Protecting The Vulnerable:

Protecting the Vulnerable Robert E. Goodin, 1985 Our narrower obligations often blind us to larger social responsibilities The moral claims arising out of special relationships family friends colleagues and so on always seem to take priority Strangers ordinarily get and ordinarily are thought to deserve only what is left over Robert E Goodin argues that this is morally mistaken In *Protecting the Vulnerable* he presents a comprehensive theory of responsibility based on the concept of vulnerability Since the range of people vulnerable to our actions or choices extends beyond those to whom we have made specific commitments promises vows contracts we must recognize a much more extensive network of obligations and moral claims State welfare services for example are morally on a par with the services we render to family and friends The same principle widens our international intergenerational and interpersonal responsibilities as well as our duties toward animals and natural environments This book written with keen intelligence and unfailing common sense opens up new perspectives on issues central to public policy and of critical concern to philosophers and social scientists as well as to politicians lawyers and social workers

Protecting Vulnerable Groups Francesca Ippolito, Sara Iglesias Sánchez, 2015-04-30 The concept of vulnerability has not been unequivocally interpreted either in regional or in universal international legal instruments This book analyses the work of the EU and the Council of Europe in ascertaining a clear framework or a set of criteria suitable to determine those who should be considered vulnerable and disadvantaged It also explores the measures required to protect their human rights Key questions can be answered by analysing the different methods used to determine the levels of protection offered by the two European systems These questions include whether the Convention and the case law of the Strasbourg Court the monitoring mechanisms of the Council of Europe EU law and the case law of the European Court of Justice enhance the protection of vulnerable groups and expand the protection of their rights or alternatively whether they are mainly used to fill in relatively minor gaps or occasional lapses in national rights

guarantees The analysis also shows the extent to which these two European systems provide analogous or indeed divergent standards and how any such divergence might be problematic in light of the EU accession to the European Convention on Human Rights *Protecting Vulnerable Groups* Francesca Ippolito, Sara Iglesias Sánchez, 2015-04-30 The concept of vulnerability has not been unequivocally interpreted either in regional or in universal international legal instruments This book analyses the work of the EU and the Council of Europe in ascertaining a clear framework or a set of criteria suitable to determine those who should be considered vulnerable and disadvantaged It also explores the measures required to protect their human rights Key questions can be answered by analysing the different methods used to determine the levels of protection offered by the two European systems These questions include whether the Convention and the case law of the Strasbourg Court the monitoring mechanisms of the Council of Europe EU law and the case law of the European Court of Justice enhance the protection of vulnerable groups and expand the protection of their rights or alternatively whether they are mainly used to fill in relatively minor gaps or occasional lapses in national rights guarantees The analysis also shows the extent to which these two European systems provide analogous or indeed divergent standards and how any such divergence might be problematic in light of the EU accession to the European Convention on Human Rights **An Epidemic Among My People** Paul Djupe, Amanda Friesen, 2023-01-20 How religion reacted to the pandemic and how the virus and government policy affected religion in America **Vulnerability** Catriona Mackenzie, 2014 This volume breaks new ground by investigating the ethics of vulnerability Drawing on various ethical traditions the contributors explore the nature of vulnerability the responsibilities owed to the vulnerable and by whom [Feminist Judgments of Aotearoa New Zealand](#) Elisabeth McDonald, Rhonda Powell, Mamari Stephens, Rosemary Hunter, 2017-11-30 This edited collection asks how key New Zealand judgments might read if they were written by a feminist judge Feminist judging is an emerging critical legal approach that works within the confines of common law legal method to challenge the myth of judicial neutrality and illustrate how the personal experiences and perspectives of judges may influence the reasoning and outcome of their decisions Uniquely this book includes a set of cases employing an approach based on mana wahine the use of Maori values that recognise the complex realities of Maori women's lives Through these feminist and mana wahine judgments it opens possibilities of more inclusive judicial decision making for the future This Project stops us in our tracks and asks us how could things have been different At key moments in our legal history what difference would it have made if feminist judges had been at the tiller By doing so it raises a host of important questions What does it take to be a feminist judge Would we want our judges to be feminists and if so why Is there a uniquely female perspective to judging Professor Claudia Geiringer Faculty of Law Victoria University of Wellington With this book some of our leading jurists expose the biases and power structures that underpin legal rules and the interpretation of them Some also give voice to mana wahine perspectives on and about the law that have become invisible over time perpetuating the impacts of colonialism and patriarchy combined on

Maori women I hope this book will be a catalyst for our nation to better understand and then seek to ameliorate these impacts Dr Claire Charters Associate Professor Faculty of Law University of Auckland The work is highly illuminating and is critical to the development of our legal system It is crucial not only for legal education so that students of the law open their minds to the different ways legal problems can be conceptualised and decided It is also crucial if we are going to have a truly just legal system where all the different voices and perspectives are fairly heard Professor Mark Henaghan Dean of the Faculty of Law University of Otago I believe this project is particularly important as few academics or researchers in New Zealand concentrate on judicial method I am therefore hopeful that it will provoke thoughtful debate in a critical area for society The Honourable Justice Helen Winkelmann New Zealand Court of Appeal

