Family Man Scott Coltrane, 1997-12-11 The typical American family has changed dramatically since the days of Ozzie and Harriet and Father Knows Best Double income families are now the rule and fathers are much more involved in raising the children and cleaning house Reactions to these changes have been diverse ranging from grave misgivings to a sense of liberation and new possibility Groups as diverse as Promise Keepers the Million Man March and Robert Bly s mythopoetic men s movement tell us that fathers are important From the fundamentalist right to the feminist left opinions about the changing nature of the family and the consequent rethinking of gender roles have been vehement if not always very well founded In *Family Man* sociologist Scott Coltrane brings a wealth of compelling evidence to this debate over the American family Drawing on his own extensive research and many fascinating interviews Coltrane explodes many of the common myths about shared parenting provides first hand accounts of men s and women s feelings in two job families and reveals some innovative solutions that couples have developed to balance job and family commitments Readers will find an insightful discussion of precisely how and why family life has changed what forms it may take in the future and what new kinds of fathers may be on the horizon The author firmly places these questions within a broad contextual framework He provides for instance an illuminating history of the family that shows that far from being a fixed structure the family has always adapted to changing economic social and ideological pressures And by examining how families operate in a variety of non industrial societies he demonstrates that our own notions of gender specific work and parenting roles are culturally

rather than biologically determined and thus inherently flexible And indeed these roles are changing While contemporary American women still perform the bulk of domestic tasks Family Man gives us decisive evidence that men are becoming increasingly involved in both housework and childrearing Coltrane argues convincingly that this trend will continue Given the current economic situation with two job households now the norm and the gradual ideological shift away from restrictive gender roles more and more couples will find it both necessary and desirable to share the workload More important Coltrane suggests that as fathers participate more fully in raising their children and performing traditionally female household tasks men will themselves be transformed by the experience in profoundly positive ways and American society as a whole will move closer to true gender equity Family Man succeeds brilliantly in bringing clarity perspective and above all hope to a discussion that is too often shrill chaotic and beset with the rhetoric of nostalgia It shows us not only exactly where the family is today but where it has been and what it may become

Theatre of Apollo Drew Griffith,1996-10-23 By imaginatively recreating the play s original staging and debunking the interpretations of various critics including Aristotle Ulrich von Wilamowitz Moellendorff E R Dodds Frederick Ahl and John Peradotto Griffith shows that Apollo is a constant powerful presence throughout the play He contends that although we can sympathize with Oedipus because of his sufferings he is still morally responsible for murdering his father and sleeping with his mother Apollo is therefore not indifferent and his actions are not unjust Griffith focuses on Apollo s commandment know thyself a commandment Oedipus belatedly and tragically fulfils to stress both the need for self understanding in the study of ancient literature and the usefulness of ancient literature in achieving self understanding

The Fascist State of Mind and the Manufacturing of Masculinity Christina Wieland,2014-08-13 The Fascist State of Mind and the Manufacturing of Masculinity A psychoanalytic approach attempts to describe in psychoanalytic terms the psychological consequences of massive social trauma and national humiliation and the regression that takes place within the individual under these circumstances The book is not about understanding fascism as a historical political or sociological phenomenon but about

understanding the special relationship between masculinity and fascism and the state of mind which both shaped and was shaped by the historical phenomenon of fascism Christina Wieland explores fascism as a product of certain forms of masculinity and focuses on the dynamics of masculinity as a mode of psychic functioning She examines in detail masculine anxieties and defences and their interaction with stresses of modernity and with the social and political unrest that followed World War One The Fascist State of Mind and the Manufacturing of Masculinity is divided into four parts Part One The meaning of fascism and the fascist state of mind theories and definitions Part Two Masculinity its meaning and its vulnerability Part Three Group and group theory and the total environment Part Four Exploring the links between masculinity groups and fascism The Fascist State of Mind and the Manufacturing of Masculinity uses clinical material literary texts and extensive psychoanalytic interpretation of some passages from Mein Kampf to illustrate the interplay of the psychological processes with social and political events This book will appeal to psychoanalysts and psychoanalytic psychotherapists teachers and students of psychoanalysis and gender studies It will also appeal to those interested in the application of psychoanalytic insights in the understanding of social and political phenomena Letters & Literary Remains of Edward FitzGerald: The mighty magician (taken from Calderon) Such stuff as dreams are made of (taken from Calderon) Euphranor. Hort,1996-06-18 Vampires are not just imaginary creatures of fiction or legend they really exist They are the people who having never received love settle for power instead and become experts at robbing others of their vital energy We ve all known them In her fascinating study of this dark psychological archetype Barbara Hort looks to traditional myths as well as to their modern equivalents in literature theater and film following a blood soaked trail to such unexpected destinations as The Silence of the Lambs Snow White and the Broadway musical Gypsy She offers insight into how psychic vampires originate how we allow ourselves to be caught in their clutches and how we can protect ourselves from their seductive influence One for the Other Andrew P. Campbell,2025-06-24 For two thousand years the cross of Christ has been the central point of Christian theologies of salvation However in recent years a variety of theologians such as Rosemary Radford Ruether Rita Nakashima Brock J Denny Weaver and Ren Girard united in their disdain for violence have abandoned any divine sanction or salvific significance for the cross of Christ Instead they frame atonement not in terms of Christ s death but his life formulating atonement theologies that address the need for an ethical concern for the oppressed and powerless Other This volume is dedicated to offering a fair account of their revisions identifying the ethical undertones that lead nonviolent theologians and thinkers to reform atonement theology examining their claims in light of those ethical foundations and exploring P T Forsyth as a viable alternative for contemporary theology

The Failings of Empire Christopher Tuplin, 1993 Current views of Xenophon's account of 404-362 BC underplay the fact that it is a chronological report of politico-military events which should be taken seriously and not seen merely as arbitrary pegs for didactic utterances. A reading of this idiosyncratic narrative is offered which shows how by interplay of direct stress, allusiveness and telling silence Xenophon invites a largely negative attitude to the major states and their leaders as they strive unsuccessfully for predominance. The record of Spartan aims and achievements is notably gloomy but Thebes, Athens and Arcadia are also treated with scant respect. The disorder with which the work ends is the logical conclusion and a real source of discontent, not an excuse for terminating a narrative in which its author had lost interest.
