his production company El Deseo s first venture into TV production the 2006 series also known as *Mujeres* *Women* It also reclaims the lost history of female flat share comedy on Spanish TV from the 1960s to the present day It examines a wide range of prize winning workplace drama on TV from police shows to hospital and legal series *Amen bar s* *Mar adentro* The Sea Inside an Oscar winning film on the theme of euthanasia is contrasted with its antecedent an episode of national network Tele5 s top rated drama *Periodistas* The book also traces the attempt to establish a Latin American genre the telenovela in the very different context of Spanish scheduling Finally it proposes two new terms Auteur TV charts the careers of creators who have established distinctive profiles in television over decades sitcom cinema charts conversely the incursion of television aesthetics and economics into the film comedies that have proved amongst the most popular features at the Spanish box office in the last decade
