By William F. Boerliche

Second Edition

# Prospecting And Operating Small Gold Placers

**Robert B. Hoekzema, Steven A.  
Fechner**

## **Prospecting And Operating Small Gold Placers:**

**Prospecting and Operating Small Gold Placers** William Fay Boericke,1933      **Federal Placer-mining Laws and Regulations** United States. Bureau of Mines,Frederick William Johnson,Charles Freeman Jackson,1938      *Analyses of Pennsylvania Bituminous Coals* George Hall Ashley,1939      **SME Mining Reference Handbook** Raymond L. Lowrie,2002

A practical field reference for mining and mineral engineers that is small enough to carry into the field With its comprehensive store of charts graphs tables equations and rules of thumb this handbook is the essential technical reference for mobile mining professionals      **Technical Paper - Bureau of Mines** United States. Bureau of Mines,1939

**Prospecting and Operating Small Gold Placers** William Boericke,1950      *Engineering Bulletin* ,1921      Placer Gold Sampling in and Near the Chugach National Forest, Alaska Robert B. Hoekzema,Steven A. Fechner,1986      **Technical Paper** ,1938      *Prospecting for Lode Gold* Eugene Delos Gardner,1936

The Bureau of Mines receives many inquiries concerning favorable areas in which to prospect for gold procedure to be followed equipment required and allied subjects This circular has been prepared for use in reply to these inquiries and is a preprint fo part of a bulletin to be issued later on Equipping Developing and Operating Small Gold Mines The increased interest in gold mining manifested during the past few years 1932 1935 has stimulated prospecting Many adventurers have taken to the field to search for new gold deposits A large percentage of them have had no previous experience in prospecting for lode gold this paper has been written with the hope that it might assist these newcomers      **Western Mining** Otis E. Young, Jr.,Otis Young,Robert Lenon,1977-06-01 Here for the first time is a clear account in words and pictures of the methods by which gold and silver were extracted and processed in the Old West The author describes the early days of Spanish and Indian mining and the wild era inaugurated by the American prospector who rushed west to get rich quick ending with the year 1893 when repeal of the Sherman Silver Purchase Act virtually closed the mining frontier The account gives in laymen s language the techniques employed in prospecting placering lode mining and milling particularly those employed by the Spaniards Indians and Cornishmen and shows how the ever practical Americans adapted and improved them Special attention is given to the methods employed in the California and Montana gold fields Colorado and the Comstock Lode the Black Hills and Tombstone Arizona In these pages the reader also meets some of the unforgettable personalities whose lives enriched and sometimes impoverished the mining camps      B027: Placer mining in Nevada ,      **How to Mine and Prospect for Placer Gold** J. M. West,Depart U. S. Department of the Interior,2005-12 Increased leisure time and increased interest in the out of doors is leading more and more families to experiment with placer mining of gold and sometimes even to going on into small scale production This book supplies basic information on areas of occurrence equipment needed prospecting sampling mining and regulations concerning the possession and sale of gold Selected references are given for further study Placer gold has tantalized many a person who has tried his luck and skill in the hope of striking it rich Separating gold from embedded materials is basically

simple and can be done effectively on nearly any scale depending upon the deposit and the capital available for investment. The final product is consistently in demand at a relatively stable price. Historically however one must be advised that rewards for the majority of small scale miners those who operate on a shoestring have been depressingly small. First of all the placer miner must know where the placer deposits are located and he must have the technical knowledge to extract the gold. Additionally he must face problems of land ownership, water supply and water pollution all of which have grown in complexity with the population. The costs of labor and equipment are relatively high now although this may not seem significant to an individual mining a small deposit. Secondhand equipment may become available at relatively low cost because of a slowdown in construction or as surplus at the end of a war. By taking advantage of such opportunities one can sometimes make an otherwise unprofitable operation successful at least as long as the equipment holds up. To the novice or weekend prospector the more complex of placer mining may seem hard to comprehend. At any rate the novice is often more interested in the recreational values offered by gold placering than in its profitability. Thus the search for and discovery of even a small grain or nugget of gold is an achievement worth of considerable effort. As a start the beginner may gain some benefit from visiting one of the many pan for a fee tourist establishments typically found in gold mining areas.

**Geology and Ore Deposits of the Casto Quadrangle, Idaho** Clyde Polhemus Ross, 1934      **Geological Survey Bulletin** ,1949      Bulletin ,1941

Studies of Suction Dredge Gold-placer Mining Operations Along the Fortymile River, Eastern Alaska Richard B.

Wauty, 1997      **Geology and Oil Resources of the Elk Hills, California** Geological Survey (U.S.), John Milton

Nickles, Wendell Phillips Woodring, Paul Vere Roundy, Philip Sidney Smith, Howard R. Farnsworth, 1932      **Metalliferous**

**Deposits of the Greater Helena Mining Region, Montana** Joseph Thomas Pardee, Frank Charles Schrader, 1933

Mining and Mineral Operation[s] in the United States United States. Bureau of Mines, 1967