Vulnerabilities, Care and Family Law Julie Wallbank, Jonathan Herring, 2013-11-26 While in the past family life was characterised as a haven from the harsh realities of life it is now recognised as a site of vulnerabilities and a place where care work can go unacknowledged and be a source of social and economic hardship This book addresses the strong relationships that exist between vulnerability and care and dependency in particular contexts where family law and social policy have a contribution to make A fundamental premise of this collection is that vulnerability needs to be analysed in a way that gets at the heart of the differential power relationships that exist in society particularly in respect of access to family justice including effective social policy and law targeted at the specific needs of families in mutually dependent caring relationships It is therefore crucial to critically examine the various approaches taken by policy makers and law reformers in order to understand the range of ways that some families and some family members may be rendered more vulnerable than others The first book of its kind to provide an intersectional approach to this subject **Vulnerabilities Care and Family Law** will be of interest to students and practitioners of social policy and family law

Assisted Death L. W. Sumner, 2011-07-07 L W Sumner explores the ethical and legal status of physician assisted suicide and euthanasia and argues powerfully that these forms of assisted death can claim the same justification as other widely accepted end of life practices He surveys the opposing views and legal precedents and develops a model regulatory policy for assisted death

Responsible Conduct of Research Adil E. Shamoo, David B. Resnik, 2009-02-12 Recent scandals and controversies such as data fabrication in federally funded science data manipulation and distortion in private industry and human embryonic stem cell research illustrate the importance of ethics in science *Responsible Conduct of Research* now in a completely updated second edition provides an introduction to the social ethical and legal issues facing scientists today

Law and Professional Issues in Nursing Richard Griffith, Cassam Tengnah, 2023-04-05 Mapped to the 2018 NMC Standards this practical and straightforward book is an essential introduction to law and associated professional issues in nursing Why do you need this book Offers a clear and concise introduction to the law you need to know Written specifically for nursing students in straightforward jargon free language Updated throughout to reflect recent changes in the law including the Liberty Protection Safeguards Case studies and activities build your

knowledge of how the law applies to everyday nursing practice *The Ethic of Care: A Moral Compass for Canadian Nursing Practice (Revised Edition)* Kathleen Stephany, 2020-02-04 There is an increased use of technology and informatics heavier workloads and constant changes in the way in which disease processes are managed Yet when compared with other health professionals nurses still spend a great deal of time in direct contact with patients and clients They stay at the bedside listen to their stories give comfort and advocate The Ethic of Care A Moral Compass for Canadian Nursing Practice is unique from other nursing ethics textbooks in several key ways The book adds a heightened dimension to the already rich knowledge in the field of applied nursing ethics and the ethic of care The author argues that the ethic of care or the moral imperative to act justly be the guiding compass for everything that nurses do It is with passion and conviction that nurses are encouraged to embody the ethic of care as a lived virtue Nurses are also inspired to be the leaders of tomorrow by working toward achieving accountability and sustainability in the Canadian publicly funded health care system and by effectively addressing social inequities At the end of each chapter the author conveys real life case studies as derived from her experiences as a critical care nurse psychiatric nurse clinician and former Coroner These vignettes bring the subject to life and serve as a means for applying newly acquired ethical knowledge The aim of this book is to inspire nurses to be as skillful and compassionate as they can be so that they will leave every encounter with their clients better than when they first arrived The book attempts to inspire nurses to be ethical leaders for social change at the patient client community and global level This revised edition of the book includes additional information about trauma informed care to combat systemic racism and improve the health outcomes for Indigenous people ethics gender and sexual orientation is dealt with in an inclusive and sensitive way and a new Code of Conduct has been included **Using the Law in Social Work** Robert Johns, 2011-07-26

Law is a core subject of the social work degree and this title introduces students to the complexities and challenges of this subject Now in its fifth edition this well established book looks at how the law in England and Wales interacts with key aspects of practice such as human rights mental health youth justice and community care Fully revised to include new information on youth justice this text is essential reading for all social work students The implications of the Social Work Task Force and ongoing changes to social work practice are also discussed and reflected upon **Physician Assisted**

Suicide Margaret P. Battin, Rosamond Rhodes, Anita Silvers, 2015-10-15 Physician Assisted Suicide is a cross disciplinary collection of essays from philosophers physicians theologians social scientists lawyers and economists As the first book to consider the implications of the Supreme Court decisions in *Washington v Glucksburg* and *Vacco v Quill* concerning physician assisted suicide from a variety of perspectives this collection advances informed reflective vigorous public debate

Sharing Responsibility Luke Glanville, 2021-05-18 A look at the duty of nations to protect human rights beyond borders why it has failed in practice and what can be done about it The idea that states share a responsibility to shield people everywhere from atrocities is presently under threat Despite some early twenty first century successes including the 2005

