Navigators Log Of A Tour In Bomber Command:

Navigator's Log of a Tour in Bomber Command Jack Rodgers, 1985-01-01 RAF Bomber Command in Fact, Film and Fiction Jonathan Falconer, 1996 RAF Bomber Command in Fact Film and Fiction is a bibliographical and media guide to the exploits of the command between 1939 1945 setting on record much of what has been written filmed or sound recorded in the English language Flying against Fate S. P. MacKenzie, 2017-08-04 During World War II Allied casualty rates in the air were high Of the roughly 125 000 who served as aircrew with Bomber Command 59 423 were killed or missing and presumed killed a fatality rate of 45 5% With odds like that it would be no surprise if there were as few atheists in cockpits as there were in foxholes and indeed many airmen faced their dangerous missions with beliefs and rituals ranging from the traditional to the outlandish Military historian S P MacKenzie considers this phenomenon in *Flying against Fate* a pioneering study of the important role that superstition played in combat flier morale among the Allies in World War II Mining a wealth of documents as well as a trove of published and unpublished memoirs and diaries MacKenzie examines the myriad forms combat fliers superstitions assumed from jinxes to premonitions Most commonly airmen carried amulets or talismans lucky boots or a stuffed toy a coin whose year numbers added up to thirteen counterintuitively a boomerang Some performed rituals or avoided other acts e g having a photo taken before a flight Whatever seemed to work was worth sticking with and a heightened risk often meant an upsurge in superstitious thought and behavior MacKenzie delves into behavior analysis studies to help explain the psychology behind much of the behavior he documents not slighting the large cohort of crew members and commanders who demurred He also looks into the ways in which superstitious behavior was tolerated or even encouraged by those in command who saw it as a means of buttressing morale The first in depth exploration of just how varied and deeply felt superstitious beliefs were to tens of thousands of combat fliers *Flying against Fate* expands our understanding of a major aspect of the psychology of war in the air and of World War II *Bomber Command: Reflections of War, Volume 3* Martin W. Bowman, 2012-09-19 This massive work provides a comprehensive insight to the experiences of Bomber Commands pilots and aircrew throughout World War Two From the early wartime years when the RAFs first attempts to avenge Germanys onslaught were bedeviled by poor navigation and inaccurate bombing to the final winning onslaught that finally tamed Hitler in his Berlin lair these volumes trace the true experiences of the men who flew the bombers Hundreds of first hand accounts are punctuated by the authors background information that put each narrative into wartime perspective Every aspect of Bomber Commands operational duties are covered day and night bombing precision low level strikes mass raids and operations throughout all wartime theaters Contributions are from RAF personnel who flew the commands different aircraft from the early Blenheims and Stirlings to the later Lancasters and Mosquitoes Each volume is full of accounts that tell of the camaraderie amongst the crews moments of sheer terror and the stoic humor that provided the critical bond The five volumes of this work provide the most vivid and comprehensive work on the outstanding part

played by RAF Bomber Command in their vital role in the destruction of the Third Reich The Complete Dambusters
Charles Foster, 2018-05-08 On 16 May 1943 nineteen Lancaster aircraft from the RAF's 617 Squadron set off to attack the great dams in the industrial heart of Germany Flying at a height of 60ft they dropped a series of bombs which bounced across the water and destroyed two of their targets thereby creating a legend The one off operation combined an audacious method of attack technically brilliant flying and visually spectacular results But while the story of Operation Chastise is well known most of the 133 Dambusters who took part in the Dams Raid have until now been just names on a list They came from all parts of the UK and the Commonwealth and beyond and each of them was someone's son or brother someone's husband or father This is the first book to present their individual stories and celebrate their skill heroism and for many sacrifice

Bomber Command, 1936-1968 Ken Delve, 2005-09-29 This is a comprehensive reference to the structure operation aircraft and men of Bomber Command from its formation on 1936 to 1968 when it became part of Strike Command It includes descriptions of many notable bombing raids the many types of aircraft used weapons and airfields The five main sections of the book include a general historical introduction and overview operations operational groups aircrew training and technical details of each aircraft type Lengthy Annexes cover personnel the squadrons in World War II accuracy of attacks orders of battle for each wartime year maps of airfields locations tonnage of bombs dropped and nuclear weapons carried in the post war years *Lancaster* Leo McKinstry, 2009-09-03 The Spitfire and the Lancaster were the two RAF weapons of victory in the Second World War but the glamour of the fighter has tended to overshadow the performance of the heavy bomber Yet without the Lancaster Britain would never have been able to take the fight to the German homeland Highlights the scale of the bomber's achievements including the famous Dambusters attacks With its vast bomb bay ease of handling and surprising speed the mighty Lancaster transformed the effectiveness of the Bomber Command Whilst addressing the political controversy surrounding the bombing offensive against Germany Leo McKinstry also weaves individual tales into this compelling narrative Rich characters are brought to life such as Roy Chadwick the designer who taught himself engineering at night school and Sir Arthur Harris the austere head of the Bomber Command This is a rich saga a story of triumph over disaster and the history of an iconic plane **The Navigator**, 1976 **Observers and**
