## **Preventing Intellectual Disability Ethical And Clinical Issues:**

**Preventing Intellectual Disability** Pekka Louhiala, 2004 This is the first book that covers comprehensively the difficult ethical issues involved in prevention of intellectual disability learning disability mental retardation These issues are discussed both practically and theoretically in the light of four case examples drawn from real life The cases demonstrate various issues raised by the concept of preventing intellectual disability including definition epidemiology screening and genetic counselling Two major approach models reproductive autonomy and public health are scrutinised and the practical issues of prevention are examined closely with respect to three syndromes Down Fragile X and Aspartylglucosaminuria The question Why should intellectual disability be prevented is examined thoroughly at each stage As a paediatrician and a philosopher Dr Louhiala presents the issues in a way that is both user friendly and philosophically sound *Theology and Down Syndrome* Amos

Yong, 2007 While the struggle for disability rights has transformed secular ethics and public policy traditional Christian teaching has been slow to account for disability in its theological imagination Amos Yong crafts both a theology of disability and a theology informed by disability The result is a Christian theology that not only connects with our present social medical and scientific understanding of disability but also one that empowers a set of best practices appropriate to our late modern context Publisher description **Medical Humanities Companion: V2** Rolf Ahlzen, Martyn Evans, Raimo Puust, 2018-12-20

When a person falls ill their experience changes sometimes in a very minor and transient way sometimes in a decisive and lasting one Diagnosis is often seen as the process of scientifically and objectively identifying the causes of this subjective experience but is the process and meaning of diagnosis really as simple as this implies As this volume of The Medical Humanities Companion argues diagnoses are an answer to complex human needs that spring from being ill and are in turn a complex culturally mediated interaction between individuals scientific discoveries social negotiation and historical change This volume makes visible the complexities and ambiguities involved in giving and receiving diagnoses and how they shape and are shaped by views on what is real and acceptable and how people relate to the phenomena of illness *Handbook of Research on Diagnosing, Treating, and Managing Intellectual Disabilities* Gopalan, Rejani Thudalikunnil, 2016-04-22

Intellectual disabilities can be difficult to detect in children prior to their school age years Throughout their lives individuals with intellectual disabilities may require specialized care and support in order to lead healthy and fulfilled lives The Handbook of Research on Diagnosing Treating and Managing Intellectual Disabilities is a pivotal reference source for the latest research on the effects of disabilities in intellectual functioning examining the causes treatment and rehabilitation of such limitations in adaptive behavior Highlighting empirical findings on the management of these disabilities throughout various stages of life this publication is ideally designed for clinicians researchers special educators social workers and students actively involved in the mental health profession *Post-Qualifying Social Work Practice* Patricia Higham, 2008-11-20 A valuable resource for all those engaged in post qualifying social work practice It is impressive in its

coverage of contemporary social work practice across the four countries of the UK Professor Jackie Powell University of Southampton The PQ landscape is complex and changing fast so the reader will be grateful to Pat Higham and her colleagues for this clear and comprehensive analysis of PQ Professor Mark Doel Sheffield Hallam University a comprehensive introduction to social work education at post qualifying level It identifies the key issues qualified social workers need to consider in contemporary practice and enables them to engage in critical reflection through the development of their post qualifying expertise Professor John Harris University of Warwick This core textbook provides an authoritative overview of the post qualifying awards in social work Written in response to recent policy and training guidelines the book will enhance social workers post qualifying knowledge skills and values within specialist areas of practice The book will Use critical self appraisal to construct different ways of thinking about and doing social work Encourage reflection on their practice Enable social workers to build confidence in their professional identity Move from competence to increased capability and to expertise Help social workers to explore values dilemmas Increase social workers knowledge for practice Promote learning and career development This book examines core assumptions about post qualifying practice that values and relationships including partnerships with service users are essential to good practice that social workers will work in diverse organisational structures and that social workers in the United Kingdom should become aware of European models of social work