United Nations endorsement of the Responsibility to Protect the project has been placed into jeopardy due to catastrophes in such places as Syria Myanmar and Yemen resurgent nationalism and growing global antagonism In *Sharing Responsibility* Luke Glanville seeks to diagnose the current crisis in international protection by exploring its long and troubled history With attention to ethics law and politics he measures what possibilities remain for protecting people wherever they reside from atrocities despite formidable challenges in the international arena With a focus on Western natural law and the European society of states Glanville shows that the history of the shared responsibility to protect is marked by courageous efforts as well as troubling ties to Western imperialism evasion and abuse The project of safeguarding vulnerable populations can undoubtedly devolve into blame shifting and hypocrisy but can also spark effective burden sharing among nations Glanville considers how states should support this responsibility whether it can be coherently codified in law the extent to which states have embraced their responsibilities and what might lead them to do so more reliably in the future *Sharing Responsibility* wrestles with how countries should care for imperiled people and how the ideal of the responsibility to protect might inspire just behavior in an imperfect and troubled world

Assisted Suicide and the European Convention on Human Rights Stevie Martin, 2021-04-12 Locating assisted suicide within the broader medical end of life context and drawing on the empirical data available from the increasing number of permissive jurisdictions this book provides a novel examination of the human rights implications of the prohibition on assisted suicide in England and Wales and beyond Assisted suicide is a contentious topic and one which has been the subject of judicial and academic debate internationally The central objective of the book is to approach the question of the ban's compatibility with the European Convention on Human Rights afresh freed from the constraints of the existing case law and its erroneous approach to the legal issues and selective reliance on empirical data The book also examines the compatibility of the ban on assisted suicide with rights which have either been erroneously disregarded or not considered by either the domestic courts or the European Court of Human Rights Having regard to human rights jurisprudence more broadly including in the context of abortion the research and analysis undertaken here demonstrates that the ban on assisted suicide violates the rights of a significant number of individuals to life to freedom from torture or inhuman or degrading treatment and to private life Such analysis does not depend on a strained or contrived approach to the rights at issue Rather the conclusions flow naturally from a coherent logical application of the established principles governing those rights While the focus of the book is the Suicide Act 1961 the conclusions reached have implications beyond England and Wales including for the other devolved jurisdictions and international jurisdictions Beyond courts and legislators it will be a valuable resource for students of human rights and medical law as well as medical and legal practitioners and academics working in human rights and end of life care

Energy Justice and Energy Law Iñigo del Guayo, Lee Godden, Donald D. Zillman, Milton Fernando Montoya, José Juan González, 2020-05-21 Energy justice has emerged over the last decade as a matter of vital concern in energy law which can be seen in the attention directed to energy poverty

and the United Nations Sustainable Development Goals There are energy justice concerns in areas of law as diverse as human rights consumer protection international law and trade and in many forms of regional and national energy law and regulation This edited collection explores in detail at four kinds of energy justice The first distributive justice relates to the equitable distribution of the benefits and burdens of energy activities which is challenged by the existence of people suffering from energy poverty Secondly procedural or participation justice consists of the right of all communities to participate in decision making regarding energy projects and policies that affect them This dimension of energy justice often includes procedural rights to information and access to courts Under the concept of reparation or restorative justice the book looks at even handed enforcement of energy statutes and regulations as well as access to remedies when legal rights are violated Finally the collection addresses social justice with the recognition that energy injustice cannot be separated from other social ills such as poverty and subordination based on race gender or indigeneity These issues feed into a wider conversation about how we achieve a just energy transition as the world confronts the urgent challenges of climate change *Green Finance and Investment Energy Subsidy Reform in the Republic of Moldova Energy Affordability, Fiscal and Environmental Impacts* OECD,2018-10-18 This report looks at the fiscal environmental and social impacts of energy subsidy reform in Moldova with a particular focus on energy affordability Wireless Security and Privacy Tara M. Swaminatha,Charles R. Elden,2003 Before wireless commerce or even wireless access to the corporate network can really take off organizations are going to have to improve their efforts in wireless security Wireless Security and Privacy presents a complete methodology for security professionals and wireless developers to coordinate their efforts establish wireless security best practices and establish security measures that keep pace with development The material shows how to develop a risk model and shows how to implement it through the lifecycle of a system Coverage includes the essentials on cryptography and privacy issues In order to design appropriate security applications the authors teach the limitations inherent in wireless devices as well as best methods for developing secure software for them The authors combine the right amount of technological background in conjunction with a defined process for assessing wireless security **Translational Toxicology and Therapeutics** Michael D. Waters,Claude L. Hughes,2018-01-04 Written by leading research scientists this book integrates current knowledge of toxicology and human health through coverage of environmental toxicants genetic epigenetic mechanisms and carcinogenicity Provides information on lifestyle choices that can reduce cancer risk Offers a systematic approach to identify mutagenic developmental and reproductive toxicants Helps readers develop new animal models and tests to assess toxic impacts of mutation and cancer on human health Explains specific cellular and molecular targets of known toxicants operating through genetic and epigenetic mechanisms
