The Politics of 1930s British Literature Natasha Periyar, 2018-06-14 Winner of the 2018 International Standing Conference for the History of Education's First Book Award Drawing on a rich array of archival sources and historical detail The Politics of 1930s British Literature tells the story of a school minded decade and illuminates new readings of the politics and aesthetics of 1930s literature In a period of shifting political claims educational policy shaped writers social and gender ideals This book explores how a wide array of writers including Virginia Woolf W H Auden George Orwell Winifred Holthby and Graham Greene were informed by their pedagogic work It considers the ways in which education influenced writers analysis of literary style and their conception of future literary forms The Politics of 1930s British Literature argues that to those perennial symbols of the 1930s the loudspeaker and the gramophone should be added the textbook and the blackboard

Prose and Travel Books in Prose and Verse Wystan Hugh Auden, 1996 Volume 5 This fifth volume of W H Auden's prose displays a great writer's mind in its full maturity of wisdom learning and emotional and moral intelligence It contains his most personally revealing essays the ones in which he wrote for the first time about the full history of his family life his sexuality and the development of his moral and religious beliefs Among these works are the lightly disguised autobiographies that appear in long essays on the Protestant mystics and on Shakespeare's sonnets The book also features the full text of his T S Eliot Memorial Lectures Secondary Worlds and many unpublished or unavailable lectures and speeches Edward Mendelson's introduction and comprehensive notes provide biographical and historical explanations of obscure references The text includes corrections and revisions that Auden marked in personal copies of his work and that are published here for the first time *Monologues of Today* Stanley Schell, 1916 *Virginia Woolf and Poetry* Emily Kopley, 2021 Offers a thorough reinterpretation of the motivations and aims of Woolf's canonical work and provides a major case study of genre rivalry It is written in clear and lively language and maintains a narrative drive as it traces Woolf's reading and writing over her lifetime *The Landscapes of W. H. Auden's Interwar Poetry* Ladislav Vít, 2021-12-14 This is the first book length study foregrounding Auden's sense of place as a means for enhancing our grasp of this crucial twentieth century poet Proposing that Auden had a remarkable spatial sensibility this book concentrates on his treatment of his homeland England as well as the North Pennines and Iceland both of which served as his good places holy grounds and sources of topophilic sentiment The readings draw on the scholarship of humanistic geography tracing patterns of mental constructs which emerge from spatial experience In a scholarly but engaging way this book argues that focusing on Auden's poetics of place as it emerged and evolved can be instrumental to our understanding of this influential poet not only in relation to his epoch but also to the Anglophone poetic tradition Precisely because of his stature these elaborations on Auden's preoccupation with places escapism borders and local identity promise to enrich our understanding of the cultural and intellectual climate of the interwar period when established notions of local places and cultures were beginning to be contested by internationalisation

This study will be of interest to both academics and students in the field of Anglophone literary studies while also appealing to those attracted to Auden's poetry, interwar culture and the literary representation of space *Theory of the Novel*

Romantic Readers and Transatlantic Travel Robin Jarvis, 2016-04-08 Why and how did people read literature on North America by explorers travellers emigrants and tourists This is the central question Robin Jarvis takes up as he

addresses a significant gap in scholarship on travel writing its contemporary reception Referencing reviews in the periodical press personal journals letters autobiographies marginalia and bibliographical evidence relating to the production distribution and reception of travel literature Jarvis focuses especially on the ideas and perceptions of North America expressed by individuals who never visited the subcontinent Among the issues Jarvis explores are what the British reception of North American travel narratives says about the ways in which the United States was imagined in the Romantic period how poets such as Samuel Taylor Coleridge Felicia Hemans Robert Southey and William Wordsworth all voracious travel readers incorporated their readings of travel books into their works and the ways in which the reception of North American travel writing should be contextualized within the broader contours of British society and culture Significantly Jarvis differentiates between different communities of readers to show the extent to which class or professional status affected the way travel literature was read Of equally crucial importance he discusses the reception of travel literature on Canada and the Arctic as distinct from that on the United States His book constitutes the most thorough exploration to date of the private reading experiences of travel literature during the Romantic period
