## **Prosocial Gang Implementing Aggression Replacement Training:**

*The Prosocial Gang* Arnold Goldstein, Barry Glick, 1994-06-13 Goldstein and Glick's book title *The Prosocial Gang* seems a contradiction in terms but it describes a successful attempt to alter the antisocial behavior in New York. An important element of the research program in my view was the principle upon which the study was based: Respect and open communication underpinned the process and workers were given weekly supervision after having been consulted about how the project would work. This ethos if followed through to the work with young people would have some effect on the outcomes if the young people were also consulted and treated with respect. As an academic exercise the book is well laid out with a full reference section at the end. I would recommend it to youth justice workers because of its practical application and scene setting of the wider world of young males. Christina Vincent in LCCJ Newsletter. The value of the work as a demonstration of what is possible is great. Philip Priestly in Legal and Criminological Psychology. This important book describes in detail an award winning gang intervention program: Aggression Replacement Training. The reduction in arrest rates as well as other results support the success of a multiyear project using the ART intervention approach with a series of very aggressive juvenile gangs in New York City. Working with gangs as a unit the goal was to not only teach them anger control and other skills but do so in such a way that their real world reference group the gang was turned as much as possible into a prosocial rather than an antisocial support group. This volume provides the reader with a thorough introduction to the history of gangs, current gang demographics, gang aggression and its etiology and a review and critique of the various types of gang interventions that have been and are being tried. An invaluable resource for students as well as for practitioners dealing with gangs. Four evaluations found that the program ART significantly improves the quality of the youths' interpersonal skills, enhances their ability to reduce and control anger, decreases the level of egocentricity and increases concern for the needs of others, substantially decreases antisocial behaviors, improves community functioning especially with peers and decreases criminal recidivism. OJJDP Model Programs 1993 Juvenile Justice Bulletin.

*Aggression Replacement Training* Arnold P. Goldstein,Barry Glick,John C. Gibbs,1998 Aggression Replacement Training ART is an intervention program designed to teach adolescents to understand and replace aggression and antisocial behaviour with positive alternatives The program s three part approach includes training in prosocial skills anger control and moral reasoning The manual includes summaries of ART s outcome evaluations and discusses a wide range of applications in schools and other settings Appendices contain over 100 pages of guidelines and checklists      Offender Rehabilitation in Practice Gary A. Bernfeld,David P. Farrington,Alan W. Leschied,2003-01-10 Documented evidence suggests that community safety is best achieved through policies promoting human services rather than relying totally on prisons and that promoting intervention in an individual s own environment known as ecological integrity is closely associated with effective intervention This is the first book to focus on the transfer of knowledge of worldwide effective offender rehabilitation programs Prominent researchers and practitioners in the criminal justice field have contributed their extensive knowledge of what it takes to implement effective correctional practices with ecological integrity Reviews real world challenges of program effectiveness and survival Offers effective evidence based innovative alternatives to imprisonment of offenders Offers a common multi level systems perspective as a framework for the international case studies featured The first book to focus on the transfer of knowledge and best practice through the concept of technology transfer      **Conduct Disorder and Offending Behaviour in Young People** Joanna Richardson,Kristin Liabo,2007-06-15 This book reviews the literature on a number of techniques and treatment approaches designed for use with adolescent conduct disorder and young offenders The authors also provide an overview of the condition including its developmental pathway the criteria for diagnosing conduct disorder and services for adolescents      A Handbook for Evidence-Based Juvenile Justice Systems James C. Howell,Mark W. Lipsey,John J. Wilson,2014-06-18 This handbook promotes a comprehensive strategy founded on evidence based programming for juvenile justice systems to adopt or enhance their current system The comprehensive strategy is supported strongly by the broad research base that is now available This strategy recognizes first that a relatively small proportion of the juveniles who initially enter the juvenile justice system will prove to be serious violent or chronic offenders but that group accounts for a large proportion of the overall amount of delinquency An important component of a comprehensive evidence based juvenile justice system therefore is distinguishing these offenders from others and focusing attention and resources on that smaller

group Second a comprehensive strategy recognizes that serious violent or chronic delinquency emerges along developmental pathways that progress from less to more serious profiles of offending Priority must be given to interrupting these offender careers by calibrating the level of supervision and control of the juveniles behavior to their level of risk The third major component of a comprehensive strategy therefore is effective intervention programs that are capable of reducing the recidivism of those juveniles at risk for further delinquency The Comprehensive Strategy for Serious Violent and Chronic Juvenile Offenders is an administrative framework that supports a continuum of services that parallel the development of offender careers This framework emphasizes evidence based programming specifically on recidivism reduction and supports protocols for developing comprehensive treatment plans that match effective services with offender treatment needs along the life course of delinquent careers as they move from intake onward to probation community programs confinement and reentry Juvenile justice systems will benefit from incorporation of a comprehensive strategy as provided in the handbook
