By asking questions about the questions we ask ourselves, Kindley uncovers surprising connections between literature and science, psychology and business and journalism and surveillance. *Object Lessons* is published in partnership with an essay series in *The Atlantic*.

Proust's Songbook Jennifer Rushworth, 2024-06-04 In Proust's *Songbook*, Jennifer Rushworth analyzes and theorizes the presence and role of songs in Marcel Proust's novel *la recherche du temps perdu*. Instead of focusing on instrumental music and large-scale forms such as symphonies and opera as is common in Proust musical studies, Rushworth argues for the centrality of songs and lyrics in Proust's opus. Her work analyzes the ways in which the author inserted songs at key turning points in his novel and how he drew inspiration from contemporary composers and theorists of song. Rushworth presents detailed readings of five moments of song in *la recherche du temps perdu*, highlighting the songs' significance by paying close attention to their lyrics, music, composers and histories.

Rushworth interprets these episodes through theoretical reflections on song and voice drawing particularly from the works of Reynaldo Hahn and Roland Barthes. She argues that songs in Proust's novel are connected and resonate with one another across the different volumes yet also shows how song for Proust is a solo amateur and intimate affair. In addition, she points to Proust's juxtapositions of songs with meditations on the notion of *mauvaise musique* (bad music) to demonstrate the existence of a blurred boundary between songs that are popular and songs that are art. According to Rushworth, a song for Proust has a special relation to repetition and memory due to its typical brevity and that song itself becomes a mode of resistance in *la Recherche*, especially on the part of characters in the face of family and familial expectations. She also defines the songs in Proust's novel as songs of farewell, noting that to sing farewell is a means to resist the very parting that is being expressed and demonstrates how songs in formal terms resist the forward impetus of narrative.

Proust's Duchess Caroline Weber, 2019-11-26. PULITZER PRIZE FINALIST. A brilliant look at turn of the century Paris through the first in-depth study of the three women Proust used to create his supreme fictional character, the Duchesse de Guermantes. Weber has done a remarkable job of bringing to life a world of culture, glamour, and privilege. The Wall Street Journal. Geneviève Halévy, Bizet, Strauss, Laure de Sade, Comtesse de Adhémar de Chevalign, and Lisabeth de Riquet de Caraman Chimay, the Comtesse Greffulhe, these were the three superstars of fin de siècle Parisian high society who, as Caroline Weber says, transformed themselves and were transformed by those around them into living legends, paragons of elegance, nobility, and style. All well, but unhappily married, these women sought freedom and fulfillment by reinventing themselves between the 1870s and 1890s as icons. At their fabled salons, they inspired the creativity of several generations of writers, visual artists, composers, designers, and journalists. Against a rich historical backdrop, Weber takes the reader into these women's daily lives of masked balls, hunts, dinners, court visits, nights at the opera, or theater. But we see as well the loneliness, rigid social rules, and loveless arranged marriages that constricted these women's lives. Proust, as a twenty-year-old law student in 1892, would worship them from afar and later meet them and create his celebrated composite character for *The Remembrance of Things Past*.
