Nature Embodied Gesture In Ancient Rome:

Nature Embodied Anthony Corbeill, 2018-06-05 Bodily gesture A Roman worshipper spins in a circle in front of a temple Faced with death a Roman woman tears her hair and beats her breasts Enthusiastic spectators at a gladiatorial event gesticulate with thumbs Examining the tantalizing glimpses of ancient bodies offered by surviving Roman sculptures paintings and literary texts Anthony Corbeill analyzes the role of gesture in medical and religious ritual in the gladiatorial arena in mourning practice in aristocratic competition of the late Republic and in the court of the emperor Tiberius Adopting approaches from anthropology gender studies and ecological theory *Nature Embodied* offers both a series of case studies and an overarching narrative of the role and meanings of gesture in ancient Rome Arguing that bodily movement grew out of the relationship between Romans and their natural social and spiritual environment the book explores the ways in which an originally harmonious relationship between nature and the body was manipulated as Rome became socially and politically complex By the time that Tacitus was writing about the reign of Tiberius the emergence of a new political order had prompted an increasingly inscrutable equation between truth and the body and something vital in the once harmonizing relationship between bodies and the world beyond them had been lost *Nature Embodied* makes an important contribution to an expanding field of research by offering a new theoretical model for the study of gesture in classical times ,

Rabbinic Body Language: Non-Verbal Communication in Palestinian Rabbinic Literature of Late Antiquity

Catherine Hezser, 2017-01-16 This study constitutes the first comprehensive examination of rabbinic body language represented in Palestinian rabbinic sources of late antiquity Catherine Hezser examines rabbis appearance and demeanor spatial movement gestures and facial expressions on the basis of literary and social anthropological methods and theories She discusses the various forms of rabbis non verbal communication in the context of Graeco Roman and ancient Christian literary sources and in connection with the material culture of Roman and early Byzantine Palestine Catherine Hezser convincingly shows that in rabbinic literature body language serves as an important means of rabbis self fashioning Rabbinic texts create the image of a particularly Jewish type of intellectual who functioned and competed for adherents within the highly visual and body conscious environment of late antiquity Material Approaches to Roman Magic Adam Parker, Stuart McKie, 2018-04-30 This second volume in the new TRAC Themes in Roman Archaeology series seeks to push the research agendas of materiality and lived experience further into the study of Roman magic a field that has until recently lacked object focused analysis Building on the pioneering studies in Boschung and Bremmer s 2015 *Materiality of Magic* the editors of the present volume have collected contributions that showcase the value of richly detailed context specific explorations of the magical practices of the Roman world By concentrating primarily on the Imperial period and the western provinces the various contributions demonstrate very clearly the exceptional range of influences and possibilities open to individuals who sought to use magical rituals to affect their lives in these specific contexts something that would have been largely

impossible in earlier periods of antiquity Contributions are presented from a range of museum professionals commercial archaeologists university academics and postgraduate students making a compelling case for strengthening lines of communication between these related areas of expertise Bringing the Word to Life Richard Ward, David Trobisch, 2013-04-27 The New Testament books were written to be read aloud The original audiences of these texts would have been unfamiliar with our current practice of reading silently and processing with our eyes rather than our ears so we can learn much about the New Testament through performing it ourselves Richard Ward and David Trobisch are here to help Bringing the Word to Life walks the reader through what we know about the culture of performance in the first and second centuries what it took to perform an early New Testament manuscript the benefits of performance for teaching and practical suggestions for exploring New Testament texts through performance today The Moving City Ida Ostenberg, Simon Malmberg, Jonas Bjørnebye, 2015-08-27 The Moving City Processions Passages and Promenades in Ancient Rome focusses on movements in the ancient city of Rome exploring the interaction between people and monuments Representing a novel approach to the Roman cityscape and culture and reflecting the shift away from the traditional study of single monuments into broader analyses of context and space the volume reveals both how movement adds to our understanding of ancient society and how the movement of people and goods shaped urban development Covering a wide range of people places sources and times the volume includes a survey of Republican imperial and late antique movement triumphal processions of conquering generals seditious violent movement of riots and rebellion religious processions and rituals and the everyday movements of individual strolls or household errands By way of its longue durée dense location and the variety of available sources the city of ancient Rome offers a unique possibility to study movements as expressions of power ritual writing communication mentalities trade and also as a result of a massed populace violent outbreaks and attempts to keep order The emerging picture is of a bustling lively society where cityscape and movements are closely interactive and entwined Lift Up Your Heads John A. Davies, 2018-06-06 We are increasingly conscious of the significance of our body language in our everyday interactions The writers of the Bible were also aware of the role this nonverbal form of communication played and have recorded aspects of this in their narratives or used idioms based on such gestures as head or hand movements eye contact and modes of dress As with spoken or written language postures and gestures need to be interpreted against a cultural background This book provides a comprehensive overview of this rich world of nonverbal communication in the Old and New Testaments for the general reader and scholar alike Body Language in Hellenistic Art and Society Jane Masségli, 2015 Why are so many Hellenistic kings shown with one arm in the air Could posture distinguish the slave from the citizen Was there a Hellenistic etiquette of sitting down How did Hellenistic Greeks feel about the bodies of the disabled and the elderly And what did it mean to Tuck for Luck This richly illustrated book brings together a wide range of Hellenistic art objects and reveals how ancient social attitudes were encoded in the body language of their subjects Incorporating

approaches from anthropology and archaeology it considers a wide range of social groups from the elite to slaves and examines the postures gestures and body actions which were considered appropriate to each By examining Hellenistic kings queens public intellectuals citizen men and women Africans servants paidagogoi fishermen peasants old women dwarfs and the disabled this study provides important new insights into what is Hellenistic about Hellenistic Art and into the anxieties of Hellenistic society In doing so it not only reconsiders familiar concepts such as the individuality of the civic elite and the apparent passivity of women but also reveals Hellenistic attitudes towards issues such as old age race and child abuse and explores power prejudice and the role of art in both reflecting and enforcing social stereotypes **The Lure of the Arena** Garrett G. Fagan, 2011-02-17 Were the Romans who watched brutal gladiatorial games all that different from us This book argues they were not **Ancient Divination and Experience** Lindsay Gayle Driediger-Murphy, Esther Eidinow, 2019 How did people in the ancient world experience their attempts to communicate with divine powers This volume seeks to re examine divination in ancient Greek Roman Mesopotamian and Chinese cultures and to identify and elucidate previously understudied aspects of ancient divinatory experience and practice
