reflexology and rolfing to shiatsu and dream work we are confronted today by a welter of alternative medical therapies But as James Whorton shows in *Nature Cures* the recent explosion in alternative medicine actually reflects two centuries of competition and conflict between mainstream medicine and numerous unorthodox systems This is the first comprehensive history of alternative medicine in America examining the major systems that have emerged from 1800 to the present Writing with wit and with fairness to all sides Whorton offers a fascinating look at alternative health systems such as homeopathy water cures Mesmerism Christian Science osteopathy chiropractic naturopathy and acupuncture He highlights the birth and growth of each system including European roots where appropriate and vividly describes both the theories and the therapies developed within each system including such dubious practices as hour long walks barefoot in snow or Samuel Thompson's puking and steaming regimen In particular Whorton illuminates the philosophy of natural healing that has been espoused by alternative practitioners throughout history and the distinctive interpretations of nature cure developed by the different systems Though he doesn't hesitate to point out the failings of these systems he also shows that some cult medicines have eventually won recognition from practitioners of mainstream medicine Throughout Whorton writes with a light touch and quotes from contemporary humorists such as Mark Twain His book is an engaging and authoritative history that highlights the course of alternative medicine in the U S providing valuable background to the wide range of therapies available today

Paandu,2015-09-29 This book on Cosmic Energy Health and Medicine explains about the natural energy around us in everyday life and how we can maximize its use for our health How our health is connected with the body and mind and explains how disease is due to the disagreement between them The book explains about allergies and compares it with an enemy One cannot solve a problem avoiding the enemy Same way allergy is the one you need to resolve and not avoid The medicines used over centuries by our forefathers are proven and can be relied upon just as the reliable age old foods we consume to this day Medicines under modern allopathic system never last even for a decade Chemicals herbs and minerals are not medicines A medicine should act as an energized bullet or a piercing arrow instead of staying behind in our body and creating a host of side effects and other complications A medicine is supposed to cure the disease of the person and not create a disease basket piling on more diseases Only the energized medicines which are slow but steady can clear our disease in nature's speed and not the fast acting palliative medicines **Herbal Healing with Nature's Apothecary**
