Economic Commission for Europe,1997 *Information Needs for Water Management* Jos G. Timmerman,2014-07-22 This book provides the necessary elements to determine exactly what information should be collected to make the collected information relevant for policy makers It highlights the dissatisfaction of information users about the information they get and the reasons for this dissatisfaction It also discusses general issues around the role and use of information in policy making The text then describes the how to develop a full understanding of the policy makers information needs and will describe how policy makers can be included in the process Finally the book describes how the results from this process are input for the information production process **Routledge Handbook of Water Law and Policy** Alistair Rieu-Clarke,Andrew Allan,Sarah Hendry,2017-02-24 Water plays a key role in addressing the most pressing global challenges of our time including climate change adaptation food and energy security environmental sustainability and the promotion of peace and stability This comprehensive handbook explores the pivotal place of law and policy in efforts to ensure that water enables positive responses to these challenges and provides a basis for sound governance The book reveals that significant progress has been made in recent decades to strengthen the governance of water resource management at different scales including helping to address international and sub national conflicts over transboundary water resources It demonstrates that effective laws and policies are fundamental drivers for the safe equitable and sustainable utilization of water However it is also shown that what might constitute an effective law or policy related to water resources management is still hotly debated As such the handbook provides an important and definitive reference text for all studying water governance and management *Water Security* Bruce Lankford,Karen Bakker,Mark Zeitoun,Declan Conway,2013-10-15 The purpose of this book is to present an overview of the latest research policy practitioner academic and international thinking on water security an issue that like water governance a few years ago has developed much policy awareness and momentum with a

wide range of stakeholders As a concept it is open to multiple interpretations and the authors here set out the various approaches to the topic from different perspectives Key themes addressed include Water security as a foreign policy issue The interconnected variables of water food and human security Dimensions other than military and international relations concerns around water security Water security theory and methods tools and audits The book is loosely based on a masters level degree plus a short professional course on water security both given at the University of East Anglia delivered by international authorities on their subjects It should serve as an introductory textbook as well as be of value to professionals NGOs and policy makers

The Environment and Sustainable Development in the New Central Europe Zbigniew Bochniarz, Gary B. Cohen, 2007-12-01 With the enlargement of the European Union the accession countries are coming under pressure to develop and meet EU standards for environmental protection and sustainable development In this ongoing process global economic liberalization regulatory policy conservation and lifestyle issues are all involved and creative solutions will have to be found Historians geographers economists ecologists business management experts public policy specialists and community organizers have come together in this volume and examine for the first time environmental issues ranging from national and regional policy and macroeconomics to local studies in community regeneration The evidence suggests that far from being mere passive recipients of instruction and assistance from outside the people of Central and East Central Europe have been engaged actively in working out solutions to these problems Several promising cases illustrate opportunities to overcome crisis situations and offer examples of good practices while others pose warnings The experiences of these countries in wrestling with issues of sustainability continue to be of importance to policy development within the EU and may serve also as examples for both developed and developing countries worldwide