**Promotion for People with Intellectual and Developmental Disabilities** Laurence Taggart, Wendy Cousins, 2014-01-16 People with learning disabilities are affected by significantly more health problems than the general population and are much more likely to have significant health risks Yet evidence suggests they are not receiving the same level of health education and health promotion opportunities as other members of society This important interdisciplinary book is aimed at increasing professional awareness of the importance of health promotion activities for people with intellectual and developmental disabilities Written by an international board of experts it is a thorough and comprehensive guide for students professionals and carers The book considers a variety of challenges faced by those with intellectual disabilities from physical illnesses such as diabetes epilepsy and sexual health issues through to issues such as addiction mental health and ageing Contributors Jim Blair Penny Blake Malin Broberg Michael Brown Eddie Chaplin Bob Davies Gillian Eastgate Paul Fleming Dora Fisher Linda Goddard Tamar Heller John Heng Thanos Karatzias Mike Kerr Nick Lennox Tadhg MacIntyre Beth Marks Jane McCarthy Judith Moyle Karen Nankervis Ruth Northway Joseph O Grady Renee Proulx Janet Robertson Cathy Ross Jasmina Sisirak Eamonn Slevin David S Stewart William F Sullivan Beverley Temple Hana Vlkov Henny van Schrojenstein Lantman de Valk I highly recommend this book to anyone working directly with people with an intellectual disability as well as professionals academics and students who strive to promote issues and improve the lives of people with intellectual disabilities and their families Agnes Lunny OBE Chief Executive of Positive Futures Northern Ireland The editors and authors have done practitioners a great favour in bringing together in one volume a comprehensive account of how children and adults with intellectual disabilities can be supported to lead healthier lives Roy McConkey Professor of Developmental Disabilities University of Ulster Northern Ireland This timely and important book synthesises current knowledge about health promotion interventions for people with intellectual disabilities Written by leading researchers and practitioners it should be on the bookshelves of everyone concerned with addressing the stark inequalities in health experienced by people with intellectual disabilities around the world Eric Emerson Professor of Disability Population Health University of Sydney Australia and Emeritus Professor of Disability and Health Research Lancaster University UK This book is current and different from other

textbooks I have used before The book is pitched at a very easy to understand level and any healthcare professional or student working with people with intellectual and developmental disabilities can use it The content is very up to date and relevant The use of comprehensive authors with differing backgrounds demonstrates the textbook has a wide range of expertise and knowledge packed into it that makes the book very relevant learning disabilities practice I will definitely be recommending this textbook to undergraduate nursing students in Learning Disabilities Dorothy Kupara Lecturer in Learning Disabilities Nursing University of West London

**The Faces of Intellectual Disability** Licia Carlson,2010 The Faces of Intellectual Disability challenges current thinking about cognitive impairment in order to come to terms with what it means to treat people with intellectual disabilities in an ethical manner As she embraces the task of reassessing philosophical views of intellectual disability Licia Carlson shows how we can affirm the dignity and worth of intellectually disabled people by dropping comparisons to nonhuman animals and confronting fears and discomforts about mental impairment Carlson presents a complex history of ideas and notions about cognitive impairment the treatment of intellectually disabled people and social and cultural reactions to them Sensitive and clearly argued this book offers significant new thinking on recent trends in disability studies and philosophy

**Bioethical Challenges in New Hiv Prevention Technologies** Calvin Gwandure,Ruth Gwandure,2018-05-23 Ruth Gwandure earned her master of science degree in medicine bioethics and law from the University of the Witwatersrand South Africa Her research and consulting fields include bioethics health law environmental bioethics research ethics HIV and AIDS ethics and law clinical ethics and HIV counselling and testing in schools Calvin Gwandure has a PhD in psychology He graduated from Nelson Mandela University South Africa His research and consulting fields include HIV and AIDS prevention new HIV prevention technologies HIV risk behavior and group behavior Clinical trials on HIV and AIDS prevention face challenges associated with infection of participants with HIV and sexually transmitted infections Participants also experience adverse events associated with voluntary medical male circumcision and the use of microbicides and vaccines in clinical trials The results obtained from clinical trials investigating the efficacy of microbicides and vaccines in preventing HIV infection are disappointing but there is hope that one day a breakthrough could be made Clinical trials on voluntary medical male circumcision and preexposure prophylaxis have shown positive results that warranted approval by the US Food and Drug Administration FDA and the World Health Organization WHO The major challenge experienced in new HIV prevention clinical trials that are underway and in approved interventions that are being scaled up apparently relates to HIV incidence that threatens the social value and scientific validity of the interventions Paradoxically the clinical trials and scale up interventions have become the new sources of HIV infection although the hypothesized benefit to be realized in the end is conceptualized as outweighing the current risks involved

**Learning Disabilities** Bob Gates,Helen Atherton,2007-01-01 This title is directed primarily towards health care professionals outside of the United States It is the authoritative textbook for students of learning disabilities covering a wide
