Music And Society In Lowland Scotland In The Eighteenth Century:

Music and Society in Lowland Scotland in the Eighteenth Century David Johnson,1972 **Music and the Benefit Performance in Eighteenth-Century Britain** Matthew Gardner,Alison DeSimone,2019-10-31 Reveals how the musical benefit allowed musicians composers and audiences to engage in new professional financial and artistic contexts

Music-Making in North-East England during the Eighteenth Century Roz Southey,2017-07-05 The north east of England in the eighteenth century was a region where many different kinds of musical activity thrived and where a wide range of documentation survives Such activities included concert giving teaching tuning and composition as well as music in the theatre and in church Dr Roz Southey examines the impulses behind such activities and the meanings that local people found inherent in them It is evident that music could be perceived or utilized for extremely diverse purposes as entertainment as a learned art as an aid to piety as a profession a social facilitator and a support to patriotism and nationalism Musical societies were established throughout the century and Southey illustrates the social make up of the members as well as the role of Gentlemen Amateurs in the organizing of concerts and the connections with London and other centres The book draws upon a rich selection of source material including local newspapers council and ecclesiastical records private papers and diaries and accounts of local tradesman as well as surviving examples of music composed in the area by Charles Avison Thomas Ebdon and John Garth of Durham amongst many others Charles Avison s importance is focused upon particularly and his Essay on Musical Expression is considered alongside other contemporary writings of lesser fame Southey provides a fascinating insight into the type and social class of audiences and their influence on the repertoire performed The book moves from a consideration of music being used as a fashion item evidenced by the patronage of big name soloists from London and abroad to fiddlers ballad singers music at weddings funerals public celebrations and music for marking the events of the American War of Independence and the French Revolutionary Wars It can be seen therefore that the north east was an area of important musical activity and that the music was always interwoven into the political economic religious and commercial fabric of eighteenth century life **British Clubs and Societies 1580-1800** Peter Clark,2000-01-06 Modern freemasonry was invented in London about 1717 but was only one of a surge of British associations in the early modern era which had originated before the English Revolution By 1800 thousands of clubs and societies had swept the country Recruiting widely from the urban affluent classes mainly amongst men they traditionally involved heavy drinking feasting singing and gambling They ranged from political religious and scientific societies artistic and literary clubs to sporting societies bee keeping and birdfancying clubs and a myriad of other associations *Concert Life in Eighteenth-Century Britain* Susan Wollenberg,2017-07-05 In recent years there has been a considerable revival of interest in music in eighteenth century Britain This interest has now expanded beyond the consideration of composers and their music to include the performing institutions of the period and their relationship to the wider social scene The collection of essays

presented here offers a portrayal of concert life in Britain that contributes greatly to the wider understanding of social and cultural life in the eighteenth century Music was not merely a pastime but was irrevocably linked with its social political and literary contexts The perspectives of performers organisers patrons audiences publishers copyists and consumers are considered here in relation to the concert experience All of the essays taken together construct an understanding of musical communities and the origins of the modern concert system This is achieved by focusing on the development of music societies the promotion of musical events the mobility and advancement of musicians systems of patronage the social status of musicians the repertoire performed and published the role of women pianists and the topography of concerts In this way the book will not only appeal to music specialists but also to social and cultural historians

Pentatonicism from the Eighteenth Century to Debussy Jeremy Day-O'Connell,2007 A generously illustrated examination of pentatonic black key scale techniques in the context of eighteenth and nineteenth century Western art music Pentatonicism from the Eighteenth Century to Debussy offers the first comprehensive account of a widely recognized aspect of music history the increasing use of pentatonic black key scale techniques in nineteenth century Western art music Pentatonicism in nineteenth century music encompasses hundreds of instances many of which predate by decades the more famous examples of Debussy and Dvor k This book weaves together historical commentary with music theory and analysis in order to explain the sources and significance of an important but hitherto only casually understood phenomenon The book introduces several distinct categories of pentatonicpractice pastoral primitive exotic religious and coloristic and examines pentatonicism in relationship to changes in the melodic and harmonic sensibility of the time The text concludes with an additional appendix of over 400 examples an unprecedented resource demonstrating the individual artistry with which virtually every major nineteenth century composer from Schubert Chopin and Berlioz to Liszt Wagner and Mahler handled theseemingly simple materials of pentatonicism Jeremy Day O Connell is assistant professor of music at Knox College

