Natural Resource Management The Human Dimension:

Natural Resource Management Alan W Ewert,2021-11-28 Written by and for scholars planners and policymakers Natural Resource Management The Human Dimension focuses on issues such as the public's role in the decision making processes of ecosystem management that affect how we use or abuse resources It exposes the reader to a wide variety of applications of Human Dimensions Research as well as to significant issues involved One of the greatest needs in natural resource management is for a deeper understanding of the intricate relationship between humans and the natural environment Human Dimensions Research an interdisciplinary field involving a broad variety of social science approaches seeks to fill this need by providing multidimensional assessments of people's behavior attitudes and expectations toward natural resources and their uses Written by and for scholars planners and policymakers Natural Resource Management The Human Dimension focuses on issues such as the public's role in the decision making processes of ecosystem management that affect how we use or abuse resources It exposes the reader to a wide variety of applications of Human Dimensions Research as well as to significant issues involved At a time when we are either loving our forests and parks to death or paving them over a better understanding of the problems is critical if we are to create workable policies that will preserve and protect our natural resources

Natural Resource Management Alan W. Ewert,1997-01-01 Natural Resource Management Rahul Agrawal (Project manager),2013 *Human Dimensions of Natural Resource Management* ,2004 Integrated Resource and Environmental Management Alan W. Ewert,Douglas C. Baker,Glyn C. Bissix,2004-01-01 This book consists of three sections 4 chapters each Section 1 presents an overview and history of natural resource management from both the North American and international perspectives Section 2 discusses the challenges facing Integrated Resource and Environmental Management IREM by examining issues such as conflict property rights the role of social science in natural resource management the influence and formation of power in a decision making context and the theoretical foundations of IREM Section 3 addresses the definition and application of IREM from several different contexts including real world applications and planning frameworks Individual case studies are integrated into the end of each chapter which serve to illustrate various models associated with IREM that demonstrate the advantages and challenges of using an IREM approach In addition discussion questions are included at the end of each chapter to stimulate dialogue underlying many of the issues presented in the text This book has been written for students primarily at the advanced undergraduate level in the many academic areas pertaining to natural resource management It provides a useful resource for practitioners researchers and managers currently involved in the field of natural resource management as well as providing a comprehensive aid for natural resource decision making within the context of the real world

Human Dimensions of Natural Resource Management ,2000 *Human Dimensions of Wildlife Management* Daniel J. Decker,Shawn J. Riley,William F. Siemer,2012-10-01 Wildlife professionals can more effectively manage species and social ecological systems by fully considering the role that humans

play in every stage of the process Human Dimensions of Wildlife Management provides the essential information that students and practitioners need to be effective problem solvers Edited by three leading experts in wildlife management this textbook explores the interface of humans with wildlife and their sometimes complementary often conflicting interests The book's well researched chapters address conservation wildlife use hunting and fishing and the psychological and philosophical underpinnings of wildlife management Human Dimensions of Wildlife Management explains how a wildlife professional should handle a variety of situations such as managing deer populations in residential areas or encounters between predators and people or pets This thoroughly revised and updated edition includes detailed information about systems thinking working with social scientists managing citizen input using economics to inform decision making preparing questionnaires ethical considerations

Applied Ecology and Human Dimensions in Biological Conservation Luciano M. Verdade, Maria Carolina Lyra-Jorge, Carlos I. Piña, 2014-05-12 This book provides both the conceptual basis and technological tools that are necessary to identify and solve problems related to biodiversity governance The authors discuss intriguing evolutionary questions which involve the sometimes surprising adaptive capacity of certain organisms to dwell in altered and or changing environments that apparently lost most of their structure and functionality Space and time heterogeneities are considered in order to understand the patterns of distribution and abundance of species and the various processes that mold them The book also discusses at which level from genes to the landscape including individuals populations communities and ecosystems men should intervene in nature in order to prevent the loss of biodiversity

Human Dimensions of Ecological Restoration Dave Egan, Evan E. Hjerpe, Jesse Abrams, 2012-09-26 When it comes to implementing successful ecological restoration projects the social political economic and cultural dimensions are often as important as and sometimes more important than technical or biophysical knowledge Human Dimensions of Ecological Restoration takes an interdisciplinary look at the myriad human aspects of ecological restoration In twenty six chapters written by experts from around the world it provides practical and theoretical information analysis models and guidelines for optimizing human involvement in restoration projects Six categories of social activities are examined collaboration between land manager and stakeholders ecological economics volunteerism and community based restoration environmental education ecocultural and artistic practices policy and politics For each category the book offers an introductory theoretical chapter followed by multiple case studies each of which focuses on a particular aspect of the category and provides a perspective from within a unique social political cultural setting Human Dimensions of Ecological Restoration delves into the often neglected aspects of ecological restoration that ultimately make the difference between projects that are successfully executed and maintained with the support of informed engaged citizens and those that are

unable to advance past the conceptual stage due to misunderstandings or apathy The lessons contained will be valuable to restoration veterans and greenhorns alike scholars and students in a range of fields and individuals who care about restoring their local lands and waters
