four royal princes whose proximity to their older brothers gave them vast privileges and great prestige but also placed severe limitations on their activities and aspirations Each chapter analyses a different aspect of the lives of François duke of Alençon Gaston duke of Orléans Philippe duke of Orléans and Louis Stanislas count of Provence starting with their birth and education their marriages and political careers and their search for alternative expressions of power through the patronage of the arts architecture and learning By comparing these four lives a powerful image emerges of a key development in the institution of modern monarchy the transformation of the rebellious politically ambitious prince into the loyal defender even in disagreement of the Crown and of the older brother who wore it This volume is the perfect resource for all students and scholars interested in the history of France monarchy early modern state building and court studies **Public Space in the**

Hastenbeck 1757 Olivier Lapray, 2021-10-15 The outbreak of the Seven Years War saw the formation of new alliances and led to the conduct of military operations in several theaters simultaneously The campaign of 1757 saw large scale maneuvers with their necessary operational corollaries of supply and logistics as France put an army of 100 000 men into the field The conduct of the campaign also testifies to the difficulty of exercising command in the face of a court and a government for which short term results took precedence over means Notwithstanding such difficulties the campaign of the French armies in Westphalia saw its climax play out around the village of Hastenbeck on 26 July 1757 where the forces of Marshal d'Estrées gained a victory that came close to knocking Hanover out of the war The story of the campaign can be told from the human perspective thanks to the large body of memoirs and letters from officers both general and subordinate of cavalry and infantry regiments Having left their garrisons four months earlier they had come to battle at the gates of Hanover after having traveled more than 600 kilometers through the Low Countries and into Germany Securitising Decolonisation

Julius Heise, 2024-05-23 With the right to petition the United Nations the Ewe and Togoland unification movement enjoyed a privilege unmatched by other dependent peoples Using language conveying insecurity the movement seized the international spotlight ensuring that the topic of unification dominated the UN Trusteeship System for over a decade Yet its vociferous securitisations fell silent due to colonial distortion leaving unification unfulfilled thus allowing the seeds of secessionist conflict to grow At the intersection of postcolonial theory and security studies Julius Heise presents a theory driven history of