Music and Society in Lowland Scotland in the 18th Century D. C. Johnson,1970

Scottish Society, 1707-1830 Christopher A. Whatley,2000 This book challenges conventional wisdom and provides new insights into Scottish social and economic history Christopher A Whatley argues that the Union of 1707 was vital for Scottish success but in ways which have hitherto been overlooked He proposes that the central place of Jacobitism in the historiography of the period should be revised Comprehensive in its coverage the book is based not only on an exhaustive reading of secondary material but also incorporates a wealth of new evidence from previously little used or unused primary sources

Music in the British Provinces, 1690-1914 Peter Holman,2017-07-05 The period covered by this volume roughly from Purcell to Elgar has traditionally been seen as a dark age in British musical history Much has been done recently to revise this view though research still tends to focus on London as the commercial and cultural hub of the British Isles It is

becoming increasingly clear however that by the mid eighteenth century musical activity outside London was highly distinctive in terms of its reach the way it was organized and its size richness and quality There was an extraordinary amount of musical activity of all sorts in provincial theatres and halls in the amateur orchestras and choirs that developed in most towns of any size in taverns and convivial clubs in parish churches and dissenting chapels and of course in the home This is the first book to concentrate specifically on musical life in the provinces bringing together new archival research and offering a fresh perspective on British music of the period The essays brought together here testify to the vital role played by music in provincial culture not only in socializing and networking but in regional economies and rivalries demographics and class dynamics religion and identity education and recreation and community and the formation of tradition Most important perhaps as our focus shifts from London to the regions new light is shed on neglected figures and forgotten repertoires all of them worthy of reconsideration

The Musical Life of Nineteenth-Century Belfast Roy

Johnston, 2017-07-05 Roy Johnston and Declan Plummer provide a refreshing portrait of Belfast in the nineteenth century Before his death Roy Johnston had written a full draft based on an impressive array of contemporary sources with deep and detailed attention especially to contemporary newspapers With the deft and sensitive contribution of Declan Plummer the finished book offers a telling view of Belfast s thriving musical life Largely without the participation and example of local aristocracy nobility and gentry Belfast s musical society was formed largely by the townspeople themselves in the eighteenth

century and by several instrumental and choral societies in the nineteenth century As the town grew in size and developed an industrial character its townspeople identified increasingly with the large industrial towns and cities of the British mainland Efforts to place themselves on the principal touring circuit of the great nineteenth century concert artists led them to build a concert hall not in emulation of Dublin but of the British industrial towns Belfast audiences had experienced English opera in the eighteenth century and in due course in the nineteenth century they found themselves receiving the touring opera companies in theatres newly built to accommodate them Through an energetic groundwork revision of contemporary sources Johnston and Plummer reveal a picture of sustained vitality and development that justifies Belfast s prominent place the history of nineteenth century musical culture in Ireland and more broadly in the British Isles

The Cambridge History of Musical Performance Colin Lawson, Robin Stowell, 2012-02-16 The intricacies and challenges of musical performance have recently attracted the attention of writers and scholars to a greater extent than ever before Research into the performer s experience has begun to explore such areas as practice techniques performance anxiety and memorisation as well as many other professional issues Historical performance practice has been the subject of lively debate way beyond academic circles mirroring its high profile in the recording studio and the concert hall Reflecting the strong ongoing interest in the role of performers and performance this History brings together research from leading scholars and historians and importantly features contributions from accomplished performers whose practical experiences give the volume a unique vitality Moving the focus away from the composers and onto the musicians responsible for bringing the music to life this History presents a fresh integrated and innovative perspective on performance history and practice from the earliest times to today

Bound for America Nicholas Temperley, 2010-10-01 Nicholas Temperley documents the lives careers and music of three British composers who emigrated from England in mid career and became leaders in the musical life of the early United States William Selby of London and Boston 1738 98 Rayner Taylor of London and Philadelphia 1745 1825 and George K Jackson of London New York and Boston 1757 1822 were among the first trained professional composers to make their home in America and to pioneer the building of an art music tradition in the New World akin to the esteemed European classical music Why in middle age would they emigrate and start over in uncertain and unfavorable conditions How did the new environment affect them personally and musically Temperley compares their lives careers and compositional styles in the two countries and reflects on American musical nationalism and the changing emphasis in American musical historiography
