Government Information, 1994 **The Sources of Military Change** Theo Farrell, Terry Terriff, 2002 In varying circumstances military organizations around the world are undergoing major restructuring This book explores why and how militaries change **European Navies and the Conduct of War** Carlos Alfaro-Zaforteza, Alan James, Malcolm H Murfett, 2018-07-17 European Navies and the Conduct of War considers the different contexts within which European navies operated over a period of 500 years culminating in World War Two the greatest war ever fought at sea Taking a predominantly continental point of view the book moves away from the typically British centric approach taken to naval history as it considers the role of European navies in the development of modern warfare from its medieval origins to the large scale industrial total war of the twentieth century Along with this growth of navies as instruments of war the book also explores the long rise of the political and popular appeal of navies from the princes of late medieval Europe to the enthusiastic crowds that greeted the modern fleets of the great powers followed by their reassessment through their great trial by combat firmly placing the development of modern navies into the broader history of the period Chronological in structure European Navies and the Conduct of War is an ideal resource for students and scholars of naval and military history **Dark Waters, Starry Skies** Jeffrey Cox, 2023-03-02 Esteemed Pacific War historian Jeffrey Cox has produced a fast paced and absorbing read of the crucial New Georgia phase of the Guadalcanal Solomons Campaign during the Pacific War Thousands of miles from friendly ports the US Navy had finally managed to complete the capture of Guadalcanal from the Japanese in early 1943 Now the Allies sought to keep the offensive momentum won at such a high cost Determined not to repeat their mistakes at Guadalcanal the Allies nonetheless faltered in their continuing efforts to roll back the Japanese land air and naval forces Dark Waters Starry Skies is an engrossing history which weaves together strategy and tactics with a blow by blow account of every battle at a vital point in the Pacific War that has not been analyzed in this level of detail before Using first hand accounts from both sides this book vividly recreates all the terror and drama of the nighttime naval battles

during this phase of the Solomons campaign and the ferocious firestorm many Marines faced as they disembarked from their landing craft The reader is transported to the bridge to stand alongside Admiral Walden Ainsworth as he sails to stop another Japanese reinforcement convoy for New Georgia and vividly feels the fear of an 18 year old Marine as he fights for survival against a weakened but still determined enemy Encyclopedia of Historians and Historical Writing Kelly Boyd,2019-10-09 The Encyclopedia of Historians and Historical Writing contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like J rgen Habermas and Clifford Geertz whose theoretical contributions have informed historical debate Additionally the Encyclopedia includes some 200 essays treating the development of national regional and topical historiographies from the Ancient Near East to the history of sexuality In addition to the Western tradition it includes substantial assessments of African Asian and Latin American historians and debates on gender and subaltern studies
