Quentin Tarantino Edward Gallafent, 2014-09-11 Quentin Tarantino is one of the best known living American filmmakers in the world and the story of his career has been the subject of a number of books and articles But what do his films mean In this new study Edward Gallafent does not look at Tarantino s story but at the films themselves He asks to what extent Tarantino can be seen as a specifically American filmmaker with the kinds of preoccupations and interests that have formed part of Hollywood s traditions and also how he explores the expressive possibilities of current cinema The book concentrates on the main feature films of Tarantino s career so far *Reservoir Dogs* *Pulp Fiction* *Jackie Brown* and the two

volumes of Kill Bill Apart from Kill Bill the films are not treated individually but in terms of some of the subjects that connect them together such as success and tradition their notorious deployment of violence and Tarantino s approach to story telling his interest in presenting events out of chronological order The book also covers adaptations of Tarantino s work looking at the screenplays of True Romance and Natural Born Killers as well as the films made from them and compares Tarantino s approach to adapting Elmore Leonard with that of another important American filmmaker Paul Schrader The aim of the book is to explore these topics and to take the reader back to what the American critic Robert Warshow called the actual immediate experience of seeing and responding to the movies It is designed to appeal both to those who were excited by the films on first seeing them in the cinema and to those taking the opportunity of reconsidering them on the screen or on DVD

A Transformation Journey to Creative and Alternative Planetary Futures Victor V. Motti,2019-03-21 This book presents a counter trend against nationalism religious extremism xenophobia and racism It advocates an alternative globalization based not on trade the economy and politics but on humanity s transcendence to a collective consciousness Inspired by a pantheist worldview it applies an integral perspective toward strategic foresight and anticipation on the planetary scale Controversial disappearing and emerging binary oppositions are explained within the framework of the mythology of the Lord of Wisdom versus the Ignorant Mind It shows that our anticipatory planetary era might be characterized by the acknowledgement of our zero knowledge as measured in the ocean of all disciplines zero carbon for energy zero war in politics and zero killing in society zero conscious beings excluded and zero existence as we have known it as humanity merges into some higher and enriched complexity *The Rise of the Image, the Fall of the Word* Mitchell Stephens,1998-10-08 Stephens sees in video s complexities simultaneities and juxtapositions new ways of understanding and perhaps even surmounting the tumult and confusions of contemporary life

Realities L. Andrew Cooper,2014-01-10 Eighteenth century critics believed Gothic fiction would inspire deviant sexuality instill heretical beliefs and encourage antisocial violence this book puts these beliefs to the test After examining the assumptions behind critics fears it considers nineteenth century concerns about sexual deviance showing how Frankenstein Dr Jekyll and Mr Hyde Dorian Gray and other works helped construct homosexuality as a pathological dangerous phenomenon It then turns to television and film particularly Buffy the Vampire Slayer and David DeCoteau s direct to video movies to trace Gothicized sexuality s lasting impact Moving to heretical beliefs Gothic Realities surveys ghost stories from Dickens s A Christmas Carol to Poltergeist articulating the relationships between fiction and the real supernatural Finally it considers connections between Gothic horror and real world violence especially the tragedies at Columbine and Virginia Tech
